THANKSGIVING

AT YENCHENG, CHINA, 1928.

Dawn's greeting to my eyes,
A windowful of stars!
At eve a sweet surprise—
Jupiter, Venus, Mars.

Sunshine, and falling leaves
And soft persistent showers.
A garden that achieves
A few exquisite flowers.

Chrysanthemums' display,
So bright and soft of hue!
And willow's yellow spray,
A flame against the blue.

A home—all spick and spank
With pictures on the wall;
And books in ordered rank,
And music waiting call.

Bedding, warm and soft,
Cushions, stoves and chairs.
Meals recurring oft,
And gently-rising stairs.

Hopes—and memories,
Friendship, tried by fire.
Love that was—and is,
And vigor to aspire.

Work—and souls to save,
A witness true to bear;
A message, great and grave;
A Saviour's love to share.

Thou thyself, my Lord!
Thy mercies daily new,
The treasures of thy Word,
Thy grace, so dear and true.

For all, accept my praise,
And fill my heart with prayer.
Lead on in all thy ways,
Give faith to do and dare.

A. T. WHITE.

(31) The secretary was instructed to send a cable to **Mr. Jas. R. Graham, Jr.,** communicating to him the action of the mission in regard to him.

(32) The report of the special committee appointed to consider the **pamphlet of the National Christian Council** entitled, "The Church in China in its Relation to the Churches of Europe and America, prepared by Members of the China Delegation to the Meeting of the International Missionary Council, Jerusalem, 1928," and to answer the request of the Executive Committee (Dr. Smith's letter of April 16, 1929) for the attitude of the mission towards the positions taken in this leaflet, and, where the mission dissents therefrom, its reasons for such dissent, was adopted. The vote on this matter was unanimous. The report follows:

In reply to the request of the Executive Committee for the opinion of this mission in regard to the pamphlet published by the National Christian Council and entitled "The Church in China in its Relation to the Churches of Europe and America," etc., we would reply as follows:

We wish to call the attention of the Committee to the fact that the ultimate aim of all mission work in China is the complete establishment of a completely indigenous native church.

However, there are two distinct policies now being pursued in China.

One looks to the complete absorption of the mission, missionaries, and the foreign funds by the native church.

The other looks to the establishment of a native church entirely self supporting, self governing, and self propagating, as a separate entity from the missionaries and funds, these being released for new work not now reached.

In view of the fact that the pamphlet published by the National Christian Council and prepared by the delegation to Jerusalem has as the basis of its entire plan the first policy, as outlined above, and because we feel that this plan is fatal to the attaining of the desired aim; we therefore express our dissent from the principle as a whole and from the policies as outlined in particular. This is the mature judgment of this mission based on the combined experience of years of service and of *facing the real problems* of the work and with the deepest concern for the ultimate best good of the native church.

(33) The report of the special committee appointed to consider the matter of the **Shantung Christian University** and to prepare a letter in answer to one sent to this mission on behalf of the board of that institution by Dr. E. W. Burt, was adopted as follows:

Resolved that the North Kiangsu Mission considers that the wording of its action of September 15th, 1927, in regard to the Shantung Christian University was unfortunate, in that certain words in that action have been interpreted in a way other than intended, and we therefore, with the qualifying statements as below, cheerfully withdraw that action and retract those statements.

However, in view of the frank statements in Dr. E. W. Burt's letter of December 3rd, 1928, writing on behalf of the committee appointed by the Field Board, in which letter Dr. Burt freely admits that there exists in the University two separate and distinct types of theological belief and teaching, which we feel to be absolutely incompatable in the same institution; in view of the evidence we have of the results of this system of dual teaching in the statements and lives of students from that University; and in view of the fact that at a recent meeting of the Field Board, the Board in considering the question of registration voted to delete the word "Christian" from the "Aim of the University" because of the fear on the part of some that the inclusion of the word "Christian" would prejudice the best interests of the University in the eyes of the Chinese government;

We, the members of the North Kiangsu Mission feel that there is no alternative for us but to notify the Board of Managers of the Shantung Christian University that we cannot continue to cooperate in, and assume responsibility for, administration of the University through the Board.

We express our willingness to continue in the Medical Department as at present, provided this arrangement is acceptable to the Board, and shall instruct our representative on the Board to vote only on such matters as affect directly the Medical Department.

The mission continued consideration of the report of the Ad Interim Committee.

(34) The report of our representative on the Board of the **Bible Teachers Training School for Women in Nanking** was received. (See Appendix, p. 29), the following action being taken as a substitute for the recommendations in the report.

Resolved, 1. That our mission has been well satisfied with the work of the Bible Teachers Training School of Nanking, and rejoices in its splendid results. We therefore greatly regret than an attempt to bring about a revision of the constitution has resulted in a situation which the Board believes necessitates a separation. If reorganization is inevitable, we put ourselves on record as standing unalterably for the religious purpose of the school as set forth in its constitution; and as being in hearty accord with that loyalty to the word of God which has ever been the glory of this institution. Our cooperation and support will be with those who carry on the school along the lines laid down by its founders.

2. We request the representative of our mission on the board, and the alternate, together with a man appointed by the mission, to act as a committee to take the whole matter of the reorganization of the Bible Teachers Training School under advisement, offering suggestions and entering into the councils of those who are now planning this reorganization, so far as it shall seem wise; and to make a full report, with recommendations, to the next North Kiangsu Mission meeting.

3. That we request the Joint Conference Committee to either concur with us in taking this action or to make such suggestions to our mission as they shall see fit.

4. The matter of the appropriation to the school for the year 1930-31 is referred to the Estimates Committee.

(35) The mission goes on record as inviting **Rev. and Mrs. A. R. Craig** to take up work within the bounds of our mission, their location to be decided later.

(36) Resolved that the secretary, in collaboration with Messrs. Junkin and Brown, be directed to write a covering letter to the Executive Committee of Foreign Missions explaining the present and past policy of the mission in **sharing with the Chinese church in the administration** of the work and the freedom of the Chinese church from the first in ecclesiastical matters

The meeting adjourned with prayer.

Regarding **the use of mission property for non mission purposes,** resolved that the mission does not approve of lending or renting mission property to any individual or organization, (government or otherwise;) any exception to this rule must have both consular and mission approval.

N.B. This is not to be understood as forbidding the temporary use of mission property by Chinese, if approved by the station concerned. for the purpose of protecting same.

Further consideration was given the report of the Ad Interim Committee.

(39) The representative of the mission on the Board of the **Mateer Memorial Institute** made a report which was adopted. (See Appendix, p. 31).

(43) Voted to take the report of the committee on the Educational policy of the Mission from the table and to consider the recommendations seriatim.

(44) Voted to allow the Suchowfu station to open its junior middle school for boys this fall if in the judgment of the station it seems wise. It is understood that the rules of the mission in regard to schools shall apply in all such cases.

(45) The following recommendations of the committee on the **Educational policy of the Mission** were adopted:

We recommend that the mission express its **hearty endorsement** of the following resolution adopted by the **Mid-China Mission** at its last February meeting:

"The Mid-China Mission fully recognizes that secular education in any country is basally a concern of the state; and we affirm that, while we desire to keep our educational standards as high as those required by the government yet our mission would make Christian teaching and worship the heart and center of the education provided for in our schools with the purpose of bringing up the children of our Christian constituency in the Faith, and of turning to Christ as many of the non-Christians as we can. We believe it to be our sacred duty to bring every student entering our schools into direct contact with the Word of God in the curriculum, and under the witness to the Word in preaching; and we put ourselves on record as firmly believing that the best way of attaining these results is through the maintenance in all of our schools of some required courses in Bible instruction, and some religious exercises at which attendance shall be required." (See Minutes of Mid-China Mission, 1928-1929, page 28.)

We recommend that the mission express its approval of the resolution passed by the Mid-China Mission at its meeting last February 22nd, **re Hangchow College** and registration, (see Minutes of Mid-China Mission 1928-1929, page 17;) and that the secretary of the mission be instructed to write to the Executive Committee of Foreign Missions, at Nashville to this effect and draw the attention of the Executive Committee to the fact that the stand taken by the Executive Committee in this matter necessarily affects all of our school work.

(46) Voted that the **committee on the Educational policy** of the Mission be **continued,** the nominating committee to bring in nominations.

(47) A letter to the Executive Committee prepared by the Medical Committee was approved, in which in answer to the request of the Executive Committee re delaying the time of **furlough** of missionaries for this year the judgment was expressed that it would not be wise to so extend the term of service of any of the members of the mission who were in China and endured the strain of the troublous times of the revolution and its aftermath.

(59) Voted to **disapprove** of **action No. 481 of the A.I.C. minutes** relative to the use of unused appropriations, and that Mr. Talbot be allowed to draw Mex. $300 of reparations for repairs on his residence when he returns

"The North Kiangsu Mission requests the Unites States **Consul** to urge the Chinese government to reimburse the mission for **losses to mission property** sustained during the unrest in 1927-1928. This is not a punitive measure, but one of international justice. We would point out that until settlement is made, it appears to the public that the looting of mission property is approved by the government and is praiseworthy, thus endangering the future peace of all nationals in the interior."

The meeting adjourned with prayer.

This action supercedes No. 396, A. I. C. Minutes.

That each of the eight stations of the mission make a detailed report, revised to date, of all mission property losses, including the losses which have already been replaced and those for which claims are now being made, and send the lists to the Committee on Reparations. Unless these revised lists are received by this committee by the end of September

Voted to recommend to the mission to approve the request of the Suchowfu station that a further grant of Mex. $500 be made for reconditioning the Boys School, in view of the fact that the mission has just given the station permission to reopen the Junior High School. The station will only use this sum if the school opens. This would bring the total granted to the school for this purpose to date to $1,000. This sum would be used for making beds and tables, practically all of which were destroyed, and will still be insufficient to completely restore the building.

Report of the Representative on the Board of the Shantung Christian University.

Your representative reports as follows:

There was a meeting of the Field Board of Managers in Tsinanfu on November 8th, 1928.

The three great subjects brought up for discussion were: the plan for correlation; the appointment of a new president; and the subject of registration.

1. Correlation was approved as follows, "We approve of this program with the understanding that the present vocational programs for training physicians, nurses, pastors and teachers be continued and strengthened and that the new line of activity be added gradually as staff funds and methods are developed."

2. For president six names were brought forth. Dr. Y. Y. Tsu was finally chosen. Dr. Shields was chosen for the vice president, with the understanding that Dr. Li Tien Lu would continue as acting president until the office of president should be permanently filled. Dr. Tsu asked permission to have several weeks in which to consider the invitation. Since then word has come that he has refused the position.

3. The most debated subject of course was registration. This subject was discussed for hours. The vote was as follows: "Voted, that inasmuch as the government regulations promulgated February, 8th, 1928, by the Nationalist Government are considered as not interfering with the maintenance of the Christian character of this university, the Field Board of Managers recommends that immediate steps be taken to register this university with the Nationalist Government."

"Voted that the following Chinese text be used as a statement of purpose of the university in its registration with the government: 'This Board of Directors accepts full power of administration of the private institution known as Cheeloo University, founded by the following Christian missionary bodies amongst others, namely: (here follow the names of the cooperating societies) with the purpose of maintaining their spirit of love, sacrifice and service, of cultivating the highest type of character, of providing professional training, of pursuing higher learning, and of meeting the needs of society.'" The vote was unanimous save for one vote.

The last thing on the schedule was the notice sent by this mission last year, but not presented. As the rule is that our mission must give notice one year in advance, this could not be put into force before next year. Naturally the notice was received with a good deal of surprise. I was asked for facts

but those I had were not definite enough. So I advised that a member of the Committee write to the mission. Dr. Burt was chosen, and you have already received his letter.

Respectfully submitted,

NETTIE D. GRIER, *Chairman.*

Report of the Representative on the Board of the North China Theological Seminary.

It is with gratitude to God that we report a year of quiet and peace, undisturbed either by warfare or bandits. The Department of Education of the Shantung Provincial Government made the seminary the object of their special attention. which resulted in having to change the Chinese name of the institution.

The total enrollment for the term was eighty-five students, coming from fourteen different provinces and representing at least twelve different church bodies. No doubt the reason for such a wide representation lies in the fact that in all these bodies there are many who accept the Bible at face value and desire their students to be trained in an institution which stands firmly for the whole Bible. In January of this year fifteen young men graduated with diplomas, and two others, finishing the course of study, received certificates. The graduates were all located before they left the seminary, the supply being insufficient to meet the demand for workers. This fact makes us feel that the seminary is meeting a real need and occupies a vital place in the development of the church of the Lord Jesus Christ in China.

For the most part the students have given themselves to hard, faithful study, and what time they could spare from their classroom preparation they have devoted to evangelistic work in the city and neighboring villages. One of the distinctive features of this institution is the vital spiritual life of the student body,—their devotional study of the Bible and their earnest prayer life. In this respect the present year has not fallen short of former years.

Two notable contributions to the theological literature of the Chinese church have been made during the year by Dr. Hayes, who with Mrs. Hayes is at home on a short furlough. Just before his departure he finished his systematic theology, which is as complete, accurate, and scientific a textbook on the subject as is extant in any language, being the mature product of his profound scholarship and nearly half a century of experience as a teacher in China. Also the revised edition of his well known Commentary on Romans came off the press early this year. The words of the Psalmist are most certainly true of him, "They shall bring forth fruit in old age." Though past the age limit his Board is not retiring him, and he expects to return in the autumn in time for the opening of the seminary. A hearty welcome awaits him from his colleagues both Chinese and foreign and from all his students. All wish for him many years yet of fruitful service.

Respectfully submitted,

MARTIN A. HOPKINS.

Shanghai, May 22nd, 1929.

Report of the Representative on the Board of the Bible Teachers Training School for Women.

The annual meeting of the Board of Managers of the Bible Teachers Training School was held in Nanking, April 24-26, 1929. Your representative and also alternate were present.

The preceding day, April 23rd, was given to intercession with a Bible study led by Miss Paxson.

Reports were heard. Miss Shaw and Pastor Kao spent last summer endeavoring to get the buildings returned. This was done, the plant cleaned and put into condition for opening school. Two buildings are being rented to the government for $700 per month. (See p. 15, Board minutes). the rent money being used to repair said buildings.

Misses Parmenter and Brittain returned from the United States and with Miss Shaw composed the foreign staff, with Pastor Chia as president and Misses Tsiao and Chen on the faculty. Miss Shaw's resignation took effect June 1st on account of furlough and age of retirement.

School was opened in our own buildings on January 1st with only the seniors returning. These graduated and received their diplomas on February 22nd. School opened

on March 4 to receive the Juniors to finish their year. A new class will be admitted in September.

Two days and a half were given to the discussion of the "Statement" of the "members at large." Everyone was asked to speak freely and all did. Interpreters were used so as to avoid any misunderstanding. As you will notice from this statement, minor questions were waived and the discussion was based on whether or not a "separation" as requested by the "members at large" was necessary.

I would like to mention that the Chinese members of the Board and faculty all made very earnest appeals to keep the school conservative on the lines followed in the past and also calling attention to the fact that modernism was creeping into the Chinese church. Some made urgent appeals to the missionary bodies to give Christ and the Bible in its purity to the Chinese.

Three plans were before the board and finally the following was adopted:

After having carefully considered the Statement prepared by the Members at Large, and after urgent requests had been presented by a number of mission representatives, asking that the Members at Large should not separate from the body until all the Missions who desired to do so should have had an opportunity to consider the Statement in their annual sessions, the following action was taken:

I. Voted that in our opinion a separation is necessary.

(Approved 15, disapproved 3.)

II. That this separation be accepted in principle at the present time.

(Approved 16, disapproved 2.)

III. That the final terms of separation shall be agreed upon not later than the annual meeting of this Board in 1930, and that these shall be put into effect immediately after the meeting of that body.

(Approved 18, disapproved 0.)

IV. That in order to carry on the School during this year of transition, we agree to the following:

(1) That we postpone for one year the consideration of the letters from the Missions calling for changes in the Constitution.

(Approved 17, disapproved 1.)

(2) That we request the Members at Large to function in the present proportion during the year that has been specified. (Members at Large refraining from voting.)

(Approved 10, disapproved 0.)

(3) That we request the present faculty to continue to function until the end of the next school year in June 1930.

(Approved 18, disapproved 0.)

Passed as a whole. (Approved 16, disapproved 2.)

Mrs. S. C. FARRIOR.

Report of the Representative on the Board of the Mateer Memorial Institute.

Report for 1928-1929.

In spite of the disturbances of the past two years the Mateer Memorial Institute has continued through it all without interruption. The student body, as might have been expected under the circumstances, was greatly decreased in 1928-29. In the spring of 1928 when the Nationalist armies made their northern drive, the institution was right in the center of the battlefield, but thanks to God's protecting care there was no injury to life or property.

Though faculty and students were somewhat affected by the incoming of the new regime, and there was no doubt danger of their being drawn into the whirlpool of political activities, this danger was averted and the school continued to commencement time in peace. Mr. Pan, the principal, and the other Chinese members of the faculty deserve great credit for their wisdom, tact, and loyalty in dealing with the whole difficult situation. I feel that Mr. Pan's coming to the institution just before the outbreak of trouble was providential. It was largely due to him and the other Chinese members of the faculty that all the mission property in Tenghsien was preserved from military occupation.

The school opened last Autumn with a gratifying increase in the student body, the total enrollment being sixty-seven. The Department of Education of the Shantung Provincial

Government threatened to close the school because of refusal to register. The local magistrate served notice that the school would be closed within ten days, but before the time limit was up the magistrate himself was gone never to return! The matter was finally settled by removing from the Chinese name of the institution the word for 'school.' Otherwise the institution is running as usual.

The Board of Directors met in March, 1929, and decided that the time had arrived for considering the rebuilding of the Mateer Memorial Building, which was destroyed by fire in 1925. The matter of raising the necessary funds was intrusted to Dr. Hayes, who is now at home on furlough. As an emergency measure in order to meet the needs of Christian boys who have been temporarily deprived of the opportunity to get an education by the closing of all mission middle schools, it was decided to take in a limited number of students under twenty years of age, and for their benefit to put on several classes equivalent to senior middle school.

Respectfully submitted,

MARTIN A. HOPKINS.

Report of the Special Committee Re Self Support.

Recommendations:

I. That each station begin as soon as possible a campaign of education in stewardship as an essential means of advancing self support.

II. That the following be substituted for 8-(4) of the transitional plan, (see Minutes 1927, pages 25-27). "In particular cases where for special reasons it is thought that minor exceptions in the application of the rules should be made, consent of the station must be secured."

III. As a substitute for the present rule of the mission regarding grants to churches calling ordained men as pastors:

(1) When an organized church of less than 100 members calls a pastor, the maximum annual grant from the mission shall be 7/10

of the total salary, provided that this proportion does not fall short of the proportion stated in the transitional plan, based on membership.

(2) That this grant of the mission shall be decreased by 1/10 each year so that the church shall become fully self supporting within a period of seven years or less. But in case of necessity this decrease in the grant may begin after two years instead of after one year.

(3) That in case of an organized church of 100 members or more, the annual mission grant shall be decreased by 1/10 of the total salary each year.

IV. In the case of primary day schools we urge that the mission rules be universally applied. But when it is absolutely necessary to make minor exceptions, consent of the station must be secured.

V. In reply to the request of **Kiangpei Presbytery** to help in the education of children of pastors, preachers, and Bible-women, that the mission authorize our middle schools to exempt such pupils from the payment of tuition, if the pupils are acceptable. The mission secretary is requested to inform the presbytery of this action.

VI. In reply to a request of the **Hwai Tung Presbytery** for permission to use, in a part of the Yencheng field, a plan of self support different from that of the mission, we reply through the Yencheng station that we regret our inability to concur. We call attention to the difficulty of attempting to use two different plans in the same territory and direct that wherever mission funds are being used the mission's plan be put into operation.

VII. In answer to a **letter** from the **Chinkiang Christians** relative to the postponement of the application of the transitional plan, it was voted to instruct the Chinkiang station to reply that the mission regrets that it is unable to accede to this request.

Respectfully submitted,

F. A. BROWN, *Chairman.*

Report of the Committee on Revision of the Manual.

The Committee on Revision of the Mission Manual reports that it has a number of very important recommendations to make involving a number of changes in the manual. As these suggested changes should be carefully considered before they are voted upon, the committee is having these recommendations mimeographed and will distribute them to the members of the mission, with the request that during the year they be given thoughtful study so that at its next meeting, the mission may be fully prepared to vote upon them. In the meantime, this committee is ready to welcome any suggestions as to possible changes in the manual.

Respectfully submitted,

W. C. McLAUGHLIN, *Chairman.*

Report of the Representative on the Board of the Chinese Christian Intelligencer.

The present condition and outlook of the "Intelligencer" is excellent.

The conduct of the paper during the year has been entirely in the hands of the editor, Mr. C'hen. Mr. C. W. Douglass has kindly looked after the business interests in the absence in the homeland of Mr. Gilbert McIntosh.

Repeated efforts have been made by your representative in conjunction with Mr. Allison, the representative from Mid-China on the board, and with others interested in the paper, to secure a feasible missionary for nomination as co-editor of the paper. All such efforts have been unavailing. It is highly desirable as a policy that a certain amount of direct missionary cooperation and oversight be secured.

The board at a meeting on May 24, 1928, replied to a communication from Rev. A. R. Kepler, in regard to the linking up of the paper with the Church of Christ in China, that such a change in organization and policy is not desirable.

Your representative recommends:

1. That we reaffirm our approval as a permanent policy, of the present arrangement whereby the "Chinese Christian Intelligencer" is controlled by the four missions now co-operating and the synod of East China.

2. That attention be called again to the desirability of securing a properly qualified missionary for at least a part of his time to serve as co-editor of the paper.

3. The usual appropriation of $625 is recommended to be granted on the understanding that the present method of control and historic policy is maintained.

Respectfully submitted,

H. KERR TAYLOR.

The committee recommends:

Bear to the staff, we place this call in Mr. Bear's hands without recommendation. 2. 456. Resolved that the appropriation for the Bible Teachers Training School for Women at Nanking be con-

tinued for the church year 1929-1930, and that the Board of this institution be informed that the proposed changes in the constitution are not approved by this committee and that the same will be submitted to our annual mission meeting for consideration and final action.

457. Owing to the fact that both Dr. and Mrs. Price and Mr. and Mrs. Richardson are due to go on furlough next summer, 1930, and in order to allow Mrs. Richardson to secure medical attention by a specialist in America, it was voted to allow Rev. and Mrs. R. P. Richardson to take their furlough this summer.

MARCH 8TH.

461. On the matter of the recall of missionaries, the vote of the Ad Interim Committee of the North Kiangsu Mission was a tie, one half being in favor of the plan of the Ad Interim Committee of the General Assembly when amended in the first line of the first paragraph to read "If any five members of a mission feel that," etc., and one half being in favor of the called Established Plan, proposed by the Executive Committee. The secretary was instructed to so inform the General Assembly's committee.

462. Voted to substitute Dr. Price's name for Mr. Grafton's on the Arrangements Committee, in view of Mr. Grafton's leaving on furlough.

463. Voted to instruct the Docket Committee to make provision for adequate discussion at mission meeting of matters such as: cooperation with Chinese in administrative affairs, self support, (A. I. 464. Voted to change the date and place of mission meeting to June 14th at 8.30 p.m., at Shanghai.

(Note: subsequently it was found that the Shanghai American School—where the meeting will likely be held—would not be available until June 15th. Accordingly by vote of all the members of the committee remaining in Shanghai, only one being absent, the date was changed to June 15th, at 8.30 p.m.)

From redeeming the old mortgage with interest .. $360.
From a special gift .. .. 456.

Building committee vacancies for this chapel are filled as follows: Brown, Hamilton, Hopkins.

471. The following motions from Suchowfu were referred to the mission meeting:

(a) To appoint Miss Nettie McMullen to Suchowfu and ask the Executive Committee to grant her travel from America to China and work appropriation of five hundred dollars. (We are asking for her to do evangelistic work probably in the country.)

(b) To grant a work appropriation of $450 for Miss Mary Lee Sloan when she arrives on the field, her former appropriation having been transferred to Miss Bracken.

Note, re (a) above. The following action was taken on March 10; two other votes not yet received:

To Members of the North Kiangsu A.I.C.

Since the adjournment of the above committee it has transpired that there was a distinct misunderstanding on the part of some of the motion to defer action to Mission meeting with regard to inviting Miss Nettie McMullen to Suchowfu. As you recall there were three propositions, namely:

1. To invite Miss McMullen to join the mission and take up country evangelistic work at Suchowfu station.

2. To request the Executive Committee to refund the actual amount of her travel expense to the field.

3. To approve of $500 annual appropriation for her work.

In voting to refer the matter to Mission meeting, certain members of the committee were under the inpression that Miss McMullen had already been assigned to Suchowfu and that it was only the matter of the appropriation that was before the committee for action. With this understanding the motion was made to defer till Mission meeting.

The action of the committee to defer till Mission meeting delays both Suchowfu station and Miss McMullen in settling the matter for at least six months as her appointment would have to be confirmed by the Executive Committee before she could begin work at Suchowfu and before the treasurer could pay her salary.

In view of the fact that there was this misunderstanding at the time of voting, the undersigned members of the Ad Interim Committee hereby

vote to request the Executive Committee of Foreign Missions to appoint Miss Nettie McMullen to North Kiangsu Mission for evangelistic work in Suchowfu station.

(signed), A. A. McFadyen,
J. W. Bradley,
O. F. Yates,
Robert B. Price,
W. C. McLauchlin,
S. C. Farrior.

Note:—Suchowfu station will bring the matter of the refund of her travel and the request for $500 work appropriation before the mission at its regular meeting in June.

472. Resolved that the secretary be instructed to write to Mr. McCutchan stressing the need for his early return and expressing the hope that as soon as his home affairs can be arranged he will come out to the field.

473. A letter from Mr. Grafton in regard to salvagable material in his wrecked house was referred to the Haichow station with the suggestion that they take such action in regard to this and other such property as they see fit.

474. The secretary reported the passing of the two following circular letters, and they were ordered recorded on the minutes:

Taichow Hospital: approved letting of contract to complete the new building.

Chinkiang Buildings: approved renting school buildings and Sydenstricker residence to government agencies or representatives.

475. Voted to endorse the call of the Chinkiang station for Mr. and Mrs. Paxton to return to the field in the fall of 1929 with the understanding that Mr. Paxton will be expected to do only such work as his physical condition will allow and that Mrs. Paxton will again take up her work with the women.

476. Resolved that as an emergency measure the Haichow station be authorized to use a special gift of G.$2,000 and up to Mex. $4,000 of unused station appropriations for providing

a place inside the city, to be used as a temporary residence for some of the missionary families.

477. Voted to request the Reparations Committee to ascertain the personal loss of Mr. Jas. R. Graham, Jr., and apply to this loss funds now in the hands of the Yencheng station received from the government.

478. Voted to authorize the Yencheng station to use Mex. $2,000 of these same funds in hand to repair the Boys' School property, Graham residence, and Moon Street property.

479. Voted to allow the Sutsien station to set aside from unused appropriations of the current year up to Mex. $500 to be used to repair one of the Sutsien residences for the use of Rev. and Mrs. C. H. Patterson.

480. Resolved that the secretary of the Ad Interim Committee be instructed to write to the Executive Committee calling their attention to the fact that the Associated Mission Treasurers is, at present, the financial agent of the Executive Committee, and nothing more, and to request the representatives of the Executive Committee to transact the business of the mission through the accredited representatives of the mission and not through the Associated Mission Treasurers; and to request them to address correspondence to the various representatives of the mission when answering their communications instead of addressing this correspondence to the Associated Mission Treasurers.

481. Voted to allow Mr. Talbot, in view of his furlough this spring and the danger of soldiers again occupying his residence, to set aside $300 of unused appropriations to be used for repairs on his residence when he returns in the fall of 1930. (See minutes, action 59).

482. The Tsing Kiang Pu station notifies the Ad Interim Committee that the station interprets the A.I.C. action on repairs of mission property to mean that the station may use enough money of the unused appropriations to put the property in comfortable living condition irrespective of whether

the property deteriorated from neglect or was abused by the soldiers. Approved.

483. Voted to approve the request of the Tsing Kiang Pu station for the return of Miss Sallie M. Lacy to do evangelistic work in the Tsing Kiang Pu hospital, on the same basis as before, an associate worker.

484. Voted to approve the request of the Tsing Kiang Pu station for the return of Miss Mary McCown to Tsing Kiang Pu to do local evangelistic work provided her health clearly justifies her return.

485. Voted to request the Executive Committee to send Dr. John R. Reid, Jr. to China this fall, his location to be determined by the mission when he arrives on the field.

486. Voted to request the Executive Committee to make the usual financial provision for a teacher for the foreign children at Tsing Kiang Pu beginning in the fall of 1929, the selection of the teacher to be subject to the approval of the station.

487. Voted to allow Dr. Bell to use $250 for the repairs of the Boys' School property, to use for the hospital as needed.

488. The secretary was instructed to write a letter to the treasurer of the Executive Committee and ascertain what is contemplated by the recent questionnaire sent out to our members by him re salaries, making it plain to the treasurer that we are not on a salary but on a stipend basis.

489. Resolved to authorize the Taichow hospital to build two Chinese houses for helpers residences.

All sessions of the committee were opened and closed with prayer.

The minutes of all sessions were read and approved. The committee adjourned to meet at the call of the chairman.

Respectfully submitted,

JAS. R. GRAHAM, *Chairman,*
H. KERR TAYLOR, *Secretary.*

Tuesday, July 8th, 8.15 a.m.

The mission engaged in a devotional service led by Mr. McLauchlin.

The minutes were read and approved.

(86) Voted that the members of the North Kiangsu Mission at Tenghsien be considered a station unit insofar as station statistics are concerned.

(87) Resolved that the **Chinkiang** station be allowed to use an appropriation of $9,400 Mexican in the erection of a **residence** in the hospital compound there.

(88) Resolved that the amount of the appropriation to be granted for each **residence** built in the future shall be considered on the merits of each case and the appropriation determined by the mission at the time each residence is to be built.

(89) Voted to approve of the request of the Chinkiang station to **rent** the **Paxton residence.**

(90) Voted to approve of the **sale** of the **Paxton** and **Sydenstricker properties** at Chinkiang, decision as to price and other details of sale to be left to the station in consultation with the Extension Committee.

(91) The following from the Haichow station was approved: Confidently expecting the return of Rev. T. B. Grafton to China this year, and thinking that he would prefer putting over the mission's plan of self support in his own field, while this subject has been broached to every Christian group in the eight outstations, the mission's plan has not been pushed to any definite conclusion in any of these. The station therefore requests that the mission grant an extension of time, to the end of the present year, in order to put the plan of self support into operation.

(92) The report of the representative on the board of the Chinese Christian Intelligencer was approved. (See Appendix p. 93.)

(93) The Sarah Walkup Hospital, Taichow, asks permission to build four or five Chinese rooms for contagious ward, funds available out of building fund. Approved.

(94) Resolved that Pastor An and Pastor Hu be allowed to continue at Suchowfu with unchanged status during the year 1930-31.

(95) Resolved that this year the Suchowfu station be allowed to pay up to 2/3 on two girls' schools in the Suchowfu country field.

(96) Resolved that the Tsingkiangpu station be allowed to pay this year a maximum of 2/3 of the salary of a teacher for the city day school.

(97) Resolved that the mission take some action with regard to the **infringement of religious liberty** in China at the present time. A motion in regard to this matter was referred to a committee consisting of Messrs. Graham, Jr., Bell, Woods, Sr., Junkin, White, to report at this meeting.

(98) The report of the Examining Committee was adopted. (See Appendix p. 92.)

The Sunday School Committee made a verbal report.

(99) The mission adopted the following:

Appreciating the assurances of the National Government in their expressed policy of granting entire **religious freedom,** it is distressing to note the increasing tendency on the part of governmental agencies to countenance anti-Christian activities and infringe upon the religious liberty of Chinese and foreign nationals.

But it resolved that the North Kiangsu Mission, of the Presbyterian Church, U. S., through its secretary, join with the other missions who are willing to express themselves in a dignified formal protest to the Chinese Government in reference to the discrimination in so many cases against the education in and propagation of the Christian religion, calling their attention to the fact that religious persecution has long since been outlawed by all other civilized governments.

Be it resolved that Drs. Graham and White be asked to consult informally with the consular authorities about the whole matter.

Be it further resolved that this action of the mission be given publicity in the home papers both church and secular and in the daily press in China. This matter was left to the discretion of the secretary, to be assisted by Mr. Graham, Jr.

(100) The Hwaianfu station asks that the mission grant permission to use as a maximum of mission funds up to 2/3 of the budget on the Hwaianfu city boys' day school. Approved.

(101) The report of the Ad Interim Committee was adopted.

The mission engaged in further consideration of the report of the Evaluation Committee.

(102) Resolved that a suggested revision of the section in the report of the Evaluation Committee, headed Self Support, "General Evangelistic Work," third paragraph, (see page 43,) re the salaries to be paid to preachers employed in whole by the mission, be referred to the Evangelistic Committee to report at next mission meeting.

(103) Voted to authorize the secretary to draw on the treasurer for $25.00 to be forwarded to the Community Church for the use of that building during the sessions of this meeting.

(104) Resolved that the treasurer be instructed to pay incidental expenses in connection with the mission meeting, to the chairman of the arrangements committee.

(105) The report of the Evaluation Committee as amended was adopted.

(106) Resolved to refer the time and place of the next mission meeting to the Ad Interim Committee.

Chairman	.. ..	Rev. J. W. Vinson.
Vice-Chairman	..	Rev. C. H. Patterson.
Secretary	.. ..	Rev. H. Kerr Taylor.
Treasurer	.. ..	The Associated Mission Treasurers, Rev. H. Maxcy Smith, Representative.

After the reading of the minutes, the mission adjourned with prayer.

Respectfully submitted,

M. A. Hopkins, *Chairman*,

I. INTRODUCTORY.

To the Members of the North Kiangsu Mission.

Dear Fellow Workers:

The following is a report of your committee, after a meeting in which all of eight days was taken in considering the material amassed and the impressions gained by our visits to all of the stations. We have sought to erase entirely from our minds our own station affiliations and to consider the needs of the whole field, at all times asking God to guide and lead us to know His will.

We have had brought before us as never before the greatness of our North Kiangsu field and the wonderful opportunities which God has opened to us. We have been impressed anew with the consecration and faithfulness of the members of the mission and of many of the Chinese Christians. We have been gratified at the receptiveness to the message on the part of the people. There has been a decided increase in intelligent interest in the gospel.

While there are many reasons for thanksgiving and while we are deeply grateful to God for every success He has given us, we very strongly feel that this is no time to think that we have in any way attained or that any methods alone can accomplish the salvation of men and women, but that, forgetting the things that are behind, we should press forward in greater faith in our victorious Lord and in deeper consecration to Him, realizing that He alone is able to give the increase and that His grace is in deed and in truth sufficient for us in all our needs.

Cordially yours,

The Evaluation Committee.

This letter was approved by the North Kiangsu Mission and sent on to the Executive Commitee of Foreign Missions.

Shanghai, China, July 11, 1930.

The Executive Committee of Foreign Missions,

Nashville, Tennessee, U. S. A.

DEAR BRETHREN:

Acting on your definite instructions the North Kiangsu Mission appointed the undersigned as an Evaluation Committee to visit all of the stations of the mission and make a thorough study of all of our work, taking up each phase of said work including personnel, finance, methods, efficiency, Chinese opinion, needs, etc., etc.

It was the conviction of this committee that the most efficient work could only be done by all members of the committee visiting each station and in this aim we succeeded to the extent that six members were present at five of the stations and at the remaining three there were five members of the committee present.

We sought to go into all of the work in a most thorough way and spent a total of almost two months in travel and in visiting the stations. There was no sense of hurry, but on the other hand a sincere desire to really function in the most efficient manner possible as a real evaluation committee. After having visited all of the stations, we waited over one month, then met again and for nine days formulated our report and sought to put into writing our impressions.

There are certain outstanding things on which we wish to report to you and to the home church.

Travel Conditions.—Due to the widening of old roads, it is now possible in good weather to reach five of our stations by motor car, and there is reasonable hope that Yencheng and Taichow will also be open in this way in the near future.

Attitude of People.—The mass of the common people have never been more friendly than now, nor have they ever

seemed as willing to listen to the Gospel message; that is also generally true of the other classes with the exception of the students in schools and young officials who are probably increasingly anti-Christian.

Dangers.—The North Kiangsu Mission offers full scope for the man or woman with evangelistic fervor willing to face real physical danger for the sake of our Lord. Bandits, soldiers, and petty official restrictions are constantly a menace and it is a statement of simple fact to say that many of our missionaries are almost constantly exposed to real danger. In at least four of our stations, firing is heard nightly, while bandit outrages are carried out often right at our compound gates. God's wonderful protection is a living evidence of His presence and care.

Crying Needs.—We have been keenly impressed and depressed by the **great unmet needs of our mission.** In every station we found all working to the limit of strength while there yet remain great untouched fields which it is impossible to enter. This, while true in all of the mission fields of our church, is true to a far greater extent with us, for we have by far the largest field with proportionately many times the smallest force to meet the need. We feel that in the distribution of workers throughout the past, the North Kiangsu Mission has been neglected in a great degree. To draw one comparison; if we had the same number of missionaries in proportion to population and area of our field that the Korea Mission has, we would have at least **six times** the force we now have. We do not feel that this great neglect should be permitted to continue.

Untouched Opportunities.—Throughout the area of our mission we found tens of thousands of absolutely untouched towns and villages and also a large number of walled cities of from 25,000 to 100,000 in which no work is being done due to lack of force to do the work. In one field a small area was counted in which there are 5,000 villages and in only 150 of these are there Christians living. In another

field a missionary, from one road, counted 256 untouched villages within a distance of seven miles.

The Native Church.—There are now five fully self supporting churches within the confines of our mission. There are also many missionaries who are pushing self support in a most encouraging way, so that a great majority of the groups of native Christians are paying some proportion of their local preacher's salary and local running expenses, and this is constantly increasing.

We would impress upon you that development of the local unit on a self-supporting basis is being pressed but that it takes time, infinite patience, prayer, and tact. In this connection we heartily concur in certain statements of Dr. Speer in his and Dr. Kerr's "Report on China and Japan, 1927," see pages 280 to 287, especially on page 286, beginning with the last paragraph.

There is absolutely no hope of the native church, at this time, assuming full responsibility for developing the great unreached fields. One could as well expect an infant in arms to assume the work and duties of a grown man. We find that the tendency of the missionaries is to stress and press the responsibilities of the work on the native Christians, which responsibilities include the assuming of a proportionate financial responsibility, far more rapidly than they are ready to assume them.

Reinforcements Needed.—We would therefore urge upon you the necessity of sending large missionary reinforcements to the North Kiangsu Mission if our responsibilities there are to be met. Making every allowance for improvements in methods and increased efficiency of the mission, the present force is still totally inadequate for the evangelization of the field. It is our conviction that while additional funds are needed, there is a greater need by far for more men and women consecrated and Spirit filled. We feel this need so keenly that we appeal for these reinforcements even if no additional funds can be secured, and we will, if necessary,

carry on with a reapportionment of the present funds rather than have additional funds without reinforcements.

There is yet the need for the example of the missionary with the pioneer spirit, willing to face the dangers and personal inconvenience of out-station evangelistic work, for without such workers and such example, the work will not be done. We find that out-station evangelistic work goes forward only as inspired by consecrated missionary spirits, and at the same time, the self-support of the local groups of Christians is fostered and brought into being only by their personal supervision. In its present stage of development there seems to be no hope of the native church reaching out and bringing to the unreached unevangelized villages, towns and cities an adequate opportunity to hear and understand the Gospel message; and in order that this may be done we beg of you and of the home church that you will send us the following reinforcements within the next year:

Male evangelists	Six.
Women evangelists	Nine
Doctors	Five
Nurses	Three

In this connection it is taken for granted that Revs. Russell and Edgar Woods will come to the field and locate at Tsingkiangpu and Sutsien respectively, and they are not included in the above mentioned needs. Should Drs. Buckingham, Reed, and Welton come to the field, these will be considered three of the five doctors called for.

Yours in His glorious service,

The Evaluation Committee,
North Kiangsu Mission,

W. F. JUNKIN.

Brief History.

The instructions under which the Evaluation Committee worked are too well known to need repetition here. They are found in the 1929 minutes of the mission, page 46, and in the letter from the Executive Committee of Foreign Missions, a copy of which we sent to each missionary.

The committee has visited all eight stations. In order to help the stations prepare for our visit, we sent in advance a list of about 150 questions. The conferences with each station extended over a period of three days, including a conference of several hours with the Chinese leaders, of whom from twenty to thirty usually attended and took an active part in the discussions. For their use we prepared a separate questionnaire.

At each station practically every missionary attended all the sessions of the conference. The stations made careful preparation for our visit, and by their patience and willingness to lay aside their regular work, cooperated very heartily. Following the visit to each station we wrote a letter, offering certain suggestions.

In our conferences certain methods of work seemed especially fruitful, and the request was frequently made that accounts of such methods be made available. We have asked several members of the mission to prepare short descriptions of such methods, as we felt sure the mission would want to know more about them. These reports follow.

II. METHODS.

Examination of Church Members.

For many years it has been the custom in the Suchowfu country field, to examine all church members before each communion service.

The pastor, missionary or local preacher, gives the examination; frequently an elder assists. A record is kept in each case and an assignment for study made for the next period. Illiterates are examined on memory work, hymns,

Bible stories or progress in reading the character. The more advanced members are examined on their study of the various books of Old and New Testaments or the reading of devotional books. We frequently also ask the church members about their contributions and about their personal work, e.g., what are you studying? What are you giving? What are you doing for the Lord?

The time required for these examinations is not great, sometimes five minutes is sufficient for each individual who is making progress. Frequently the preacher examines and reports in public to the missionary the progress made.

The results achieved have been encouraging. The people like the method. While some make no progress and others do all their studying a few days just before the communion service, yet the general effect of the method has been to turn the whole congregation into a kind of church school.

Hospital Evangelism.

The following plan of hospital evangelistic work is being successfully carried on in the Tsingkiangpu hospital and we commend it to the mission as one plan which in our opinion has many most desirable features. The statement of this method is as follows:—

The mission hospital which is simply on a philanthropic basis does not justify its existence, for while it may be more efficiently run, it yet remains the same type of institution which one constantly sees run by non-Christian Chinese, such as hospitals, orphanages, and the various forms of relief societies. The mission hospital should have the great outstanding difference that in it the gospel is preached and lived by those who minister to the bodies of the patients.

Theoretically, a hospital evangelist should not be employed, for the evangelistic work should be done by the doctors, nurses, and other members of the staff. Practically, the hospital evangelist is invaluable, as he or she has the time to do intensive work with the patients which is not permitted to the busy members of the staff.

The ideal method seems to be to have all who share in the work of the hospital professionally, share also in the evangelistic work. It is therefore evident that in the admitting of nurses to the nurses' training school it is wise to admit only Christians or those who have shown an active interest in the gospel. Incidentally this will eliminate the majority of the administrative problems in connection with the nurses.

The method to be described is as follows.

An organization is formed which is known as the Hospital Evangelistic Band. All members of the staff,—doctors, nurses, office force, etc.,—are asked to join, although no pressure is brought to bear. A chairman, vice-chairman and a secretary are elected and a new group of officers is elected every three months.

This band is then divided into groups of two, preferably one member of which would more or less naturally be the leader, and a schedule is then arranged and posted. These individual groups are then definitely responsible for a certain number of days preaching to the clinic patients. One week has been tried; also three days; the latter probably being best. For these three days this group of two will go to the clinic chapel promptly thirty minutes before clinic starts and preach to the patients. One will give out tracts and the other preach. At the close of the talk Gospel portions and other books will be offered for sale.

Each Saturday night a meeting of the band is held, at which the groups who worked that week will report what they did, the reception they had from the patients, and the books sold. (The money for sale of books is turned in daily to the office.) Prayers are then offered for the work of the week.

This band is responsible also for the Sunday afternoon evangelistic service in the chapel of the hospital, also working on a rotating schedule. By this method none of the work becomes irksome and all seem to enjoy the share they take.

The morning chapel service for patients and staff should be given a very prominent place in the day's work. Nurses responsible for individual wards should go and invite the patients and relatives who can walk to attend, and in addition it is most desirable that the foreign doctor also go each morning and invite all the patients. This is time well spent.

These morning services should not be led by the hospital evangelist only. It seems wise to have the doctors, evangelist, city pastor, and other qualified and available men to share in this work. If six men are available, one leading one day each week is good for those who lead and lends a variety to the message which is attractive to all who attend.

While compulsory chapel attendance in not desirable, nevertheless so much persuasion should be used on those who can attend that there will be none who refuse to come. All members of the staff should be expected to attend without exception.

Another aid to efficient evangelistic work in the hospital is the foreign members of the station sharing in the ward work as far as possible. The ladies of the station can, as they have the time, do an especially fine work there, and this promotes a sympathetic attitude to the patients and the work from the entire station personnel which is most desirable.

A book and tract room in the hospital is also a great aid to all who share in this work; in fact, without some sort of tract and book supply available the best work cannot to done.

Much has been said about follow up systems. One efficient method is to have a series of four letters, printed in the form of a check book, one letter being to the interested patient, telling him that there is a church at a certain point and urging him to go there for further instruction, this same letter telling him the name of the preacher in charge of that district. The second letter is to the preacher telling him that this patient, full name given, has been a patient in the hospital and is interested in the gospel and asking him to visit said patient in his home. The third slip is given to the foreign evangelist for that district and he can check up on both ex-patient and

preacher. The fourth is simply a stub giving name of patient, address, interest shown, etc., which remains in the book.

SUMMARY.

1. Evangelistic band composed of practically entire staff personnel.
2. Daily preaching in clinic chapel by a group of two from the above band, said group working on a rotating schedule.
3. Saturday night meeting for reports and prayer.
4. Very strong emphasis put on daily morning chapel service to start the day.
5. Station members sharing in ward evangelism.
6. Adequate supply of books and tracts always available in hospital.
7. "Check book" follow up system.

Night Schools.

During the past twelve years the Suchowfu country field has made a large use of night schools for teaching illiterates and as an evangelistic agency.

We first used the 600 character books and the thousand character books, but of late years have used almost altogether the national phonetic. A supervisor (usually a preacher who has been specially trained) gives all his time for about six months of the year to training teachers, organizing classes and examining the students. The classes or schools run one or two months.

Where a teacher teaches at a distance from his home, so that he does not live at his own home, we pay him from mission funds a salary of $8.00 per month for the actual time that he teaches.

Many of these night classes are held in villages where we have no Christians or chapels. The people furnish the school room, and the oil, and we lend them lamp and blackboard. The location of all these classes and the selection of the teachers is usually left to the supervisor, while the missionary

exercises only a general oversight. The only condition for the holding of the class is that the students shall consist largely of adults, who of course are illiterate.

After reading the phonetic for a few months many students rapidly switch over to character, which in the New Testament is printed in paralled columns. The most gratifying result of the method has been the large number of young men who have been led into the church through these night classes.

Women's Bible Schools.

Women's Bible School, Haichow.

Founded in 1926 as a memorial to Mary Orme Flinn.

Purpose.—The purpose of this School has been two-fold. To train women for better Christian service in the home and Church and to develop from its number those who might become bible women, these to have special training and more intensive bible study.

Curriculum.—The Chinese national readers were taught until this year when the thousand character studies were substituted. The students in the higher class are now able to write a letter in good style and take notes in bible classes. They are studying fractions in mathematics up to the present time. Carefully selected portions of scripture are memorized. The books of Genesis, Exodus, Jonah, Nehemiah, Daniel, Matthew, Mark, John, Acts and some of the epistles have been taught intensively.

The students have also attended special bible classes taught outside of the school. Hygiene is taught in lecture form to which outsiders are invited.

Tuition.—This year only $1.00 a year has been charged for the whole term of eight months.

Food.—A kitchen is furnished but *no* responsibility is taken for this and *no* financial help given unless the Chinese teachers see fit to do so privately with their own funds.

Study Periods.—Classes begin at 9:30 and run until 12:30, again from 2:30 until 3.45. On Friday the school closes at 12.30 and all who can, both teachers and students go out either into the country or city for definite evangelistic work. Reports from this are given on Monday morning at the regular chapel hour and effort is made to get those who have been taught to come to the church services.

Bible Classes.—There are two Bible Classes, one in the Old Testament and one in the New Testament held twice a week to which Christians and enquirers are invited, something like twenty or more have come to this for months; this has proven a great blessing to the women's work of our station. At least ten of the women who tithe are connected with the school either as regular pupils or those who attend the bible classes in the school.

Enrollment.—There are at present twenty who attend daily. About fifty-five women and girls have been connected with it since it was started, either for a short time or a long period. Some of these are wives of preachers who we believe are doing good work, others are helping in the sections to which they have gone, without any remuneration.

The oldest student this year is sixty-five, a woman from one of the out-stations, the youngest is fifteen.

During the evacuation the Bible School never closed and although the number was reduced to about twelve, and although driven from our pretty little plant which we had occupied only six months, they found refuge in the chapel where they continued their work.

The school is the center for most of our Christian work with the women and through it the effort is made to develop the spiritual life of our women and to train them for efficient leadership. None have graduated yet as the time has come when we must decide whether to raise the standard or send students elsewhere for further training.

Faculty.—Consists of two Chinese teachers and one foreign teacher.

Qualifications for Entrance.—First, they must be either Christians or earnest inquirers, with good reputation; second, they must have a satisfactory middle man (*Pao ren*). No educational qualifications are required except that they be willing to study. The students who are at present in the school are practically all able to take notes on classes, but of course some of those who are now able to do this came into the school with almost no knowledge of characters and have learned to write since entering the school.

Women's Bible School, Suchowfu.

This school, while of lower grade, does not differ much from the school at Haichow. Its purpose is to train women for voluntary work in their native villages. We have two terms of two months each, thus avoiding the busy farming seasons. Some women come for even shorter periods. The budget is less than $200 a year (four months) which is raised entirely from special gifts. Several of the members of the station teach regularly. No tuition is charged. A cook is furnished, but no help is given with the food. The school has been run for about five years and has rendered a great service to our women's evangelistic work.

Day Schools.

The following paper, prepared by a member of Sutsien station is recommended for the consideration of school and outstation evangelistic workers:—

In the opening and conduct of mission schools we should never depart from the principle that such schools are primarily for the Christian constituency. Of course all rules laid down by the mission for the conduct of our schools should be carefully observed.

We would not favor opening or continuing any day school at a point where there are no Christians.

In every case the teacher or teachers should be Christian.

At every out-station where there is a day school there should be at least one, but preferably two or three school

trustees. These trustees are responsible for the conduct of the school and for the payment of that part of the expenses promised locally. They should, ordinarily, be chosen by the local congregation. At least one or the majority should be professing Christians, and all should be decidely pro-Christian.

In every case the local trustees or congregation should have the privilege of choosing their own teacher. When the one whom they choose is not available, by no means should a teacher to whom they object be sent to them.

We should urge and work for the very best teaching and good equipment, but always with local self-support. Do the best you can with local support rather than very much better with a large amount of foreign support.

At least half of the salary of the teachers and the whole of all other running expenses should be paid locally. In cases where the mission is able and considers it wise to help in some of the equipment of these schools, such as desks, blackboards, maps, etc., it should never help more than half.

Strive to bring these schools up to more than half self support and to full self support.

Conform as far as possible to the general curriculum of the Chinese public schools.

One good help in securing the observance of mission requirements is to use regular forms for application for mission help; these forms to be signed by the local trustees and also by the preacher having over sight of the particular out-station. These forms should contain name of the teacher desired (or, in case they have no choice, it may be requested that the missionary in charge select the teacher); the amount of salary promised locally, with a definite statement that the teacher is not himself giving on this salary; and the promise that there shall be systematic Christian teaching.

There should be regular Christian and bible teaching in every class, even in the first primary year. A catechism of Christian doctrine (such as Mrs. Nevius') should be taught in the second or third year. There should be regular committing of scripture. Every effort should be made to

make this bible work and Christian instruction interesting and attractive.

The preacher in charge of a particular out-station should have free access to the school and should help in its oversight, and the missionary should give it what attention and oversight he is able to give.

There is greatly needed a series of bible study books suitable for use in the different grades. The bible text memory work should be incorporated in these books. Some one would do a splendid service in making such a series. We would suggest that the mission request some one to consider this important work.

In cases where the out-station schools multiply beyond the power of the missionary in charge to care for them with the appropriations granted, we would suggest that the support given by the mission be decreased from one half to one third.

III. EVANGELISTIC.

Separation of Native Church and Mission.

We recommend that the members of the mission carefully study the following action of the mission taken in 1929 in regard to the separation of mission and native church. (See pages 8 and 9 of the 1929 minutes.) The action is as follows:

In reply to the request of the Executive Committee for the opinion of this mission in regard to the pamphlet published by the National Christian Council and entitled, "The Church in China in its Relation to the Churches of Europe and America," etc., we would reply as follows:

We wish to call the attention of the Committee to the fact that the ultimate aim of all mission work in China is the complete establishment of a completely indigenous native church.

However, there are two distinct policies now being pursued in China.

One looks to the complete absorption of the mission, missionaries, and the foreign funds by the native church.

The other looks to the establishment of a native church entirely self supporting, self governing, and self propagating, as a separate entity from the missionaries and funds, these being released for new work not now reached.

In view of the fact that the pamphlet published by the National Christian Council and prepared by the delegation to Jerusalem has as the basis of its entire plan the first policy, as outlined above, and because we feel that this plan is fatal to the attaining of the desired aim; we therefore express our dissent from the principle as a whole and from the policies as outlined in particular...This is the mature

judgment of this mission based on the combined experience of years of service and of *facing the real problems* of the work and and with the deepest concern for the ultimate best good of the native church.

It is our opinion that all of our work should have its policy so shaped that it will conform with this general policy, thereby hastening self-support within the bounds of the mission.

To this end we recommend the following:

(a) *Presbyterial Affiliations.* That members of the mission, now members of Presbytery, seriously consider the wisdom of a gradual withdrawal from their presbyterial affiliations. Continuing in an associate capacity however may be optional and will probably be wise.

(b) *Ordained Chinese Evangelists.** That all ordained Chinese evangelists shall be supported entirely from Chinese funds except where express permission of the mission is granted to the contrary. Where financial aid is given such workers, each individual case shall be reviewed by the mission yearly, and unless said special permission is granted, such arrangements shall terminate within one year from that time. This rule applies to all such workers now so employed.

(c) *Tenghsien.* That the members of our mission on the faculties of the two schools at Tenghsien, and those who may be members of the boards from time to time shall seek to bring these institution into line with this mission policy. In this connection we recommend that they:—

1. Stress contributions to the seminary from Chinese.

2. Insure that definite amounts of the salaries of professors be paid by the church courts.

3. Have self support taught by the professors in the course.

4. Have lectures on self support by outsiders from time to time.

(d) *Cooperative Committees.* It is the judgement of this committee that cooperative committees of missionaries

*The word *evangelist* is taken in its technical Presbyterian sense.

and Chinese to which the disposition of mission funds is committed, are a contravention of this policy of separation of the mission and native church and that their tendency is to center the interest of our Chinese brethren more on foreign money and personnel than the development of their own independent, self-supporting church.

We would discourage the formation of further such groups in our mission and advise that where practicable, any groups now so operating be reorganized for advisory purposes only, in keeping with the above mentioned policy.

In the case of the Suchowfu cooperative committee, we recognize the great difficulties involved in a reorganization there and recommend that in that particular instance the station be permitted to continue its present arrangement, but that no change be made in the existing organization unless the mission approves.

Self Support.

Review

We have observed a wide difference in practice and attainment in this important matter. Some missionaries have not made any progress, others have succeeded in a marked degree, and have brought their whole evangelistic work up to or beyond the mission's minimum requirement of self support, as outlined in the mission's plan. As yet no one has put the permanent plan into full operation.

We have carefully considered the peculiar conditions in the various stations that might be considered as hindering the attainment of self support. But as far as we can see there is no good reason why every missionary should not bring all of his work at least up to the mission's minimum requirement at once. This requirement is only a minimum set low so as to be within the reach of the poorest churches and congregations.

We recommend that in any cases where efforts have failed to bring the local self support up to the required

minimum on salaries being paid, every missionary who has not already done so reduce the grants made to each preacher for salary to the amount he is entitled to pay under the mission's plan; this to be made effective at once or as soon as present contracts have been fulfilled. If a station wishes to ask that an exception be made, it should do so at this meeting of the mission.

Revised Plan

In order to coordinate the plans for self support adopted by the North Kiangsu Mission, and the experience of our workers in this matter, especially more recently, the following revised plan is proposed by the committee to the mission for its adoption as the working basis for our mission in this highly important matter of self support.

Preamble. It must be a recognized principle in all our evangelistic work that self support shall exist and keep step with the growth of the work, even from its very beginning. To ensure that the principle of self support is carried out in actual practice ,two subsidiary principles are very necessary; first, that each congregation should pay on the support of the preacher in proportion to the amount of time given them by him; and second, that each congregation should pay on the support of the preacher in proportion to its membership.

Full Support. Where a congregation or group of congregations served by one preacher has as many as two hundred members, the mission will make no grant. All such congregations or groups of congregations with even less than two hundred members, should make every effort to support themselves entirely just as soon as possible, but the figure of two hundred members is set by the mission as the limit of membership that shall in any case look to the mission for help.

Grant Mission Can Give. The mission lays it down as a principle in its work that where a preacher in its employ

is giving any regular part of his time to any congregation or group of congregations with a membership under one hundred, such congregations or group shall in addition to all current expenses, pay as a minimum $\frac{m}{250}$ of said preacher's salary and travel expense; and where such membership is one hundred or above, $\frac{m}{200}$. See exception under "Current Expenses" below. (Note: "m"=number of members.) It is hoped and expected that most points will give more than this ratio in supporting their own church work, but the mission cannot give any more than its proportion as indicated by this ratio.

Cultivation of Groups. The missionary evangelist shall use the greatest care in supervising the work of the preachers in his charge, fostering groups of Christians in different places, holding bible classes, and doing general evangelistic preaching. It is allowable and desirable in the less developed fields when a preacher is working several points, that each Sunday in the month be given to the more promising groups of Christians, even when these groups are too small to be able to pay for a fourth or more of the preacher's time. Such points shall not be entitled to claim a greater proportion of the preacher's time than that for which they pay.

It is pointed out that such a plan is practicable, and has already been proven workable in our North Kiangsu field, even in the poorest congregations. This schedule should in no sense be considered a standard of giving. On the other hand, the mission considers that it has fixed this as a minimum limit of self support, and any congregation or group of congregations falling below this limit can receive no grant from mission funds. The mission hopes that the congregations and groups within its territory will maintain a standard of giving far above this minimum schedule.

Ordained Pastors and Evangelists. In the pursuit of this very basic and self evident principle, it is understood that where one congregation or group of congregations shall pay the entire amount of the preacher's salary and other expense, the mission's claim on the time of such preacher for newer

work shall cease, and in such cases it is urged that the group, or groups, seek ordination for such preacher before presbytery. The maximum proportion which the mission can pay on the support of a Chinese preacher who is exercising the powers of pastor or ordained evangelist, is two-fifths.

Calling Preachers. Instead of arbitrarily placing preachers, supported by the mission, at points in the field where there are groups of Christians, strong efforts should be made to get such groups of Christians to call preachers, even where one preacher has to divide his time between as many as six congregations; each congregation to pay on the salary of the preacher as per the above arrangement an amount in proportion to the time he is assigned to it.

Current Expenses. Where the membership is less than seventy-five, the mission may, when the missionary in charge thinks it absolutely necessary, grant as much as one-half of the current expenses, it being understood that in no case shall the mission furnish any money for oil and tea to a local congregation.

Property. Except at strategic points the mission will not in the future rent, lease, or buy property for the use of out-station congregations or schools, and even at strategic points in no case shall property be thus secured without first obtaining the approval of the mission. All out-station property now being rented by the mission must be given up except that located in strategic points, and these can be retained only after each case has been taken up on its merits and approved by the mission.

When the field served by a Chinese preacher is new, or the church membership of the whole field he is serving is less than one hundred, and it seems necessary to do so, mission funds may be used to rent or lease property for the home of the preacher and his family.

Travel and Food. In cases where it is necessary for one man to serve two or more points eight or more miles apart,

special grants may be made for travel, and a maximum of twenty cents a day food allowance for the nights that he spends away. from home.

General Evangelistic Work. Each missionary evangelist may select one or more, not more than four, Chinese workers to be his or her co-workers, not to be in charge of groups of Christians, but to go over the field, either singly or in groups, preaching and teaching bible classes, doing house to house visitation, distributing the word of God, and disseminating Christian literature, with the aim of developing groups of Christians at point after point in the field who shall be able and willing to call their own pastors. The full salary and expenses of these workers may be paid by the mission.

No one should use such a group of preachers to the exclusion of developing self support in all of the out-stations according to the plan outlined in the paragraphs above.

In order to prevent the mission coming into competition with the Chinese church it shall be unlawful to pay salaries to such preachers in excess of 90% of the average salary of paid pastors in the presbytery in which such preachers are working.

Bible Women. In the matter of self support, the first emphasis should be on the development of the support of preachers and pastors, but of course the mission desires to develop as far as possible the support of bible women also. Under present conditions, the mission is willing to support in full a limited number of bible women where they are properly supervised. In all cases they should be given as wide a circuit as practicable.

Exceptions and Time limit. It is recognized that exceptions may be made, but all exceptions to these regulations must first be approved by the mission before being put into operation. This plan of work is to be put into full operation by the first of September, 1931. In the meantime all the evangelistic work of the mission, regardless of previous special arrangements, should be brought into conformity to the mission's plan for self

support either as adopted in 1927 (revised in 1929) or as herein outlined. All the evangelistic workers of the mission should so conduct their work as to bring it into conformity with this plan of work, as herein outlined, by the first of September, 1931.

Teaching of Stewardship. Throughout the membership of the church the grace of giving should be systematically fostered:

(1) By setting forth from time to time the teaching of the scripture on giving;

(2) By stressing the tithe as the minimum standard of the Christian's giving;

(3) Preachers should be expected to lead the people in such giving;

(4) By an annual every member canvass.

Translation into Chinese. It is recommended that the mission appoint a committee of three to translate the above action re self support into Chinese.

Miscellaneous Evangelistic Matters.

Yencheng Evangelictic Work. In view of the plan of self-support adopted above, we recommend that the permission given Dr. White in 1917 to try out a special method of work in his field be revoked.

Definition of Inquirer. One who has been examined for baptism during the year or who has been a regular attendant on church services during the whole year.

Definition of Retired List. The list of those church members whose residence is unknown, or whose residence is in a community where there is no other church to which they could be transferred by letter. After a reasonable time has elapsed and earnest efforts have been made to get the members on the retired list transferred by letter to other churches, they may be left out of the official count of the membership, but should be retained on the retired list as a matter of record.

Membership. We wish to give praise to God for the numbers in our field who have made a profession of faith, especially in certain sections, but we would urge all members of the mission to pray earnestly that there may be a far greater harvest of souls throughout the bounds of the mission. All other problems are minor as compared with the great problem of saving souls.

Recruiting for the ministry. We recommend that the mission urge the greatest care in recruiting candidates for the ministry. There is serious danger of men coming into the ministry with very mixed motives. Besides the laudable desires of doing good, saving society and the country, they may also have very earnest desires to save souls, and yet the main thing in view may be a way of an assured salary, even though it be a small one, or more education, etc. We should *carefully try* the men and search for evidences of the *call of God.*

It is often well even after a man has begun a seminary or bible school course to arrest his education for a year or longer and test his gifts and calling and find out, in particular, whether or not he is acceptable to the people of God and whether they are willing to pay on his support.

We would urge the constant lookout for these men whom God is calling; and God may use us to bring this call to the hearts of young men, recognize it there, and help them to recognize it. There is *sore need*—not just for men, but for GOD CALLED MEN. In choosing these men we urge the seeking of advice from godly Chinese friends, and more especially from the regular courts of the Chinese church. It is a very dangerous policy for a missionary, on his own judgment alone, or it may be on his own judgment backed by that of one or two particular friends of the man himself, to take this or that man up and educate him for the ministry. The church is imperiled by man made preachers.

Mission property and self supporting churches. We recommend that, subject to the approval of the Executive Committee, the mission express its willingness to hand over

to the Chinese local church such out-station property now deeded to the mission as is being actually used for chapel and school purposes wherever the local church becomes entirely self-supporting as to its preacher and is fully able to keep the property in repair.

We recommend that in cases where such property is large enough, a portion be reserved, especially at strategic points, for the use of an itinerant missionary.

The mission, of course, reserves the right to refuse to turn over property to any local body whose teaching and conduct or whose theological beliefs it cannot approve.

In every case the consent of the mission must first be secured.

When is our Mission's Task to be Considered Finished in Any Part of Our Field? When any church or group of churches has become self-supporting and self-propagating and sufficiently articulate in any part of the North Kiangsu field to assume the responsibility for evangelising that part of the field, the mission workers both Chinese and foreign and the mission funds should be withdrawn from that section, and transferred to the other less evangelized parts of the mission's territory. Whenever a section of the field having a population of twenty-five thousand has as many as two self supporting churches, that section should ordinarily be considered by the mission to be sufficiently evangelized to justify the withdrawal of all mission workers and mission funds leaving the section to be completely evangelized by the independent Chinese church there. As the number of self-supporting churches grows, the non-Christian constituency for which each independent Chinese church could be responsible should grow larger, so that by the time there are as many as fifty self-supporting and self-propagating churches in any one of our mission station fields, the mission should be able to leave to them the responsibility for evangelizing at least one million of the population for which it was formerly responsible, and move its forces and funds to other parts of its territory.

This shows the tremendous unfinished task in the North Kiangsu field facing the home church.

Preachers separate from their families. It has come to our notice that in several instances preachers are living separate from their families. We deem this very unwise, and recommend that unless this is unavoidable it be required that a preacher's family live with him.

Bible Societies. We recommend that the mission appoint a committee of two to take up with the various bible societies the question of the selling of scripture portions in our field, with a view to eliminating unwise methods connected with this work.

Sabbath Observance. Although we have been gratified and cheered by instances of careful Sabbath observance and earnest desire on the part of many Chinese Christians to conform their lives in accordance with God's will as expressed in the fourth commandment, we have been alarmed at the general laxity as to the keeping of this plain command of God which means so much for man's happiness, for the Christian's growth in knowledge and in all Christian graces, for the very life of the church, and for the glory of God. We therefore urge the mission to appoint a committee of two to write a pastoral letter to our Chinese churches and all officers, preachers, and Christians on this most important subject.

IV. MEDICAL.

Motive.

Due to the fact that we hear constantly of the "changing emphasis" in religious work, and also because there are some who seem to think that medical mission work is carried on purely from philanthropic motives, or it may be, as one phase of the demonstration of the "Social Gospel" we would like to make a simple statement as to the real motive of our medical work.

It is the constant prayer and aim that all who share in this work shall be used to bring the thousands of patients who come under our care to know that "All men have sinned and come short of the Glory of God," that out of Jesus Christ there is no salvation, and that by simple faith in Him as the Son of God, we have eternal life through the merits of His blood shed on the Cross. We realize that often we fail in our duty in proclaiming this message but it is our profound conviction that this is the only really worth-while motive for medical mission work and the only "change" needed is more earnestness, zeal, and faith on our part in telling of Him.

Introduction cards for prospective hospital patients.

We recommend that the mission request the medical committee to provide a form of introduction card which may be used by the mission hospitals and the itinerating missionaries in consultation; such cards not to be used promiscuously, but to be given to those who specially request an introduction to the doctors in charge of the hospitals and to those whom the missionary thinks such an introduction would help to bring under the Christian influences of the hospital.

Suggestions for such a card which have been brought to the notice of this committee as possibly having value are the following: a short statement of the Christian purpose of the hospital; a scripture text; an appropriate word of introduction; blank space for any remarks the missionary may want to make; and *a statement that the card is of no monetary value to the patient, having no reference to the charges that may be made.*

Findings as to Hospital Equipment.

The Evaluation Committee would report that on a comparative basis the equipment of our various hospitals is as follows:—

Chinkiang	Good
Taichow	Good
Yencheng	Poor
Tsingkiangpu	Good
Sutsien	Poor
Haichow	Fair
Suchowfu—Men	Good
Suchowfu—Women	Fair

V. SCHOOLS.

Revised School Policy.

The evaluation committee recommends that the mission adopt the following as its revised school policy.

In view of the new regulations for schools as announced by various governments in China and in view of the present discussion everywhere about the conduct of Christian schools, the N. K. Mission adopts the following school policy:

1. *Required Courses.* That regular required courses shall be maintained in the bible and in the Christian religion and attendance shall be required on Christian religious exercises.

2. *Registration and Restrictions.* That believing that restrictions, governmental or otherwise, placed upon religious instruction in Christian schools are contrary to the spirit of religious freedom, and therefore harmful to the cause of Christ in China; the North Kiangsu Mission cannot advise continued support of schools accepting such restrictions, and does not believe that such support will be continued by the church in America. The mission, while believing in the principle of registration with the government, does not approve of registering under such conditions as shall interfere with the rights above stated.

3. *Aim.* The mission, while endeavoring to make its schools technically as efficient as possible hereby affirms that the fundamental aim of all its school work is to aid in the establishment of the Church of Jesus Christ, and that these

schools are primarily for the Christian constituency. The mission cannot see its way clear to continue schools in which this aim is not preserved.

(Note: By **Christian constituency** is meant all baptised church members and their immediate families, those who have been examined for baptism during the year, students in mission schools and those who have been regular attendants on church services for at least six months.)

4. *New Students.* In furtherance of this aim it shall be required that a minimum of seventy percent of all new students, including students coming up from the primary department, entering our mission middle schools and entering the boarding department of any of our mission schools in any term be either church members or come from Christian homes. All pupils coming up from the higher primary department who have been regularly examined and who have shown by their lives an unmistakable desire to be Christians, may be included in the seventy percent quota.

5. *Day Schools.* Mission primary day schools will be maintained only where twenty percent of the students are Christians or come from Christian homes or are the children of enquirers.

(Note: A **Christian home** is one in which one of the parents, or the grand-parents, or the guardian, or an older brother, is a baptised Christian.)

6. *Less than fifteen pupils.* No primary school shall be maintained with an enrollment of less than fifteen pupils unless by special consent of the station.

7. *Running Expenses.* No day school shall be maintained in which the local Chinese constituency do not give one-half the running expenses. The question as to whether rent is included in running expenses shall be left to the individual stations. Exceptions must have the unanimous approval of the station concerned, and may be only for one year, further continuance of the arrangement requiring the approval of the mission or Ad Interim Committee.

8. *Memorial Service.* No mission schools are allowed to have the memorial service to Dr. Sun as held in government schools, including the bowing to the picture and the silent meditation.

This is a revision of mission action as found in 1927 Minutes pages 60,61.

Recommendations Re Schools.

It is recommended:

1. That as a definite policy the mission plan for one **senior middle school** for boys and one for girls within the bounds of the mission.

2. That these be considered not as station schools but as serving the whole mission, and that a **board of managers** for each school consisting of five members of the mission and two Chinese elected by the mission have control of these two institutions.

(Dr. White asked to have his vote recorded in the negative on this item.)

3. The the time and place of opening of the **senior Middle school for boys** be left to the discretion of the board, subject to the approval of the mission, and that in the meantime, as large use as possible be made of the Tenghsien senior middle school.

That the **senior middle school for girls** be located at Suchowfu.

4. (a) That the girls' school at **Sutsien** continue as a junior middle school.

(b) That the girls' junior middle school at **Suchowfu** be continued.

(c) That a boys' junior middle school be opened at **Sutsien** when practicable. That for the time being the boys' junior middle school be continued at **Suchowfu.** That when the time comes that Sutsien can open a boys' middle school,

the matter of further continuing the boys' junior middle school at Suchowfu be brought before the mission for decision.

(d) When practicable and the Christian constituency justifies, a boys' junior middle school should be located at some point in the **southern part** of the mission.

(e) That the **Yencheng** station be permitted to open a seven year boys' school.

(f) That **Haichow** station be permitted to open a seven year boarding school for boys and one for girls.

(g) That **Taichow** station be permitted to open a seven year school for girls.

(h) That **Hwaianfu** girls' school be permitted to continue as at present or to add one year to the present six years course. If later the station desires to have a junior middle school for girls, and circumstances permit such a school, the matter may be brought before the mission for decision.

(i) That **Tsingkiangpu** station be permitted to open a seven year school for boys or girls.

5. That in receiving students all schools shall give **preference** to those from our **own mission** field

6. All our junior middle schools are planned to serve the constituencies of more than one station, and therefore provision should be made in each school to care for the needs of these **other stations** on a proportionate basis.

7. All boys' **junior** middle schools shall be under the **same board** that controls the boys' senior middle school; girls' junior middle schools shall be under the board for the girls' senior middle school. Each seven year school shall be under the **supervision of a missionary** appointed by the station in which the school is located.

8. All stations are advised to seek out and encourage worthy boys and girls to attend the schools of the mission.

9. That we take up with Tenghsien the question of receiving students of senior middle school grade from our field

until such time as we are able to open a senior middle school for boys.

10. Recommended that consideration of the matter of undertaking **building** operations for the boys' school at **Suchowfu** be postponed until next mission meeting.

VI. NEW MISSIONARIES ASKED FOR.

No one can visit the stations of our Mission, see the tremendous area of our work, realize the millions of souls which populate that area, and the opportunities which are now open for aggressive work, without being depressed at the pitifully inadequate number of missionaries here to do the work.

We have asked each station to carefully consider its individual needs for new workers and express to us its conservative estimate as to the number needed to meet the present opportunities.

A total of 48 new missionaries has been asked for.

It is our judgment that certain needs should be stressed before the Executive Committee and the home church at this time, not in a visionary way, but as something which is imperative if we are to *begin* to meet the present wonderful opportunities.

We therefore recommend that the Executive Committee be urged to secure and send to the field the following workers within the next year.

Male evangelists	6
Women evangelists	9
Doctors	5
Nurses	3
Women Teachers, Men Teachers	As the educational opportunity develops.

In the above recommendations it is taken for granted that Revs. Russell and Edgar Woods come to the field and locate at Tsingkiangpu and Sutsien respectively, and they are not included in the above mentioned needs.

VII. PERSONNEL.

Dr. Junkin. Voted that Dr. Junkin be advised to take part in training conferences when desired and that the details be arranged by him and the stations concerned after his return from furlough.

Rev. and Mrs. J. R. Graham, Jr. We recommend that the location of Rev. and Mrs. Jas. R. Graham, Jr. be left until the next regular meeting of the mission, with the definite understanding that Mr. Graham may give four months in the year to special evangelistic meetings in other stations, this work to be done at the invitation of the stations concerned and to be under the supervision of a committee of three appointed by the evangelistic committee.

Dr. and Mrs. Buckingham. Recommended that Dr. and Mrs. Buckingham be located at Haichow.

Yencheng Field. The Evaluation Committee has been impressed with the great extent of the Yencheng field and the opportunity our mission has there.

It is recommended that the mission advise Rev. G. P. Stevens to locate at Yencheng; that the needs of Yencheng be placed before Rev. and Mrs. J. E. Bear by the station and the Evaluation Committee, and that they be urged to locate there, but that if they feel that they cannot do so, the power of decision be left with Mr. and Mrs. Bear as to whether they shall go to Yencheng or to Tenghsien for the year.

The "China Fundamentalist." In view of the fact that the publication of the "China Fundamentalist" is a private enterprise, edited and financed by Dr. White, but in no way connected with the work of our mission.—

We recommend that the mission take up this matter and request Dr. White to suspend its publication so long as he continues a member of our mission.

The Aye and No vote having been called for on this resolution, resulted as follows:

Aye: Junkin, Mrs. Junkin, Mrs. Rice, McFadyen, Mrs. McFadyen, Vinson, Mrs. Brown, Mrs. Harnsberger, Price,

Mrs. Price, McLauchlin, Mrs. McLauchlin, Lancaster, Mrs. Lancaster, Bell, Mrs. Bell, Taylor, Mrs. Taylor, Miss Young, Miss Sloan, Miss Mizell, Farrior, Mrs. Farrior, Miss Oliver, Hamilton, Mrs. Hamilton, Woods, Jr.—27.

No: Graham, Sr., Mrs. Graham, Sr., Woods, Sr., Mrs. Woods, Sr., White, Mrs. White, Mrs. Bradley, Yates, Mrs. Yates, Stevens, Miss McCutchan, Miss Wells, Montgomery, Mrs. Montgomery, Currie, Hopkins, Bridgman, Mrs. Bridgman, Graham, Jr., Patterson, C. H., Miss Bailey, Miss Fraser. —22.

Present: Miss Hall, Mrs. Patterson, C. H., Mrs. Graham, Jr.—3.

Mrs. Bradley. Pursuant to the action of the Ad Interim Committee (No. 544,) we recommend the following:

After consulting with Mrs. Bradley, the Sutsien station, and a representative of the Chinkiang station, we recommend that Mrs. Bradley be located at Chinkiang until her next furlough, it being understood that this does not fill the vacancy in Chinkiang which can only be filled by locating a lady evangelist there permanently.

Return to field of resigned members. Recommended that in case any members of the mission who have resigned should apply for reappointment, the Executive Committee is requested to confer with the mission before returning these missionaries to the field.

Rev. and Mrs. A. R. Craig. Recommended that in the event Rev. and Mrs. A. R. Craig come to this mission they be advised to locate at Tsingkiangpu until the time of their furlough, their final location to be decided later.

Dr. Junkin and Congress of Missions. We recommend that the mission appoint the Rev. Wm. F. Junkin, D.D. as the mission's official representative at the forthcoming Congress of Missions to be held in Chattanooga, Tennessee.

Notes on Estimates 1931-32 as adopted by the mission, embodying amendments recommended by the Estimates Committee. **This section together with table of Estimates on** p. 105 ff. embodies the report of the Estimates Committee for the year.

We recommend:

1. That the above schedule of estimates be approved, except as herein changed. (See table of estimates p. 105 ff.)

2. That for 1930-31 the school appropriations be as follows:

Chinkiang	$ 300	
Haichow	800+	G. $800 Luckett Memorial
Hwaian	1,550	Girls' School
	300	Boys' School
Sutsien	3,200	Girls' School
	1,500	Boys' School
Taichow	1,000	Girls' School
	300	Boys' School
Tsingkiangpu	300	Girls' School
Yencheng	2,100	Boys' School
Suchowfu	5,000	Girls' School
	3,500	Boys' School
Total	$19,850+	G. $800 (Haichow)

3. That for 1931-32 the appropriations be as per proposed new schedule, p. 57, except that $1,500 be added for Tsingkiangpu Boys' School, and $300 for Tsingkiangpu Girls' School, and that $400 from Woman's Bible School be divided, $200 to the Christian Intelligencer and $200 to the China Sunday School Union.

4. That the deficit be provided for as follows: (1930-31)

a. Balance from school funds (i.e. $23,500—$19,850 ..	$3,650
b. Chinkiang Agency	350
c. Yencheng Medical	844
Total	$4.844

5. Recommended that appropriations for boarding schools shall not be subject to draft unless the schools are open,

except a maximum of $300 for attendants and repairs, except that the $300 for the Tsingkiangpu Boys' School shall not be used so long as the hospital is using the buildings. Any balance of boarding school appropriations shall not be drawn from the treasurer before January 1, 1931. After that date they shall be drawn only upon special action of the mission or the Ad Interim Committee.

6. It is further recommended that schools opening for the first time this fall may draw as a maximum two-thirds of the current year's appropriations.

7. Under evangelistic appropriations, the item of $11,000 for Sutsien is to be considered as the appropriation for three or four foreign evangelists.

8. In view of the fact that the Yencheng Boys' School ran as a Junior Middle School during the spring of 1930, it is recommended that for 1930-31 the Yencheng Station be permitted to use up to $2,100 for the Boys' School.

9. The amount of $8,000 is recommended for Yencheng evangelistic work if an additional evangelist is added to the station; with the present personnel, it is recommended that this figure be $7,300.

10. Taking into account present conditions and the needs of each hospital we recommend certain reallocations of the medical appropriations; see schedule of proposed estimates.

11. That for the year 1930-31 only, the appropriations for Yencheng medical work be $1,956. Thereafter, until a foreign doctor takes charge, the appropriation shall be at the rate of $1,500 annually. When the Yencheng work is developed under a foreign doctor, the above mentioned $3,000 will probably be too small an amount, and at that time shall be considered by the mission.

12. In connection with the hospital work we find that due to the unusually high rate of exchange prevailing now, the cost of drugs has increased tremendously, working a hardship on the medical work in far greater degree than in any other department of the work. We therefore recommend

that the Executive Committee of Foreign Missions be requested to pay the medical appropriations of the various hospitals for the current year with an increase of 30%.

13. Note. The Goldsby King Hospital equipment fund is for larger equipment only; see A.I.C. action No. 525.

14. It is recommended that approval be given the Suchowfu station to repair the Boys' School buildings, and that one thousand dollars of the new appropriation of $5,000 for the Girls' School be used for this purpose, thereby reducing the Girls' School appropriation to $4,000 for the current year only.

15. That the Chinkiang Agency appropriation be $350.

16. In view of the cut in the Chinkiang evangelistic appropriation contained in the schedule of appropriations recommended by this committee, we recommend that for this year only, a special grant of $850 be given the Chinkiang station to cover work already started; this $850 to be provided as follows: a. Yencheng evangelistic, $700; b. Yencheng Medical, $150.

17. The estimates for 1931-32 have been made with no provision for the cut, so that if the cut is not restored other arrangements must be made to cover it.

18. Approve the following requests for use of special gifts:

Dr. Bell	G.$2,500.00	for Kala Azar work
	G. 85.00	sent by Executive Committee for famine work.
	G. 165.00	for Books and Tracts.

Miss Mizell ..	Mex.	240.24	
	G.	110.00	
Mrs. Graham, Sr. ..	G.	140.00	

19. That the balance of the Haichow Orphanage Fund, nearly $2,000, may be used by Mr. Vinson on purchase of car.

20. That we request Executive Committee to make special appropriation of $3,000 Mex. for walls around Yencheng hospital and doctor's residence, and that Yencheng station write a letter to show need for this.

21. That we request the Executive Committee to grant special appropriation $2,500 Mex. to Sutsien for remodeling certain Chinese rooms to make small foreign residence, and that the Sutsien station write a letter urging this request.

22. That we authorize the Arrangements Committee in settling expense accounts of Mission Meeting to charge each adult and each child who receives boarding school allowance $2.00 per day; all other children $1.00.

That the Mission Treasurer be instructed to charge this to the salary account, the balance to be paid by the Mission Treasurer.

That the Mission Treasurer be authorized to pay the necessary travel of members to and from Mission Meeting from general travel and from unused appropriations.

23. That we request the Executive Committee to increase the appropriations to the Shanghai Office $360, and that we ask Dr. H. M. Smith to write a letter explaining the need for this.

Other Recommendations Re Finances.

(a) We recommend that in **preparing estimates** and in the printing of them, the **total amount for evangelistic work** for the station be printed under that head in one block, the amount being itemized under classes and sub classes and that, in addition, the name of each individual missionary who is to draw funds from the mission treasurer be listed with the total amount of this evangelistic appropriation to be drawn by each one.

(b) Recommended that **estimates** for hospitals and schools shall be printed under the **name of the institutions** with the name of the person drawing the funds in each case.

(c) It is recommended that the mission adopt the **form of balance sheet** submitted herewith. (See addenda.) It will be noted that this balance sheet has been brought into conformity with the estimates as printed in the minutes.

(d) Recommended that the treasurer be instructed to require that all **balance sheets** be sent to him in duplicate, and that one copy of each be sent by the treasurer to the secretary of the mission for his files, being **available for** the use of the **Estimates Committee.** In case any missionary desires a copy returned to him, it will be necessary to fill out in triplicate.

(e) Recommended that the Estimates Committee shall make no appropriation for the work of any missionary, except in case of new missionaries, until the **balance sheet** for his work for the previous year has been **considered;** and the Estimates Committee shall insure that the mission rules in regard to **audit** are being complied with.

(f) It is recommended that all **special funds** received from abroad that are not for personal use, even funds given for such purposes as famine relief, must be reported to the mission. When such funds are used for mission work, approval of the mission should, if practicable, first be secured. In every case the user must have the approval of the station, and any one using such a gift before obtaining consent of

the mission does so with the clear understanding that he stands responsible for same if the mission should disapprove.

(g) Resolved to recommend to the mission that A.I.C. action No. 525 be amended by adding the following clause; "all such funds shall be used only for building and equipment."

(The action would then read: Voted that in the expenditure of **Goldsby King Hospital funds** permission be first secured from the mission for items costing as much as Mex. $500 and above, and that on any item not in excess of Mex. $500 the station be empowered to act; all such funds shall be used only for building and equipment).

(h) We recommend that the mission urge that personal and mission funds shall not be kept in the same **bank account.** Where work appropriations are small the individual may keep same with the Associated Mission Treasurers and draw on them by check.

IX. GENERAL MISSION POLICY.

Mission vs Station View of Our Work. Due to the tremendous untouched fields in each of our station areas, the pressure of our own work, and the needs that we have for reinforcements, it is almost inevitable that at times our viewpoint narrows down to that which we see day by day.

There is only one way to overcome this effectively and that is that we all definitely pray for every other station and its work.

We further recommend that the mission promote interstation visiting on a larger scale than has ever been done in the past.

We further recommend that in the future, in addition to the present time and language qualifications, it further be added that no new missionary shall vote in the mission, except by special permission of the mission, until he or she shall have visited at least five stations of our mission; and it is urged that within three years all stations shall be visited. Travel expense for these visits may be paid by the mission.

Station Supervision of its Work. A. The station should exercise general supervision of all departments of its work, and is responsible to the mission for the conduct of same.

B. All stations should keep minutes of proceedings of station meetings.

C. Once each year all employees of the various departments of the station work should be passed on by the station, not only as to the salary they are receiving, but also as to their fitness to continue in station employ. All new employees and their salaries shall also be passed on by the station. In the interim there shall be no salary increases except by station approval.

Inter-station Comity. We recommend that no station or individual member of a station shall call a Chinese employed in another station without first approaching those employing said Chinese, and under no circumstances shall a worker discarded from one station be employed by another without first thoroughly taking the matter up with the station from which said worker was discharged.

Personal Reports at Mission Meeting. We recommend that the morning session of the mission be preceded by a short devotional service.

That personal reports be considered an important item in the annual mission meeting and that all reports be written out ready for presentation at mission meeting, but the time and manner of such presentation shall be left to each session.

Furloughs. We recommend that due to the increased strain of the work in China, we feel that it is most wise for the mission to request the Executive Committee to change its rule on furloughs for China as follows.

That the time of furlough for married couples and single men be changed to one year of furlough exclusive of travel following six years of service on the field; and for single women one year of furlough exclusive of travel following five years of service on the field; this rule to apply alike to first or subsequent furloughs.

Vacations. We find that the rule of the manual re vacations (see page 8) is being overlooked or ignored by some. Members of the mission are reminded that if their vacation is to exceed six weeks (exclusive of travel) permission from the mission should first be secured. On the other hand, some missionaries in our judgment are taking so few vacations, that our doctors might well offer advice.

Executive Committee of Foreign Missions. It is recommended that the Evaluation Committee be directed to write the Executive Committee of Foreign Missions calling their attention to the fact that they have in some instances reversed the decisions of the mission concerning policies on the field, and do not seem to have given us their reasons for so doing.

The letter as written was approved.

Minutes and Executive Committee. We recommend that all important decisions of the Executive Committee in regard to our work be printed in the minutes.

Statistics. We have found that there are glaring inaccuracies in statistics as submitted. We therefore urge that each station secure accurate statistics for the minutes of the present year, especially with regard to church members.

We recommend to the mission that hereafter in the printing of the statistics in the mission minutes, the explanatory notes at the bottom of the statistical blanks be included.

Certain amendments to statistical blanks, are printed herewith (see Addenda) and are referred to the Executive Committee of Foreign Missions for their approval for use in this mission.

Résumé of Station Histories. It is recommended that each station be requested to prepare within the year a short résumé of its history, including as far as possible personnel and methods used.

New Residence. In considering the building of future residences in the mission we recommend that the number of large residences in the station in question be considered by the Extension Committee,in consulation with the station, hop-

ing that in some instances a smaller house might be built and given some of the older families whose children are away, giving the larger residence to younger families with children. We realize that in each case this will have to be decided according to conditions existing in the local stations.

Unused Property. Recommended that the mission instruct the Extension Committee to keep under consideration all the unused property of the mission, including former school plants now only partially used, and bring to the mission definite recommendations as to use or disposal of unused property.

Joint Conference Committee. Recommended that we request the Executive Committee that the present representation on the Joint Conference Committee of the two China missions be changed to a station basis.

We recommend that we request the Mid-China Mission to concur with us in this request to the Executive Committee.

Congress of Missions. In view of the fact that the report of the Evaluation Committee, adopted by the mission, covers most of the points raised in the communication from Commission Number Two in regard to the Congress of Missions to be held in Chattanooga, we recommend that a copy of this report be sent to each member of the Commission, and that a covering letter be sent by this committee stating the position of our mission on all the points raised in their communication.

X. SCHOOLS FOR MISSIONARIES' CHILDREN.

Mission School. We find that there is a strong sentiment in the mission in favor of a school for mission children within the bounds of the mission. We recommend that a committee consisting of Dr. R. B. Price, Mrs. Montgomery, Mrs. McLauchlin and Dr. Bell be appointed to further consider this matter and bring in a recommendation to the mission.

Shanghai American School. Recommended that the mission strongly disapproves granting the request for any increase in the endowment of this institution from our church.

XI. CONCLUSION.

While our investigation has dealt almost exclusively with methods, funds and personnel, and while some methods are undoubtedly wiser than others, yet we are convinced more than ever that the Holy Spirit uses all and various methods.

We have received many requests and suggestions from the various stations, but in our report we are mentioning only those that we are recommending to the mission for adoption. It is expected, of course, that each station that wishes to will bring its requests direct to the mission at this meeting.

Your committee has aimed throughout its task to take a mission view of the work as a whole, putting the needs of the mission above the needs of our respective stations. We know we have imperfectly succeeded.

It has been a rare privilege to serve the mission in this capacity. We wish every member of the mission could have shared with us in this great opportunity.

The Evaluation Committee,

W. F. JUNKIN,
F. A. BROWN,
L. N. BELL,
S. C. FARRIOR,
W. C. MCLAUCHLIN,
H. K. TAYLOR.

Amendments to Statistical Forms.

Approved by the North Kiangsu Mission and referred for approval to the Executive Committee of Foreign Missions for their use in this mission.

FORM I.

Amend note (l) explaining Col. 5, by the addition of one sentence, making the whole read as follows:

"Give here as far as possible the total number of workers already included in Columns 1, 2, and 3, who are in the employ of the Native Church as distinct from the Mission. This figure is meant to indicate extent of self support and as such should be the sum of fractional parts of salaries as paid by the native church as well as whole salaries so paid."

FORM II.

Divide Columns 9 and 10, Communicants added during the year, into four columns, as follows: Col. 9, Men; Col. 10, women; Col. 11, total additions during year; Col. 12, baptized non-communicants. The remaining columns (now numbered 11-15, would therefore be numbered 13-17.

"All contributions for religious work, such as preacher's salary, running expenses, or benevolences, etc., medical, school and other fees are not to be included. (See Form IV, Column 44, and Form V, Column 23.)

FORM III.

No change.

FORM IV.

Amend note (p) explaining column 44, by adding one sentence, making the whole read as follows:

"Enter here all grants towards tuition, and board of students, including sundry expenses, and towards the plant and running expenses of the different educational institutions reported on Forms III, IV and V. This column is for bona fide contributions; do not include any fees such as for tuition, board, etc."

Add Col. 45, "Fees, exclusive of board."

(In connection with Form IV, the mission is suggesting that Tenghsien report each year on Form IV, and that the notation be made in red that this refers to "union schools;" also, that bible schools in the station are regarded as covered by columns 26-29 on Form IV,—this does not refer to bible classes.)

FORM V.

The mission, on the unanimous recommendation of the doctors, recommends that Form V be revised to consist of the following columns:

512. Resolved to authorize the Sutsien station, after consulation to transfer a maximum of $700 of Boys' School appropriations to the Suchowfu Boys' School, in view of the large number of boys attending that school from Sutsien and the fact that the Sutsien school is now closed.

513. Dr. Bell was allowed to use a special gift of G.$100 for the purchase of books and tracts.

514. Voted that in case **Miss Elizabeth Hudson** is assigned to the North Kiangsu Mission she be located at Chinkiang.

515. Voted to advise Miss Lina Bradley to locate at Tsingkiangpu.

In addition, the faculty of the Mateer Memorial Institute is

greatly desirous of having Mr. Bear to spend the next year teaching in that institution, which proposal this committee approves.

517. Voted to advise the members of each station to collect details with regard to the value of mission property and plants in the stations as soon as possible before the evaluation committee arrives in the station, for presentation to the evaluation committee for action. This action has in mind future possible discussion with the authorities.

518. Voted to call the attention of the Executive Committee again to the fact that we are calling for three additional male evangelists and one doctor, in addition to Dr. Caspar Woodbridge, and urge that these workers be sent to the field at the earliest possible date. 520. The Suchowfu station was allowed to make up a shortage on Hwang Kou School for last term, amounting to $4.75 on account of the fact that the very unsettled condition of the country prevented pupils from attending the school.

521. Voted to allow the Tsingkiangpu station to contribute for the spring term a maximum of $6.00 more than

allowed by the mission rules to the small city boys' school. This school is being run by the Tsingkiangpu city church, and this amount is approved because the city church is now entirely self supporting, whereas according to mission rules it could still be receiving mission assistance.

522. Special gifts were approved as follows:

Mrs. Lancaster	G.$ 125.00
Mr. Hopkins	G. 205.00
Dr. Bell (for subsidizing Kala Azar work) ..	G.$3,500.00

Resolved to allow Dr. Woods to use a personal gift of G. $800.00 for automobile.

525. Voted that in the expenditure of **Goldsby King Hospital** funds permission be first secured from the mission for items costing as much as Mex. $500.00 and above, and that on any item not in excess of Mex. $500.00 the station be empowered to act; all such funds shall be used only for building and equipment.

526. Voted to approve the purchase of an X-ray for the Goldsby King Hospital out of funds now in hand.

527. Voted to send the following cable at once to **Dr. Casper Woodbridge:**

Woodbridge
Montgomery, W. Va.
Adinterim Committee unanimously reiterates Yencheng call. Would like reply Missionary Home today.

McFADYEN.

528. Voted to request the Executive Committee to appoint **Dr. Norman G. Patterson** as a regular missionary to

535. Voted to request the evangelistic sub-committee to reconsider the itinerary of Mr. Graham, Jr. for this spring with special reference to the acute needs of Yencheng.

536. Voted to allow the Sutsien station to open its Junior Middle School for boys this fall on a limited scale, if the station feels the situation justifies the attempt.

537. The call of the Sutsien station to Mr. and Mrs. Farrior was deferred until mission meeting.

538. The Sutsien station was allowed to transfer the sum of Mex. $750 from the unused boys' school appropriations of the current year to the evangelistic account of C. H. Patterson.

539. In view of the absence of a doctor at the **Sutsien Hospital** and the consequent depleted amount of medicine and other supplies on hand, and in view of the possibility of enlarging the medical work there in the near future, the Sutsien station was authorized as an emergency measure, to carry over all of its unused hospital appropriations, such amount to appear on the balance sheet next year.

Dr. Bell is instructed to write a covering letter.

540. Voted to request the reparations committee to allow the Sutsien station to use an amount not to exceed $2,000.00 of reparations funds to put a few of the Boys' School buildings in repair for use this fall, and to make a beginning on equipment replacements. The Sutsien station is directed to weigh very carefully the local conditions in deciding whether or not to open the school.

541. Voted to approve the request of the **Sutsien station** to recognize the need of the station for a **car,** both for purposes of inter-station communication and for country evangelistic work by the women of the station and gospel teams; and to authorize the Sutsien station either to secure if possible special gifts to enable the initial purchase of the car and the yearly unkeep, or to secure the replacement of Dr. Bradley's car through the reparations committee.

Also the circular letter from the **Taichow** station requesting approval of a **teacher** for missionaries' children.

544. The request of the Chinkiang station for the transfer of **Mrs. Bradley** to Chinkiang was referred to the Evaluation Committee with the suggestion that after consultation with Mrs. Bradley and the Chinkiang and Sutsien stations, they make recommendation in regard to this matter to the mission.

545. Resolved that Messrs. Farrior, McLauchlin and Brown be appointed a **Property Reimbursement Committee** to take up the question of mission property (not personal) losses with the Nanking authorities.

546. Resolved that this committee expresses a most hearty welcome to Mr. and Mrs. Grant, and suggests that if possible they begin their itinerary in the North Kiangsu Mission in the early fall.

547. Voted to approve of Mr. Taylor serving on the advisory committee of the Stewart Evangelistic Fund.

548. Resolved that for the current year we instruct the treasurer to pay the insurance for mission institutions from unused appropriations, preferably from school appropriations, and that the Estimates Committee be instructed to make recommendation to the mission for caring for these items in the future.

549. Resolved to hold the meeting of the mission in Taichow, Friday 9 a.m., June 27, 1930.

550. Resolved that the Ad Interim Committee request the Executive Committee to recognize the principle that with the exception of plumbing and water works, reparations on **Goldsby King Hospital** be covered with reparation funds and not with Goldsby King funds. Dr. J. B. Woods, Jr. is requested to write a covering letter to the Executive Committee in regard to the matter.

551. In view of expenses in making necessary repairs on the Yencheng Boys' School, and of losses in connection with temporary disbanding of the school, the Yencheng station is allowed to transfer from medical to boarding school a sum not to exceed $400.

552. Voted to approve Rev. G. P. Stevens drawing funds now in treasurer's hands for the Pah Chi Chapel in the Tsingkiangpu field.

553. Voted to approve the transfer of Mex. $500 from unused Tsingkiangpu school appropriations to Rev. G. P. Stevens for evangelistic work in that field.

554. Voted that in the event it is found desirable to sell the **Paxton and Sydenstricker properties,** proceeds of same to be used in the erection of one or more residences in a more suitable and accessible location, we request the Executive Committee to place the disposal of this property entirely in the hands of the North Kiangsu Mission, and in the case of Mr. Paxton's residence after consultation with him. The Chinkiang station is instructed to write covering letters to the Executive Committee and Mr. Paxton.

(Later—July, 1930. A letter has been received from the Executive Committee stating that Mr. Paxon nas written assenting to the proposal in regard to his former residence.)

555. In case a suitable building site can be had at the **Goldsby King Hospital,** other than the one reserved for the second missionary residence, voted that a residence for a single missionary be erected on the Goldsby King Hospital grounds, to cost not more than $3,000 Mex.; funds for this building to be secured in part from sale of material at the Chinkiang Boys' School, (about $2,000), and in part from a loan, which is to be returned from the rental of the Chinkiang Boys' School.

The Executive Committee is requested to approve the erection of this building and the funds designated for it.

556. **Suchowfu** station is allowed to buy an **Xray** for the hospitals with funds already on hand and allocated for that purpose.

557. In regard to the action of the board of the **Woman's Bible Teachers Training School** taken unanimously at its last meeting, proposing a separation of those now in control, the Ad Interim Committee of the North Kiangsu Mission

hereby informs the forthcoming meeting of the board of the school that the question of the relation of the North Kiangsu Mission to the different parties now in control of the school will be decided at the next meeting of this mission. Meantime, the mission's committee of three in regard to the school is instructed to take under consideration for the mission all questions of finance and other details, and report in full to the next meeting of the mission.

558. Resolved to approach the Ad Interim Committee of the Mid-China Mission, looking to the securing of their consent to the prosecution of a call for Miss Satterfield to take up mission and station secretarial work in Taichow.

559. Resolved to request the Executive Committee to provide the sum of Mex. $600 work appropriation for Mr. Jas. Graham, Jr., and for a proportionate amount of $200 for the year ending March 31, 1930.

560. Resolved to allow the **Suchowfu** station to secure a **teacher** for missionaries' children.

561. Referring to the letter of Dr. Egbert Smith to the secretary, of December 14, 1929, the extension of Mr. Armstrong's furlough is approved.

562. Voted to approve a request to rent or lease property in Liang-T'ang Tsai in the northwest section of the Suchowfu field. This is considered a strategic center (see mission minutes 1927, page 27).

563. Voted to send a call to the Executive Committee for **Miss Lucy Fletcher** to come out for country evangelistic work in the Suchowfu field. We request the Ad Interim Committee of the Mid-China Mission to support us in this call.

564. Mr. Hopkins was appointed to answer the request of the Executive Committee contained in Mr. Willis' letter to the secretary of October 10, 1929, for information in regard to action No. 62 of the last mission meeting, re **schools other than** the **Shanghai American School.**

565. Voted to request the Executive Committee to grant a special appropriation to cover the educational expenses of two children of Mr. Stevens and one child of Mr. Hopkins in the Pyeng Yang Foreign School, for the year 1929-30, the sum not to exceed that granted to each child in the Shanghai American School.

566. Voted that we advise the Haichow station to seriously consider the reconditioning of one or two of the old compounds for reoccupation by the missionaries.

567. **The China Sunday School Union.**

1. We heartily endorse the "Common Zone" policy followed by the China Sunday School Union since its organization, (i.e., the use in its literature of that body of Bibilical truth common to the Standards and Declarations of all the larger evangelical denominations), and commend the Union for its stand in insisting that this shall be regarded as a closed question.

2. We recommend to the North Kiangsu Mission that, if need be it bear a proportional share of the $4,000 gold appropriation hitherto made by the World's Sunday School Association, but which is now withdrawn because the China Sunday School Union has refused to abandon the "Common Zone" policy.

3. We approve the proposed appeal by the China Sunday School Union to sympathizers in the homelands for contributions to its annual budget to be made direct to the China Sunday School Union, since the appropriation for the work of the Union has been cut off by the World Sunday School Association.

568. Voted to urge the Executive Committee to secure the return of **Dr. Buckingham** to China this fall to be assigned to the North Kiangsu Mission: Dr. Bell to write a covering letter. We point out that with the great growth and burden of our hospital work, and with the **loss in** recent years of Drs. Bradley, Voss (formerly of Sutsien), Head, Hewett and Newman, the **medical force** of the mission is greatly in need of reinforcement.

569. Voted that the request of the **Suchowfu** station for permission to secure Mex. $12,000 for building **boys' school** outside the city be referred to the Evaluation Committee for recommendations to the coming meeting of the mission.

570. Voted to approve Dr. Bell's seeking to secure an **interne for the Tsingkiangpu Hospital** in America, one who is a volunteer for Mission work, and that should such a man be secured he be permitted to remain at Tsingkiangpu for two years, at the end of which time, should he be willing to remain on the field, he will be subject to the call of the mission. It is understood that the mission is not expected to make any financial provision for his travel or salary during above mentioned two years.

571. Voted to refer Mr. Willis' letter of December 13, 1929, re reparations to the reparations committee.

572. The committee appointed to dispose of mission furniture (see Ad Interim Committee action No. 416) wishes to report that the furniture has been sold and the proceeds, amounting to $316.15 have been sent to the mission treasurer. The report was approved and the committee discharged.

573. Voted to advise Miss Sophie Graham to go to Suchowfu next year for school work during Miss Young's furlough.

574. The secretary is instructed to write the Executive Committee asking for a statement of their present rules on **furlough** for:

1. First term of single lady missionaries.
2. Subsequent terms of single lady missionaries.
3. Doctors (see mission minutes 1919, page 4, Line 17 ff.)
4. Married couples (see mission action, minutes 1927, page 4, par. 3. (c))

575. Resolved to request the Executive Committee to send Rev. and Mrs. Charles Woodbridge to the field to work in the North Kiangsu Mission, and to request the Ad Interim Committee of the Mid-China Mission to approve this call.

Mr. Hopkins is requested to write Rev. and Mrs. Woodbridge, and urge this call.

576. Resolved to advise Dr. and Mrs. Caspar Woodbridge to locate at Yengcheng.

577. Resolved to defer the location of **Dr. and Mrs. John Reid** to the next meeting of the mission. In the event he arrives this spring we advise him to go temporarily to Tsingkiangpu, and suggest to him that he take advantage of this location to visit neighboring stations.

578. Voted to repeat the call for **Miss Elizabeth Hudson** and urge the Executive Committee to send her to the field this summer or early fall.

579. Voted to request the Executive Committee of Foreign Missions to send Misses Margaret Patterson, Sarah McFadyen and Lucy Grier to the North Kiangsu Mission when feasible and to request the Ad Interim Committee of the Mid-China Mission to join in this call.

580. Resolved to reiterate Ad Interim Committee action No. 516, in regard to **Rev. and Mrs. J. E. Bear**, urging upon them to return to the North Kiangsu field. Mr. Hopkins is requested to write Mr. Bear in regard to this.

581. Replying to Mr. Willis' letters to the Secretary of October 10, 1929, and October 11, 1929, re items in the report of the Extension Committee of the mission, amounting to about Mex. $6,750 (see 1929 minutes, p. 23), it is directed that these items should be listed under the China Emergency Fund.

All meetings were opened and closed with prayer, and the minutes of all sessions were approved.

A. A. McFadyen, *Chairman*,

H. Kerr Taylor, *Secretary*.

Junkin, Brown and Taylor, entitled "Concerning the Policy of the North Kiangsu Mission in Sharing with the Chinese Church in the Administration of the Work, and the Freedom of the Chinese Church From the First in Ecclesiastical Matters."

588. Voted to refer the matter of **Dr. Woodbridge's letter** to the Yencheng station with the suggestion that they reiterate their call to Dr. and Mrs. Woodbridge, and that in the event ninety percent of the North Kiangsu Mission approve, this call be cabled by the mission

We addressed the following communication to the members of the mission. For the convenience of future extension committees, we recommend that this letter be spread on the minutes.

Oct. 22, 1929.

To the Members of the North Kiangsu Mission.

DEAR FRIENDS:

The Extension Committee thinks it worth while to mention to you some matters that have been brought to our attention through our correspondence with a number of Stations who are now carrying on building operations.

1. A number of Stations have, during the past year, asked us to approve of expenditures already made. Such requests put our committee in an embarrassing position. Please let us have your request *in advance*, stating your maximum sum.

2. We are under the impression that the Mission expects all reasonable repairs to be defrayed from the current annual appropriation drawn each year under this head. This applies especially to deterioration due to the elements, such as outside painting and leaky roofs.

3. Mission, at last meeting, directed that all requests for reparation (reconditioning due to losses) should go direct to the joint committee on Reparations, Mr. McLauchlin, Chairman, and not to our Committee.

4. As we understand it, Mission instructions to our committee, as per Manual, page 4, still stand, viz., all building plans exceeding $500 Mex., and all alterations exceeding $200 Mex. require the approval of the Extension Committee (excepting, of course, reparations referred to above).

5. We reiterate the request made by a former Extension Committee, (Minutes 1925, page 31), to please give your committee time to exchange letters among ourselves, and do not ask us to report individually by wire.

We will do our best to give all requests the prompt attention they deserve, though the committee is often badly scattered, and away from our Stations. The above letter represents the unanimous opinion of our Committee.

Report of the Representative on the Board of the Mateer Memorial Insitute, and North China Seminary.

Routine work was attended to. The only other matter acted on was that the faculty call to a new member of the faculty shall be approved by the Board before becoming finally effective, though the first call can come from the faculty; also the faculty has power to temporarily fill any position.

J. R. GRAHAM, Sr.

Report of the Haichow Hospital Building Committee.

The Haichow Hospital Building Committee reports that the lost accounts have been found, but on account of the hasty departure of the hospital treasurer for Tsingtao, early in June, the accounts have not yet been audited by other members of the station. We request that the committee be continued until the accounts may be audited.

Report of the Committee on the Bible Teachers' Training School.

At the suggestion of the Northern Presbyterian Mission, a meeting of representatives from the Missions and churches cooperating in the Bible Teachers' Training School, was held in Nanking on December 6th.

A report of the recommendations made at this meeting was sent to all the stations by your Committee.

The annual meeting of the Board of the Bible Teachers' Training School was held in Nanking March 4-5.

The principal work of the first day was the following:

"It was voted that a committee of four members be appointed by the Chair to bring in a motion on questions growing out of paragraph 214, page 7, 1929 Minutes. The Chair appointed Miss Paxon, Miss Mary Culler White, Miss Kesler, and Miss MacCurdy.

The report of this committee was made, and after discussion the following motion was passed.

In accordance with the action taken last year, Paragraph 214, 1929 Minutes, to the effect that,

(1) Separation in the Board was necessary.

(2) That it be accepted in principle at that time,

(3) That the final terms be agreed upon, not later than the meeting of the Board in 1930.

We would note that this action was taken after the deepest and most thorough-going deliberation, and in the spirit of love and fellowship. Since we believe it was and is for the best interests of the Kingdom and the glory of God, and not in any sense implying or involving any element of dissention, withdrawal, or lack of Christian harmony. Therefore, be it resolved,

1. That the proposed separation be now effected as between members of this Board appointed by the cooperating Missions and Churches, and the group now acting as members at large.

2. That the matter of financial adjustment be dealt with by the joint committee for that purpose.

3. That in addition a committee of Clearance be appointed to take up any matters that may arise that may be of mutual concern and interest"

The second day the two groups—one representing the cooperating Missions and churches; the other made up of the

group known as Members at Large—met separately, to discuss plans for carrying on two Bible Schools for Women.

The special committee, appointed to make recommendations for some financial adjustment between the two groups, met in Nanking, April 17th

The following recommendation was made:

"That the cooperating missions authorize the Board of Managers to pay to the school, being opened by the group who formerly served on the Board, a sum not to exceed $35,000.00 Mex., when such funds are available, either from rents or from property quota funds due from Missions who are willing to have these funds so allocated."

Three courses seem to be open to each mission. One is to continue the union with the other missions and the reorganizing of the school. Another is to join with the Co-opted group in founding the new school. And the third is to withdraw from the Nanking Bible Training School and take no part in the management of either school.

Your committee of three recommend the following:

1. That we as a Mission notify the other Missions who have been cooperating with us in the control of the Bible Teachers' Training School that we do not intend to continue our connection with this school and now notify them of the discontinuance of our Mission's annual appropriation to the school.

2. That the property quota funds invested by our church in the Bible Teachers' Training School be left in the institution so long as Mid-China continues to cooperate in its control.

3. That the Mission approve the report of the Committee on Financial Adjustment.

MARGUERITE MIZELL.

Report of the Representative on the Board of the Shantung Christian University.

Your representative reports as follows:

On account of disturbed political conditions he failed to attend two very important meetings of the Board. He did attend part of one meeting last July.

The year has been characterized by strikes and continued agitation among the students and employees of the University, and relentless persecution on the part of the local Tang Pu. (Political Bureau.) In consequence the Arts and Science departments have been closed for the past few months. The department, in which we are interested, the Medical, was kept open, but the Hospital was closed for several months, opening again in February. The agitation among the students was rooted in a fear that the ruralization program of the University would cause it to lose caste and result in a lowering of its standards to meet its supposedly country clientele. While mistaken in this position it has taken a great deal of hard work to disabuse their minds. It resulted in the President, Mr. Li Tien Fu, resigning his position, which has not yet been filled. There are grave doubts as to whether the Arts and Science Schools can open this fall.

Your representative has opposed registration, but not successfully. The Commissioner of Education has stood in the way of registration, making demands that could not be agreed to. By large the prospects are not encouraging, but with the election of Mr. L. J. Davies as Vice-President, and the internal reorganization of the University, conditions may improve.

A. A. McFadyen.

Report of the Resolutions Committee.

1. Resolved that the mission has heard, with regret, of the sudden death of Dr. Arthur Coleman Bridgman, father of Rev. Harold T. Bridgman. The North Kiangsu Mission extends its deepest sympathy to Mr. Bridgman, and the chairman of the mission is requested to lead in prayer for him and the other members of the bereaved family.

2. We recommend that the North Kiangsu Mission express its thanks and appreciation to the pastor and officers of the Community Church for their courtesy and consideration in permitting our mission to use their buildings.

3. We recommend that the mission express its appreciation to Mr. Gale, Mrs. Thompson, and others of the American School, for the various kindnesses to our body incident to our meeting in the school.

4. We recommend that the mission secretary be instructed to convey the two above actions to the parties concerned.

Respectfully submitted,

Mrs. S. C. FARRIOR, *Chairman.*

Report of the Representative on the Board of the Chinese Christian Intelligencer.

One meeting of the board has been held. It being impossible for either the mission representative or alternate to attend this meeting, Rev. H. Maxcy Smith was asked to attend the meeting and kindly consented to do so.

The report of the editor of the paper showed an encouraging increase in circulation, both in China and abroad. Rev. Chen Chin-T'sen continues as editor, and Mr. Gilbert McIntosh as business manager.

The board found itself in imperative need of an increase in income. It was deemed unwise to raise the price of subscription above that now charged. It was voted to approach the six other Presbyterian Missions requesting them to make a regular appropriation for the work of the paper.

Your representative recommends:

1. That the annual appropriation of this mission to the paper be increased from $625 to $825.

2. That in accord with our recommendations of last year, and in order to preserve the present and historic control of the paper, the mission would discourage the associating of other missions or groups in such control; and would suggest that each of the bodies now associated in the enterprise be asked to increase its appropriation, and also that the management consider the advisability of incorporating a larger amount of suitable and remunerative advertising matter.

Respectfully submitted,

H. KERR TAYLOR, *Representative.*

Report of Representative on Associated Mission Treasurers Advisory Committee.

Your representative attended the meeting of the Advisory Committee, and also the annual meeting of the Associated Mission Treasurers on April 15th of this year. The report of the Associated Mission Treasurers is available in print.

Several matters were discussed which related to the carrying on of the business of the Treasurers. The matter of

bonding for the mission representatives was brought up and the only mission representative not now bonded is in process of securing such a bond. The balance sheet and financial statement of the Treasurers were examined and found satisfactory. These will be found in the Report of the Associated Mission Treasurers.

Respectfully submitted,

Chinkiang Agency Report.

The contract with Foo Chang & Company has been continued as usual, $300 per year being paid them. This last year the total amount used by the Agency was $309.50. The accounts were audited by Chinkiang Station.

The native customs service has now been put under the Inspector General of Customs and this has meant a change in the rules and conduct of the customs at Yangchow. Because of this, goods going up the canal have been delayed more than once. Every effort has been made to secure some means by which these delays could be avoided, but

none of them seem to have been entirely effective. It is the purpose of your representative to take up the matter further in the fall, if these delays continue

One other item of interest to some members of the mission is the matter of repairs to walls and walks in the foreign cemetery at Chinkiang. When the concession was returned to the Chinese Government an arrangement was made through the British Consul to have the cemetery held by a group in Chinkiang representing the business and missionary communities and the different nationals interested in the cemetery. A large sum was required to repair the cemetery. A contribution of $50 was made for this purpose from the Chinkiang Agency Appropriation.

Any suggestions as to the conduct of the Agency will be greatly appreciated.

It should be stated that the friends at the C. I. M. have agreed to take in members of our mission at a rate per day. I have not been able so far to get a statement of just what that rate would be. There is plenty of room there to leave baggage, etc.

Respectfully submitted,

S. C. FARRIOR, *for the Committee.*

Report of Property Reinbursement Committee, or Committee on Indemnity from the Chinese Government.

This committee was appointed by the Ad Interim Committee last February. One meeting was held at Suchowfu and the chairman was directed to see the Consul at Nanking with regard to this matter. This was done. Each Station Secretary is being sent a U. S. Government blank with a letter giving the details required by the consul for claims to be filed with the Chinese Government.

It should be stated that the consul held out very little hope of any reimbursement.

Respectfully submitted,

S. C. FARRIOR, *Chairman.*

Report of Committee on Publicity and Reinforcements.

Your committee would call attention to the great importance of our seeing that the North Kiangsu Mission and its needs are adequately placed before the Home church at the Congress on World Missions, to be held by our church in Nashville next February.

We recommend that the important questionnaire prepared by our General Assembly's Commission on this Congress be turned over to the incoming committee on Publicity and Reinforcements, (Dr. Bell, Chairman, Mr. McLauchlin, Mrs. C. H. Patterson, Mrs. L. H. Lancaster and Mrs. H. W. White) to be answered in detail.

We recommend further that the Nominating Committee appoint an Auxiliary Committee on Publicity and Reinforcements, chosen from members of the mission in the United States, to cooperate with our field Committee on Publicity and Reinforcements, to see that the North Kiangsu Mission shall be properly placed before the church through exhibits and other methods of publicity at the Congress of World Missions.

We urge the entire mission to awake to the wonderful opportunity that we will have at the Congress on World Missions, and heartily cooperate with our two committees on Publicity and Reinforcements to make full use of the opportunity.

Respectfully submitted,

E. H. HAMILTON, *Chairman.*

Minutes of the Joint Conference Committee of the North Kiangsu and Mid-China Missions.

June 20th, 1929.

The Conference Committee met at the Shanghai American School, June 20, 1929, at 8 p.m.

The Chairman, Dr. McMullen, read a passage of scripture and called on Dr. Junkin to lead in prayer.

Present: Messrs. Farrior, Junkin, McFadyen, McLauchlin, Talbot, Taylor, White and Womeldorf from the North Kiangsu Mission, and Mrs. Davis, Mrs. P. F. Price, Miss Sloan, Messrs. McMullen, P. F. Price, Worth, and Young from the Mid-China Mission.

Voted in reply to the action of the Executive Committee referring the question of Dr. P. B. Price's transfer to Tsinan to this Committee for its advice, that we recommend to the Executive Committee that Dr. Price be located at Sutsien. This action was passed by a vote of 10 to 4.

Voted to concur with the North Kiangsu Mission in the action quoted below and to recommend similar action to the Mid-China Mission.

RESOLVED.—1. That our Mission has been well satisfied with the work of the Bible Teachers Training School of Nanking, and rejoices in its splendid results. We therefore greatly regret that an attempt to bring about a revision of the constitution has resulted in a situation which the Board believes necessitates a separation. If reorganization is inevitable, we put ourselves on record as standing unalterably for the religious purpose of the school as set forth in its constitution; and as being in hearty accord with that loyalty to the Word of God which has even been the glory of this institution. Our cooperation and support will be with those who carry on the school along the lines laid down by its founders.

2. We request the representative of our Mission on the Board, and the alternate, together with a man appointed by the Mission, to act as a committee to take the whole matter of the reorganization of the Bible Teachers Training School under advisement, offering suggestions and entering into the councils of those who are now planning this reorganization, so far as it shall seem wise, and make a full report, with recommendations, to the next North Kiangsu Mission Meeting.

3. That this action be held in abeyance until after the meeting of the Joint Conference Committee, and that we request the Joint Conference Committee to either concur with us in taking this action or to make such suggestions to our Mission as they shall see fit.

Voted to refer to the Mid-China Mission the request of the North Kiangsu Mission for the transfer to that Mission of Rev. and Mrs. A. R. Craig.

Voted to join with the North Kiangsu Mission in calling for two new evangelists for that Mission.

Voted to appoint Rev. H. M. Smith on the Reparations Committee.

Voted to defer action on questions of proceedure raised by the North Kiangsu Mission.

H. MAXCY SMITH, *Secretary*.

Septmber 6th, 1929.

The Conference Committee met at the Missionary Home, Shanghai, at 8.15 p.m., September 6, 1929. The Chairman, Dr. R. J. McMullen called on Dr. J. B. Woods, Sr. to open the meeting with prayer.

Present: Messrs. Bridgman, Currie, Hopkins, McFadyen, C. H. Smith, Taylor, Womeldorf, and J. B. Woods, Sr. from the North Kiangsu Mission and Messrs. Craig, McMullen, P. F. Price, Mrs. P. F. Price, and Miss Addie Sloan from the Mid-China Mission.

The chief business before the Committee was the letter of Dr. E. W. Smith, dated July 30, 1929, relative to the return to China of missionaries now in the U. S. The Committee voted as follows:

Miss Mary Bissett: In view of the history of sprue cases in China, and the danger of relapse upon return to the field, we do not advise her return.

Rev. and Mrs. J. C. Crenshaw: In view of the history of Mrs. Crenshaw's health in China during the last few years, we deem it unwise for them to return to the field.

Dr. and Mrs. Caspar Woodbridge: The Committee requests their return at the earliest possible date to work at Yencheng.

Miss Hazel Matthess: The Committee requests her return, on the completion of her course, to work in the Sarah Walkup Hospital at Taichow.

Miss Lily Woods: In view of her health record while in China, the Committee hesitates to advise her return to the field.

Mrs. S. I. Woodbridge: In view of the history of sprue cases in China and the danger of relapse upon return to the field, the Committee does not advise her return.

Dr. and Mrs. C. H. Voss: In view of the history of Dr. Voss's health while in China, the Committee does not recommend their return.

Miss Lina Bradley: The Committee calls for Miss Bradley to become a member of the North Kiangsu Mission, her location to be decided by the Ad-Interim Committee of that Mission, there being several calls for her services.

Rev. and Mrs. P. C. DuBose, Mr. and Mrs. Shires, Mr. and Mrs. Evans, Miss Elizabeth Corriner, were all referred to the Mid-China Mission for final action.

Miss Sade Nesbit: There is no call for her in either Mission.

Rev. and Mrs. R. C. Douglass. The Committee does not advise their return to China.

Rev. W. C. Cumming: The Committee calls for his return for evangelistic work, his location to be decided later by this Committee in view of the fact that there are calls from both Missions.

Voted to call for Miss Elizabeth Hudson to come to China as soon as possible and that she be advised to study in the Peking Language School and that her permanent location be determined by the Conference Committee after consultation with her.

Voted to approve of the call of the North Kiangsu Mission for Rev. Edgar Woods.

Voted to approve of the call of the North Kiangsu Mission for Miss Elizabeth Grier.

Voted that the action of this Committee regarding the allocation of certain missionaries to individual stations shall not be understood as restricting the authority of Missions concerned to make subsequent change or transfer of said missionaries without further reference to the Conference Committee.

Voted that Dr. H. Maxcy Smith be requested to issue in mimeograph form, from time to time, personal and other items regarding our missionaries as a bond of union and common interest.

Voted to refer to the North Kiangsu Mission a letter from the U. S. Consul at Nanking concerning claims for property destroyed outside of Nanking.

Voted to send a cablegram congratulating Dr. Painter on the occasion of his ninetieth birthday.

The Committee adjourned with prayer by the Chairman.

H. Maxcy Smith, *Secretary.*

ACTIONS OF THE EXECUTIVE COMMITTEE OF FOREIGN MISSIONS.

General.

October 1929. "We recommend that Dr. Phil Price remain at Tsinan and that the Candiate Department do its utmost to secure a medical missionary for Sutsien to be sent out as speedily as possible under the usual conditions."

"In the Minutes of the North Kiangsu Mission, meeting in Shanghai in June 1929, we note the following:" (Here follows the last paragraph of action No. 45, re Hangchow College.)

"The North Kiangsu Mission voted to request the Executive Committee to authorize the following appeal: (Here follows action No. 68). We recommend that the above appeal be authorized, all possible care being taken to provide that the burden of this reimbursement does not fall upon innocent Chinese citizens." (The appeal concerned reparations from the Chinese Government.)

"We report that the request of the Executive Committee for the attitude of our China Missions towards the positions taken in the pamphlet submitted the Jerusalem Council by the Chinese delegates was answered by the N. K. Mission at its annual meeting in June, 'dissenting both from the principle as a whole and from the policies outlined in particular.'"

April 1930. "Although our Executive Committee of Foreign Missions cooperates with Shantung Christian University only in supplying two doctors to the Medical Department, yet we are asked to approve the addition of the Woman's Missionary Society of the United Church of Canada to the Mission Boards cooperating in Shantung Christian University. We recommend that our approval be given."

June 1930. "We recommend that the resignation from the service of Rev. and Mrs. R. Clyde Douglas be accepted."

"The Mid-China Ad-Interim Committee voted to instruct the Secretary to write the Executive Committee of Foreign Missions requesting them to endorse the campaign now being conducted in the United States in behalf of the Shanghai American School, to publish the endorsement in our Church papers, and to notify the Campaign Committee in New York of such action.

"We recommend that our Committee give Dr. E. L. Anderson, the Principal of the School, now in New York and handling this campaign, permission to solicit individuals throughout our Church in behalf of the equipment of the Shanghai American School."

Financial.

October 1929. "The North Kiangsu Mission (action No. 62) requests that in case of missionary children who go away from home to schools other than the Shanghai American School be put on the same basis as those children who attend that school.

"We recommend that the Treasurer request information from the Mission as to what schools they contemplate using and as to the amount required to reach the basis asked by the Mission."

Action No. 64 re certain dental bills was disapproved.

April 1930. Action 555 of the A. I. C. re residence at Goldsby King Hospital was approved.

"The Ad-Interim Committee, North Kiangsu Mission, requests the Committee to grant a special appropriation to cover the educational expenses of two children of Mr. Stevens and one child of Mr. Hopkins in the Pyeng Yang Foreign School for the year 1930-31, the sum not to exceed that granted to each child in the Shanghai American School.

"We recommend that the amount be allowed up to $450.00 for each child, as this is the amount granted at the Shanghai American School."

Action 554 of the A. I. C. re Paxton and Sydenstricker properties in Chinkiang, was approved as follows: "We recommend that the sale of the property be approved and that the amount be reported to the Executive Committee and that the mission submits recommendation as to its use."

March 4, 1930. (Letter from E. F. Willis.) "Under the rule made by the General Assembly that our appropriations for the new year should not exceed the average amount during the two pre-

ceding calendar years we have been compelled to make a reduction in our work and it was decided to reduce Classes IV to IX exclusive of Class VIII 5%. I cabled you as follows:—"Appropriations for Classes IV-IX exclusive Class VIII Mid-China G.$44,312.; North Kiangsu G.$65,133. Letter with full information follows.'

"I have applied this reduction on the Classes so that the appropriation to be entered April 1st is as follows:

Class I		$67,575.00	
„ IV	$19,520.60		
„ V	22,551.58		
„ VI	12,007.53		
„ VII	6,433.40		
„ IX	4,620.32	65,133.43	
			$132,708.43

"I do not know any other way to apply it and if any changes are made by transfer from Class to Class please advise me just how you work it out. I do not see any hope for additional appropriations during the coming year for in complying with the General Assembly's order we had to reduce our contingent fund also.

"You will understand that the Committee is endeavoring to do the best it can in view of the Assembly's order and its decreased income."

(35) Voted as follows:

The North Kiangsu Mission after days of prayer and discussion, and after hearing with the most sympathetic interest the presentation of the **Kiangpei Presbytery's request concerning the Suchowfu schools,** makes the following **reply:**

We cannot agree to any arrangement whereby schools with which we are connected in any way are to be registered under present government regulations. The mission does not object to the principle of registration of schools, but the conducting of our schools with an avowed Christian aim is a right which is inherent in religious liberty already granted in the constitution. We feel the teaching of God's word and regular worship is a necessary integral part of the curriculum of a Christian school.

The mission does not need to express its sympathy with the presbytery in its desire to adequately meet the educational needs of our Christian constituency; the past and present mission policy clearly indicates the earnest desire of the mission to assist in giving the Christian constituency in the North Kiangsu field the opportunity to receive a Christian education.

The mission would make the following suggestions in the light of the situation as it now exists:

(a) That we feel God is opening the way both for the presbytery and the mission in that the necessity for registration has been officially deferred one year by the government. We should consider this as a direct providence of God and a clear guidance to continue our schools with the Christian purpose unaltered, trusting God to open the way in the future if it is His will to continue this type of educational institution.

(b) That for one year a board composed of eight members, four of whom shall be elected by the presbytery and four of whom shall be elected by the mission, shall have full control of the schools, including the election of faculties and the principals of the two schools.

(c) That a committee of the mission be appointed to meet with the Kiangpei presbytery at its meeting this fall to discuss the entire question of Christian education and methods of cooperation and report back to the mission for consideration.

(d) The mission would strongly urge the presbytery to cooperate in getting in touch with and combining the efforts of all evangelical bodies, Chinese and foreign, who share similar views regarding registration, with a view to petitioning the National Government to remove the restrictions on registration, which contravene the declared intention of the Government to grant religious liberty.

We wish to thank the two representatives of the presbytery who brought before us the presbytery's request for the clear and complete way in which they brought the whole matter to our attention, and we request them to take back to the presbytery our fraternal greetings and to assure the Chinese brethren of the presbytery of the high esteem in which we hold them.

(36) Rev. H. W. White, G. P. Stevens and L. H. Lancaster were appointed a committee to convey the action of the Mission to the Presbytery's representatives, and also to have reply translated and put into the hands of Presbytery.

Report of the Representative on the Board of the Shantung Christian University.

The Shantung Christian University held its annual Board Meeting in Tsinanfu, June 16-17 of this year.

The most important questions before the Board were registration and ruralization. Those who are on the inside are quite optimistic regarding the registration of Cheeloo this year. They also hope to push the ruralization scheme as soon as this matter is finished. Mr. King-Chu, to the delight of both students and faculty accepted the presidency. Mr. He, the Commissioner of Education, was visited by Mr. Chu, and it is reported that Mr. He, the former antagonist of Cheeloo, promised to support him, and keep the students quiet. Both President Chu and Mr. He were present at the Commencement exercises.

As you are aware, our S. P. Mission has no pupils in the Arts Department. Indeed, but four of the nine or ten contributing missions have pupils there; whereas all have pupils in the Medical School. No less than three letters or telegrams were received by Dr. Shields, during those two days, begging for doctors, and there were none to send. One thing was established even though the Arts School should be refused registration, the Medical School will be registered. The attitude of the Government is most favorable toward this department. Dr. R. T. Shields, after a term of five years, was re-elected to the position of Dean of the Medical Department. This is an honor we should appreciate. The president, vice president, and chairman of the Board of Directors must be Chinese.

The Facts Commission, which recently visited this institution, as well as hordes of other investigators, expressed themselves as well pleased with this department, and are ready to push it forward. Eight were graduated, and of these six go into Mission work; one into Government work, and the other is not yet settled. One young man was given five calls to Government work, at a very high salary, and after long consideration, chose a mission hospital at a comparatively small salary.

Cheeloo needs our prayers. They have some hard problems to solve. Many things are far from being what we should like in a Christian institution, and give anxiety and responsibility. But, it has been wonderful how the faculty has brought back to order that great student body after the terrible troubles of the past two or three years. On the other hand, God's Spirit has been doing a splendid work among the students. Many have this year taken a definite stand for Christ, and are really working Christians.

NETTIE D. GRIER.

Report of Mission's Representative on the General Committee of the China Sunday School Union.

The year has been marked by (1) a reaffirmation of the policy upon which the China Sunday School Union has been conducted for many years; (2) a noticeable advance in the sales of its publications; (3) and a decided increase in the number and amount of the contributions made by missions and individuals to the subsidy needed to carry on its work.

The total budget of the Union is about Mex. $41,000. The big item of expense is the printing and mailing of publications which amounts to about Mex. $20,000. This is offset by receipts from sales to approximately the same amount. The remaining $21.000 must come from mission subsidies and gifts of individuals. Of the amount needed for the year 1931, on July 13 there still remained to be raised $5,900.

The prospects are bright, in spite of the troubled conditions of the country, for a decidedly forward movement in Christian Religious Education. While the government restrictions upon prescribed Bible teaching in registered schools are greatly hindering the religious work of such schools, the churches themselves and the evangelistic Christian leaders are feeling more strongly than ever the necessity for Sunday School work, not only for children from Christian homes, but for the opening of more "outside" Sunday Schools for the evangelization of children who are not receiving as before Christian instruction in the schools.

We hope the mission will see its way clear to continue its subsidy.

Respectfully submitted,

H. Maxcy Smith.

Report of the Prayer Committee.

Resolved.

1. That Saturday evening be set apart by our North Kiangsu Mission as a night of intercession.

II. That a member of the Prayer Committee be appointed to serve as a "Clearing House" for definite prayer requests and answers.

III. That we ask our Executive Committee of Foreign Missions to establish an "Intercessory Dept." in Nashville for our whole Southern Presbyterian Church at home and for all of our Mission fields, asking that they set apart Saturday night as Intercessory Night, and that definite prayer

requests and answers be sent through this Department to all fields and at home, for use at this time.

IV. That the Executive Committee request all in the home church who will to join us.

V. That we ask Mid China Mission to cooperate with us in the above.

J. D. HALL, *Chairman.*

Report of Reparations Committee.

The Reparations Committee recommends that the Mission urge the Executive Committee to make available immediately, for the use of the Mission, the reparations funds which are now in the hands of the Executive Committee which were given by the church for the purpose of rehabilitating the Mission property destroyed during the disturbances of 1927 and later. The Mission would point out that it has through its accredited committee and also by direct action repeatedly called on the Executive Committee for the release of these funds so that the much needed rehabilitation can be carried out. For some reason there has been one delay after another in this matter. This delay in sending out the reparation funds has seriously interferred with the work of the Mission and has in a number of cases been very costly. The Mission definitely urges the Executive Committee to accede to the request of the Joint Reparations Committee that the schedule of Mission losses which they have sent in to the Executive Committee be approved, and that the proposal with regard to exchange be granted, and that the reparations funds be placed at the disposal of the Joint Reparations Committee, allowing them some latitude due to the constantly changing conditions out here, with the understanding that each individual case of rehabilitation will be considered by the Mission and no actual work of rehabilitation will be done until the Mission has give its sanction, in the light of all the local and general conditions in the China field.

This request does not mean that all the reparations funds should be sent out at once, but only as called for, to carry on the actual work of rehabilitation, at the time the Mission decides to do each individual piece of this work.

Rsepectfully submitted,

W. C. McLauchlin, *Chairman.*

Report of the Committee on Bible Society.

The Committee on Bible Society reports that the societies have passed regulations which will probably correct the abuses which the Mission wished to call to their attention. This committee asks to be dismissed.

Report of the School Committee.

The school committee reports that on account of the cut and the consequent taking away of the senior middle school appropriation, for the present, the committee did not feel it worth while to propose plans for opening this senior middle school right now. The Committee feels that such a school should be opened just as soon as practicable. and a committee should be continued to be ready to propose concrete plans to the Mission when the opportunity offers for opening the school.

All the schools of the Mission above primary grade should be under the control of a Board, in order that they may be what the Mission intends, namely, Mission and not Station schools.

Respectfully submitted,

W. C. McLauchlin, *Chairman.*

Report of the Representative on the Board of the Chinese Christian Intelligencer.

The Chinese Christian Intelligencer has had a splendid year. The subscription list now amounts to 5,600. Editor Cheng continues his efficient work as editor.

The recent sale of the Presbyterian Mission Press raises problems with regard to the future of the paper which, however, it is confidently hoped may be met.

The Board is taking steps to meet the rising costs of publication. The quality of paper used in printing is shortly to be changed, and a considerable increase in the amount of advertising is planned.

Recommendations:

1. That the needs and the future of this paper be commended to the prayers of the members of the Mission.

2. That every effort be made to continue the present policy.

3. That the Mission appropriation be made $825.

Respectfully submitted.

Report of Committee on Exceptions to Mission Rules re Self-support.

This Committee recommends the following amendments to the Revised plan for self-support, as recorded in the Minutes of the 1930 meeting of the North Kiangsu Mission:

I. That following the paragraph on page 41, headed "Cultivation of Groups," the following paragraph be inserted:

"The Station, however, is allowed discretion in permitting certain groups to have more of the preacher's time than they pay for, if the missionary has done his best to bring them up to the standard, and if he is sure that the preacher's time will not be monopolized by such groups."

II. Again at the end of paragraph entitled "Grant mission can give," on page 41, we recommend that the following sentence be added:

"Latitude in the enforcement of this rule may be allowed when the number of members is ten or less."

III. In reply to the request of the Chinkiang Station that Mr. Ma be retained on a pension paid by the Mission, we recommend that the station be allowed to keep Mr. Ma on this basis for one year's time, during which time efforts shall be made to find a place somewhere within the bounds of the Mission where Mr. Ma's unusual talents and consecrated learning may be utilized.

IV. It is recommended that the Chinkiang station be allowed to continue to rent the Yao I Wan Chapel property.

V. In view of the fact that the Suchowfu Station now has three full time missionary evangelists, we recommend that the Station take steps to place evangelist Hu Fang Chioa somewhere as a pastor, serving the native church, and that if there is no opening for him in the Suchowfu field that the Mission be apprised of the fact that he is available for pastoral services.

We make the same recommendation regarding the two Yencheng evangelists who are in the employ of the Mission. The request from the two station concerned that these gentlemen be kept on as exceptions to the Mission rules, we recommend to be granted for the ensuing year.

We recommend that the request for extension regarding Evangelist An Tz Ming, also be granted for the coming year, but that since his salary apportionment from the native church is only $4.00 short of the Mission rule, that efforts be made to bring his case under the rule at least by next year.

VI. We recommend that when the funds are available from outside sources that the Suchowfu Station be granted permission to buy property in the large railroad town of Li Kwei I, and that the Sutsien Station be granted permission to do the same at Hsin An Chen, also a large town on the railroad.

VII. We recommend that Elder Ma. preacher in the Suchowfu field, be allowed as an exception under the salary rule. His congregation largely consists of elderly women who, though paying some, are unable to come up to the amount required by the Mission.

VIII. We recommend that the requests from Suchowfu and Yencheng for permission to run a primary girls' school in the country and a primary boys' school in the city, respectively, on 2/3 instead of 1/2 Mission funds be granted for the coming year, *for the last time.*

IX. We rceommend that in view of the wide spread floods which will certainly bring great distress and poverty, each station be permitted to use discretion in rigorous application of the rules of self support for this year.

X. Pastor Tai Ting Chi is allowed to carry on at the South Gate Church, in Suchowfu, on the self-support basis on which he was called. This exception is granted for the ensuing year.

628. In view of the fact that it was essential for the missionaries in **Hwaianfu** station to employ, without previous notice someone to fill part of the incomplete term of Miss Hallum. we urge the Executive Committee under the circumstances to waive the ordinary qualification requirements for **teachers of missionaries children** and authorize the payment of the usual teacher's stipend for Miss Doris Embery for this school year, it being understood that the only travel expense involved is that from Shanghai to Hwaianfu and return.

629. In reply to the letter of Dr. Egbert W. Smith of October 30, 1930, in regard to teachers of missionaries' children, the secretary is requested to reply to Dr. Smith that the Ad Interim Committee heartily approves of and commends the present policy; this committee has engaged in a lengthy conference with Mr. Grant on this subject supplying him as far as possible with all the information available.

631. On a number of occasions we have been approached by the Executive Committee with respect to certain candidates who might be sent to the field, it being requested that the judgment of the mission be given by letter or cable, e.g. Dr. Buckingham, Miss Elizabeth Hudson. Such communications have led the mission to hope that such workers were coming

to the field, but in many cases we have heard nothing further on the matter. We would respectfully ask the Executive Committee in the future after giving us such hope, to inform us definitely as to the disposition of each case.

632. In case there is a balance of unused appropriations in hand at the end of the year, the treasurer is authorized to pay the costs incurred by the various stations during the current fiscal year in the registration of deeds and consular fees thereon.

633. Voted to request the mission treasurer to pay Rev. J. R. Graham, Jr. the sum of Mex. $288 for inter-station itineration and for moving from Tsingkiangpu to Sutsien.

634. **Special gifts** were approved as follows:

Dr. Bell	G. $58.00	
Mrs. Currie	G. $50.00	
Mr. Taylor	G. $10.00	
Haichow hospital		Mex. $500.00

635. Voted to instruct the secretary in counting votes on circular letters to consider affirmative votes only these whose yes is unconditional and accompanied by no letter expressing uncertainty or doubt.

636. From recent letters of the Executive Committee it would seem that there still exists an apprehension as to the future status of our work and property in China. We appreciate this feeling as to the uncertainty of the future but feel that these uncertainties may continue for many years to come. We would therefore assure the Executive Committee that only after careful and thorough consideration of all factors involved will we recommend proceeding with building programmes. With this in mind we urge that actions Nos. 21, (page 61.) (87), (83), in North Kiangsu Mission Minutes. 1930, referred to in Mr. Willis' letter of October 1, 1930, items 1,2,4, be approved.

637. Resolved we record our gratitude, as well as our great pleasure, in having had Mr. and Mrs. Grant with us during the past six weeks, and that we express to the

Executive Committee our sincere appreciation for having made their visit possible.

Mr. Grant requested the Ad Interim Committee to express to the mission the great pleasure and profit that the sojourn in the North Kiangsu Mission has meant to him and to Mrs. Grant, and their sincere appreciation for the many courtesies extended.

All sessions of the committee were opened and closed with prayer.

After the reading and approval of the minutes, the committee adjourned with prayer by Mr. Grant.

Respectfully submitted,

L. N. BELL, *Chairman*.

H. KERR TAYLOR, *Secretary*.

ACTIONS AND CORRESPONDENCE OF THE EXECUTIVE COMMITTEE OF FOREIGN MISSIONS.

General.

October 2, 1930. "The North Kiangsu Mission proposes certain amendments to the **statistical blanks** used by the Executive Committee. We recommend that a committee composed of Secretaries Smith, Fulton and Grant study these report blanks and bring in recommendation at a later meeting.

"The North Kiangsu Mission requests of the Executive Committee that present **representation on the Joint Conference Committee** of the two China missions be changed to a station basis, and that the Mid-China Mission be asked to concur with the North Kiangsu Mission in this request to the Executive Committee. We recommend that action on this be deferred until the Mid-China Mission is heard from.

"We note as information that the North Kiangsu Mission strongly disapproves granting the request of the **Shanghai American School** for an increase in the endowment of this institution from our church."

December 10, 1930. "In view of the fact that the Nationalist Government of China has now given an unequivocal interpretation of the **educational policy** and has declared against all religious instructions in all schools of lower than junior college grade, the Executive Committee hereby instructs her two China missions to continue to operate without registration, all mission schools that come within the purview of the above ruling until the time when, in each case, the above regulations are actually put into force, at which time the missions are authorized to close the schools.

"The conducting of mission schools on the basis of the exclusion of all religious teaching and worship, involves a fundamental misplacement of emphasis which produces in effect a misrepresentation of the basic Christian purposes of our schools and compromises their testimony as institutions where Christ is recognized as the Fountain of all Truth, and the Fear of God the beginning of wisdom.

"This does not apply to those institutions that have already registered under the previous more favorable regulations."

February 11, 1931. "We report for information that **Miss Mary McCown**, one of our returned missionaries from China, who has been doing regular teaching work in Virginia for the past year and a half, but whose health Dr. Brush was not quite ready to O. K. for her return to missionary work, has been offered by a friend the payment of all her expenses to China, her support while there, and

the cost of her return to this country in case failure of health should make it necessary. The donor of the money suggests that Miss McCown return as 'a venture of faith.' Since this venture involves no expense whatever to our Committee, and since Miss McCown feared that delay would involve a withdrawal of this offer, and since her health has been steadily improving on the treatment given her by Dr. Brush, the Foreign Mission office made no objection to her proposed return to her old station, Tsingkiangpu, which has been asking for her. She plans to sail Febuary 28 for China. We recommend that she be given the status of an associate worker, though not subject to pension arrangements, during the period of this venture.

"The mission calls for **Mr. H. W. McCutchan** to return to Sutsien. Mr. McCutchan writes that domestic conditions are such that he cannot yet see the way open for his return."

April 10, 1931. "In answer to the request of the North Kiangsu Mission that a small **hospital** be established at, and a missionary doctor be sent to, **Hwaianfu** station, we recommend that the Committee express its deep regret that under the present circumstances it cannot see its way clear to grant this request. We urge that Tsingkiangpu hospital render such service as it can to the Hwaianfu field.

"We recommend that in re the **teacher of missionaries' children** asked for the Suchowfu station. we reply that, due to our present financial condition, we are unable to send out this teacher this year and pay half the salary as customary.

"The Committee agrees to pay the expense of travel only, if the station desires to employ such a teacher from America, or half the salary of one already on the field for a term of three years.

"The Committee notifies the missions that hereafter in all future cases of requests for teachers of missionary children, the mission state all the facts with reference to number of children, ages, etc., and any possible means of meeting the situation other than securing a teacher from America.

"With reference to the requests from our missions in Japan, Korea, and China for a **change in the terms of service**, shortening same, that would entail a considerable increase of expense to the Committee, we recommend that we express a sympathetic attitude towards the suggestions made, but are compelled by our financial inability to meet this additional expense this year, to decline for the present to make change requested.

"It was voted that hereafter the **support fund** of missionaries be fixed at $1,350 each and of married couples at $2,700; that new missionaries shall be informed, months in advance, of the fact and date of their sailing, which sailing shall not be contingent upon the raising of funds, although every effort shall be made by the Secretaries to secure in advance their support.

June 10, 1931. "The mission urges the Executive Committee to provide at the earliest possible moment one additional doctor for the mission. We recommend that appointee **Dr. Charles E. Cunningham** be shifted from the Korea mission to the North Kiangsu Mission to fill the need of this one additional doctor, this transfer not increasing the number of the 22 new missionaries already assigned for this year, since the Korea need is to be met not by a new doctor as originally planned but by a rearrangement of the medical missionaries already on the Korea field.

"The Medical Committee of the Committee of Reference and Counsel recommends to the various Mission Boards that they urge upon their **medical missionaries** the imperative necessity of effective furlough medical study, involving at least six months of serious full time study in a regular postgraduate school if possible for both the first and second furloughs.

"We recommend that the above recommendation be transmitted by the Executive Secretary to all our medical missionaries."

June 24, 1931. "Since the **report of Commission 2** covers the field work and the policies of all our nine missions and makes numerous recommendations, we recommend that several copies of the textbook be sent to each mission secretary with the request that each mission study the report of Commission 2 and, if it deems it necessary, report, officially and as a mission, possibly through its Ad-Interim Committee, as promptly as possible to the Executive Committee."

July 29, 1931. "Permit me to say, what I have written to several members of the North Kiangsu Mission, that the action of our Committee on December 9 **regarding schools** from which *all* religious instruction and worship is positively excluded, was not intended to prohibit the running of schools in which attendance on Bible instruction and chapel exercises is not required but voluntary. The language of our action taken at that December meeting seems perfectly clear. I do not know why it should have been misunderstood. If the North Kiangsu Mission, in the exercise of their best judgment, should desire to run our Suchowfu schools, or even to register them, with the understanding that chapel attendance and attendance on Bible class instruction would not be compulsory but would be left voluntary with the students, then such an action on the part of our North Kiangsu Mission would not be in violation of any action or restriction of the Executive Committee. The Executive Committee already has approved certain schools in the Mid-China Mission where attendance on Bible class instruction and chapel exercise is voluntary, and that remains the attitude of the Executive Committee. At the same time the Executive Committee leaves the settlement of this question in the hands of the North Kiangsu Mission and would not dream of overturning or annuling any action of that mission regarding these

controverted matters where there was anything like a substantial majority of the mission behind the action it would take.

"I may add that regarding the interpretation of the action taken by our Committee in December, I have consulted the brother who wrote and phrased that action, and I have also consulted the Sub-committee on Fields. Both say that there is absolutely nothing in that action that was intended to prohibit the running of schools in which attendance on Bible class and chapel exercises is voluntary.

"So please let the North Kiangsu Mission know that the above interpretation of the Committee's action is authorative." E. W. S.

July 29, 1931. "Several letters have been received from members of the North Kiangsu Mission regarding what action shall be taken in respect to our two schools at Suchowfu. Rev. O. V. Armstrong under date of May 21 writes that a Chinese letter has been written to the Executive Secretary by the Clerk and Moderator of the Presbytery at the request of the Presbytery. Neither this letter nor its translation has come into our hands. (Afterwards received. Sect.) At the request of the Presbytery Mr. Armstrong has written us conveying what we understand to be what the Chinese letter contained. We recommend that the following letter be sent to Pastor Wang Heng Hsin, pastor at Suchowfu and Clerk of the Kiang Pei **Presbytery** and that a copy of this letter be sent also to the Secretary of the North Kiangsu Mission.

"DEAR BROTHER:—Accept our Christian greetings and the assurance of our love for you and the other members of the Presbytery. It is a joy to us to be your fellow servants and co-workers in the promotion of the Kingdom of our Lord and Saviour Jesus Christ. We thank God upon every remembrance of you.

We desire to express to you and the other beloved brethren of the Presbytery our sympathy with you in the anxiety you so naturally feel regarding the continuance of the two schools at Suchowfu. Long experience, however, has taught us that our beloved missionaries who are on the ground and have first-hand kuowledge of local situations are in a better position to reach right conclusions in respect thereto than we can be at this distance. Prompted by our sympathy with you we are writing them to confer with you and to give serious and prayerful consideration to your desires and plans. But the final decision we think it wisest to leave, in accordance with our uniform policy, in the hands of the mission.

We are praying that both Presbytery and Mission may be divinely guided to take such measures as will confirm your mutual love and best promote that Kingdom whose advancement is the supreme aim and prayer of us all.

With sincere affection and with the prayer that the God of hope will fill you with all joy and peace in believing that you may abound in hope by the power of the Holy Ghost, I am,

Your Brother in Christ,

EGBERT W. SMITH.

(Adopted by the Executive Committee at its meeting July 28, 1931.)"

Financial.

December 10, 1930. "At the April meeting 1930 the request of this mission that the $450 Mexican each should be allowed for children attending schools other than Shanghai American School was allowed for the year 1930-31. The request is now made that this allowance be made a regular rule instead of requiring an annual application. We recommend that the same rule apply to children in both missions regardless of the school attended."

April 10, 1931. (Cable) "Work appropriations for the Mid-China Mission G. $19695; for the North Kiangsu Mission G. $28948. Exchange guarantee three to one. Letter with full information follows."

April 23, 1931. "In my letter of the 17th as to the reduction of Class IV to XIV it may not be clear. The initial appropriation 1930-31 was $130.266.86 Mexican at $2.00 to $1.00. The rate was changed to $3.00 to $1.00, making the gold amount $43,422.28 and this was reduced 33 1/3 per cent, leaving $28.948.19 gold."

June 10, 1931. Re N. K. actions. "That it be allowed the profit on exchange on the working appropriations up to total Mexican $136,901. This year was calculated on the initial appropriation 1930-31 at 2 Mexican which was $130.266.86 and if this request is granted there will be no reduction at all on the amount of Mexican allowed if the appropriation at the rate of 3 for 1 this year should produce the amount they ask for. At the call meeting April 29th in reply to cablegram about this request, the Committee replied that the mission must account for all receipts above 3 for 1. We recommend that the action taken at the call meeting of the Committee April 29th be maintained and the mission account for all Mexican above three for one dollar."

June 11, 1931. "We recommend that we say to the missions that we regard the residences as the most pressing items in the list submitted for reparation and request the mission to consider each item of residence and report to us their recommendations.

"In regard to the other items we request that the missions make full investigation as to the advisability of rebuilding at this time and as to the particular items that should be considered for rebuilding."

Report of Rules and By-Laws Committee

This committee would call to the attention of the Nominating Committee one or two minor matters, in which it did not comply with the Manual requirements in making their nominations last year, namely: The Evangelistic

Report of the Chinkiang Agency

This committee reports that the contract with Foo Chang & Co. has been continued as usual at $300.00 per year. This amount was paid this past year, and the amounts audited by Chinkiang Station.

The friends at the C.I.M., when possible, will be glad to accommodate members of our mission at the rate of $3.00 a day.

The committee recommends that the contract with Foo Chang & Co. be renewed, but at a lower rate, if possible.

We request a change in the wording of the Manual, page 4, paragraph 3: present reading, "Medical Committee," changed to, "Medical Work Committee," and thus; Present reading, "A Committee of three physicians, which shall act on such questions as emergency furlough," etc. Changed to, "A Medical Committee of three physicians which shall be called the Medical Committee, which shall act on such questions as emergency furlough," etc.

A. A. McFAYDEN, *for the Committee.*

Report of History Committee

The names and dates of those arriving on the field before 1926 are included in Dr. Price's "Our Investment." Your committee has secured the names of all missionaries arriving on the field since 1926, and the names and dates of birth of all the children born since that date. Your committee does not understand that it is to get the names of all the children of the mission who are at home and record them with their addresses.

The Committee wishes to thank all those who have so kindly taken time to hunt up this data.

Please instruct your Committee as to how this matter is to be kept on file, copied into a loose-leaf book, or more copies than one made.

We regret that more of this committee cannot be at mission meeting to help with the Annual Report. We suggest that Miss Josie Woods be requested to gather the material for the annual report, and write it, and that she get what help she needs or the mission requires from the other members of the History Committee.

Report of the Representative of the A.M.T. Advisory Committee

Your representative attended the Annual meeting of the Associated Mission Treasurers on April 15th of this year. A statement of receipts and expenditures of the past year together with the balance sheet at the end of the fiscal year was presented.

A motion was passed to inaugurate a departmentalization of the work of the Associated Mission Treasurers for a period of six months, beginning May 1st of the current year. This is to be tried for six months as an experiment after which time the matter will come up again for decision as to whether this plan shall be made permament or be discontinued.

This change of plan will affect most the department of Accounts, as the accounts of all the associated missions will be kept by certain treasurers, while the others will be assigned entirely to other departments. The chief advantage of this will be the fact that the Treasurers will be able to take care of all the work during the furlough of any one of their number, thus obviating the necessity of each associated mission supplying a man during the furlough of its representative in the Associated Mission Treasurers. There will also be other advantages.

Respectfully submitted,

S. C. FARRIOR, *Representative.*

In view of the fact that Mr. and Mrs. Farrior will have completed full seven years of service on January 3, 1933, the Mission authorizes Mr. and Mrs. Farrior to go on furlough in March 1933, subject to the approval of the Executive Committee.

Report of Reparations Committee

The Committee has, during the year, approved of some claims for personal losses. These have been paid. There remain only a few odds and ends of personal losses yet to be settled.

The Executive Committee has decided that missionary residences shall take precedence over all other mission property. In the matter of appropriations from the China Emergency Fund for Reparation. Practically all residence claims have been paid, except for one residence at Yencheng, one at Sutsien, and all except one at Haichow. It is the purpose of the Reparations Committee to set aside funds sufficient to cover all these residence reparations before allocating any funds for the reparation of other mission property. The claims from the various stations for funds for restoration of mission property other than residences will be considered by the Committee on their merits.

The Executive Committee, by approving of paying claims at the current rate of exchange and by approving of a somewhat wider liberty in the use of the China Emergency Fund, has made it possible to handle the question of reparations more easily. However, it should not be considered that this wider liberty in the use of these funds constitutes any authority for indiscriminate appropriation of these funds for work throughout the mission. All claims will have to be passed upon by the Reparations Committee and the proposed use of the funds will, of course, have to

conform to the rules of the mission and of the Executive Committee. The Reparations Committee will, in each case, have due regard to the work carried on previous to evacuation in 1927.

1. Voted, in order to replace his loss of two motorcycles in 1927, to approve of allowing *Mr. Talbot* a sum equivalent to the purchase price at current rate in Mex. of a *Harley Davidson two-cylinder motorcycle* with side-car, it being left to his discretion whether to purchase a motorcycle or a car with this sum.

2. Voted to approve of repairing the *McCutchan residence* at a cost of $2,525.00 Mex.

3. Voted to approve of using $900.00 to repair the Boy's School Building at Sutsien.

4. Voted that the Reparations Committee recommend that $25,000 Mex. be allocated to *Haichow station* for the erection of *two new residences*, (preferably inside the city), the purchase of land for the same, the erection of walls and outhouses. At the time the construction is to be done, if this amount is insufficient, an additional sum not to exceed $3,000.00 be allowed the station. The building material of the former Morgan, Rice and Vinson residences and the wall around the Grafton place is to be used in this construction.

5. Voted to approve of the use of $6,000.00 Mex. to replace the electric light plant at the *Haichow Hospital.*

6. Voted to approve of $500.00 to be used to replace the safe at Haichow.

Respectfully submitted,

S. C. FARRIOR, *for the Committee.*

Report of the Emergency Evangelistic Committee

We recommend that the following requests for exceptions to Mission Rules regarding self-support be granted:

1. From Hsuchowfu Station, in reference to Elder Ma, preacher, Art. VII of 1931 Minutes, be allowed again for the ensuing year.

2. From Hsuchowfu Station, for permission to use as much as $250.00 Mex. of a special fund for purchase of church property at He-dzai. We recommend that this be granted on condition that the evangelist in charge does his utmost to raise at least one-half this amount from the Chinese.

3. From Hsuchowfu Station, that the exception in reference to Pastor Tai Ting Chi, as on p. 29, Art. X of 1931 Minutes, to extended again for the ensuing year, on condition that the station make every effort to have the South Gate Church come up to the Mission Rules within the year.

4. From Chinkiang Station, that the exception in reference to Pastor Ma as on p. 28, Art. III, 1931 Minutes, be made again this ensuing year, on the understanding that the station make every effort to find such work for Pastor Ma as will pay for his time.

5. From Chinkiang Station, that the exception as of p. 28, Art. IV, 1931 Minutes, be continued for the ensuing year.

6. From Sutsien in reference to Pastor Wang Hsin Lin, now Pastor at Pu Tan, that in view of the fact that he was called before these rules were made, on a half and half basis, that this be allowed for the ensuing year on the understanding that the Chinese Church come up to their proportion within the year.

7. The Yencheng Station requests that an exception to the rules of self-support be made in the case of the two ordained evangelists, Lui Kwei Rung and Li Gi Tseng for the year 1932-3, viz., that the Mission be allowed to pay a maximum of three-fifths of their support from September 1, 1932 until September 1, 1933. See Minutes 1931, p. 28, Art. V, Par. 2.

8. From Hsuchowful Station, that the exception in reference to Mr. Hu Fang Chiao, as of p. 28, Art. V, 1931 Minutes be continued, giving him the power of evangelist for one more year without the required support of three-fifths by the Chinese.

In answer to the report of the representative on the Chinese Christian Intelligencer, we recommend: That the North Kiangsu Mission invite the Board of the Chinese Christian Intelligencer to remove their staff to Chinkiang, and offer them the free use of some of the rooms of the Jenchow School.

In response to the report of Dr. H. Maxcy Smith, representative on the Committee of the China Sunday School Union, we recommend:

I. That this Mission draw the attention of the Executive Committee to the fact that Mr. Grant has, in the

report to the Executive Committee, Sect. 5, of course inadvertently and unconsciously, made some incorrect criticisms of the China Sunday School Union.

1. Although the C. S. S. U. has been keenly concerned about the soundness of its literature, it has not neglected the pedagogical side.

2. Our Missions in China have for many years used its publications in large quantities and are still using them. They are used in the fields of every one of our North Kiangsu Mission stations.

3. The C. S. S. U. has always been ready to consider the publication of any material offered along its lines. It has published for the work in our own fields three different kinds of lessons, and in doing so made them available to the whole church. The sales of the C. S. S. U. publications—sixteen kinds—increased about thirty percent during 1931. This is evidence of growing acceptability. This is the more remarkable in view of the flood and wars of 1931.

4. The General Secretary of the C. S. S. U., Rev. E. G. Tewksbury, is second to no man in China in his knowledge of Sunday School work, pedagogical methods, and teacher training, and the literature dealing with these subjects.

5. Since the World's Sunday School Association has cut off the C. S. S. U. from financial support, the C. S. S. U. has received the endorsement of a number of the most conservative Missions in China, including both of our Southern Presbyterian Missions. Sixteen different church and mission organizations in China and many individual missionaries have been contributing to its financial support.

II. That we are obliged to differ from Mr. Grant in his judgment that the anxiety on the part of the W. S. S. A. to remedy pedagogical defects, and not objection to the theological policy of the C. S. S. U. was the cause of the division between the two. We regret that he has received a wrong impression. Perhaps one reason for this impression is the fact that our Presbyteries have gotten out some lesson helps of their own. This is by no means because of any dissatisfaction with the publications of the C. S. S. U., but to meet a special need in our own field. These helps have now been taken over by the C. S. S. U. as their own publications.

III. That we respectfully request the Executive Committee of Foreign Missions to bring to the attention of the World's Sunday School Association in some forceful way the fact that our people at home are supporting it and yet they are not helping to meet our needs in China while they have withdrawn support from the only organization to which we can look, for satisfactory help in our Sunday School work, and if this situation is not remedied our constituency should be advised to send their contributions for Sunday School work in China direct to the C. S. S. U., 5 Quinsan Gardens, Shanghai.

Respectfully submitted,

W. F. JUNKIN, *for the Committee.*

Report of Estimates Committee

a. The funds should not be given to the institution unless the Northern Presbyterian Mission agrees to send only men to the school as directors who will sign the present credal basis of union.

b. With the last mentioned point granted, the Mission should approve of putting the above-mentioned funds in a building, using materials and land now owned by the Northern Presbyterian Mission, with the understanding that the Northern Presbyterian Mission gives to the Southern Presbyterian Mission an equity in the property equal to the percent put into it by the Southern Presbyterian Mission.

c. It is understood that the Mission in thus helping to build up the M. M. I is giving aid to the Seminary in an associated school.

5. That Mr. McLauchlin be instructed to secure the approval of the Executive Committee and donors for the use of these funds.

6. That Hwaian Station be authorized, subject to the approval of the Executive Committee, to use funds already available, not to exceed $2,000.00 Mex. for the purchase of an additional piece of ground, stamping of deed, and erection of necessary walls for the Martha D. Riddle Girls' School.

9. That we request the Executive Committee to authorize, out of a balance of $2,076.75 Mex. in hand from rent and sales at the Chinkiang Boys' School, the following expenditures:

Report of Representative on the Committee of the China Sunday School Union.

Since the last meeting of the Mission two semi-annual meetings of the Committee have been held at which the General Secretary made interesting and full reports of the work, and plans for the future were discussed.

There was an increase of about 30% in the sales of lesson helps, pictures, etc. in 1931. This would seem to indicate the growing acceptability of these publications and is the more remarkable in view of the floods and wars of last year.

The subsidy of the Worlds Sunday School Association entirely ceased in September. Contributions have been received from sixteen Church and Mission organizations in China amounting to M.$5,535.21 and from missionaries in China amounting to M$1,973.80 and from friends abroad totaling M.$7,477.55.

The acknowledgements of these gifts and the presentation of the needs of the work has taken a large portion of the time of the General Secretary and the Union greatly needs the assistance of its friends in presenting the needs to contributors.

During the year two new publications have been issued to meet special needs in our own Mission. A series of most attractive pictures is now in preparation to illustrate

Pilgrim's Progress. A large demand for these is anticipated.

Respectfully submitted,

H. MAXCY SMITH.

ACTIONS AND CORRESPONDENCE OF THE EXECUTIVE COMMITTEE OF FOREIGN MISSIONS

General

September 25, 1931. "In regard to Section 3, we recommend that we suggest to the Treasurer of the two China Missions that he seek advice from both Missions regarding the advisability, in view of the varying interests involved, or of his being a member of both Missions with equal access to and privileges within both, or of withdrawing from the Mid-China Mission and serving as the Executive Committee's representative in Shanghai with equal access to, and in equally close touch officially with, both Missions. The latter method seems to this Committee to be the better plan.

"In regard to Section 4, we recommend that owing to the extreme difficulty and changefulness of the present educational conditions in China we follow our usual custom of allowing each Mission to handle its own local problems according to its own best judgement. However the Committee expresses the hope that the N. K. Mission will not need to increase the number of schools that are open.

"Regarding Section 5, we recommend that copies of this section be transmitted to our two China Mission with the request that they will carefully consider this matter and take such action as will remedy the present unsatisfactory situation.

"In regard to Section 10, we recommend that the Executive Committee express its fixed conviction that it is rarely if ever advisable for a missionary to become pastor of a local native church or group of churches, but that under all circumstances and irrespective of national church organizations he should serve as evangelist and pastor at large and not as a local pastor.

"In regard to Section 15, we would call to the attention of the Executive Committee Mr. Grant's conviction, after very careful study and observation, that the teachers of missionary children are a good investment and a most valuable adjunct to the work of any mission station. We recommend that our Executive Committee insist that where teachers of missionary children are sent, we expect mothers thus relieved from the children to take an active part in local evangelistic work unless care of smaller children makes this impossible, and that teachers of missionary children be encouraged to learn the language in order that they may take part, at least in a limited way, in the local mission work."

September 28, 1931. "In order to set before you as clearly as possible the situation with which the Committee was confronted, I am quoting herewith three paragraphs from the report of the Standing Committee on the Assembly's Work to the General Assembly of 1931 which met in Montreat, North Carolina, in May:

That the Executive Committee be enjoined:

(1) 'To limit their annual spending budget to an amount in no case to exceed the average receipts of the Committee for the two preceding years.

(2) 'To place in the spending budget for the ensuing fiscal year any deficits incurred during the preceding year.

(3) 'To provide for the retirement of all existing debts by paying from their receipts annually beginning with the fiscal year 1932-33 until the whole debt has been discharged, an amount equal to at least one fifth of the debt as per this date.'

"Paragraph (1) has been in force for several years, but was reiterated this year as a part of the General Assembly's general financial policy. It means that the appropriations to the Missions during the fiscal year of 1932-33 must not exceed the average receipts of the Committee for the two preceding calendar years of 1930 and 1931. The receipts for the calendar year 1930 were $1,043,352.65. The receipts for the first eight months of the calendar year 1931 plus an estimate for the remaining four months are $1,009,058.53. The estimated average for the two calendar years, 1930 and 1931, is therefore $1,026,205.59. According to the rule of the General Assembly, this latter figure automatically becomes the maximum limit of our budget for the fiscal year 1932-33, a decrease of $3,629.58 as compared with the budget of the current fiscal year which is $1,029,835.17. This would not constitute so serious a problem but for the fact that the budget for the current year is already the lowest in twelve, being $150,000.00 less than the actual expenditures of the previous fiscal year.

"Let me refer now to paragraph (3) after which I shall come back to paragraph (2) as the latter is the particular point covered by the report of the special Committee. Paragraph (3) provides that during the fiscal year of 1932-33 the Executive Committee will be required to pay an amount equal to at least one fifth of the accumulated indebtedness reported to the General Assembly in May 1931. The total debt at that time was $359,277.29, of which one fifth would be $71,855.46. This sum constitutes a first charge against the

receipts of the year 1932-33 and will have to be paid before the balance of the receipts can be applied to the regular maintenance expense.

"Paragraph (2) describes still another first charge against the budget for 1932-33. It stipulates that any deficit we might incur during the present fiscal year must be carried over and placed in our 1932-33 budget, to be subtracted from the figure of $1,026,205.59, estimated as the maximum budget allowable for that year, before the remainder can be applied to the regular current expenses of our Foreign Mission work. While the office intends to bend every effort toward the securing of the largest possible amount of contributions during the remaining months, every present indication points to the fact that on March 31st, 1932, we shall be facing a deficit of possibly $93,000 for the present fiscal year which is now just half gone. This estimate is based upon the rather constant ratio that the receipts of the first five months of the fiscal year have borne to the year's total over a period of eight years.

"The payment of two such large special items out of the small budget indicated for 1932-33 would reduce so drastically the remainder available for the expenses of our regular work as to constitute a real calamity. There is no possible way by which we can escape the payment of $71,855.46 of the debt during the next fiscal year. This is the command of the General Assembly. And there is only one way by which we can escape the placing of a deficit as a first charge against our budget for the year 1932-33, that is by avoiding the making of a deficit."

Cablegram received February 12th, 1932. "Committee disapproves any arrangement concerning schools that has not approval of Mission and Executive Committee."

April 8, 1932. "The receipts for the fiscal year that has just closed were $839,807.14. This figure was not sufficient to pay for the cost of the year's work which was $918,448.77. Obviously there would have been a deficit of $78,641.63 but for the fact that there was a gain on account of exchange and other adjustments of $86,015.82 which was sufficient not only to wipe out the deficit on the year, but to enable us to reduce the total Foreign Mission debt by $7,374.19. I have rehearsed this because I want you to rejoice with us that despite the unprecedently low amount of our receipts for the year we were able to come to the year's close without having added further deficit.

When the committee met yesterday to project the work for the year upon which we are entering, one of the first questions that came up was the budget for 1932-33. It was the feeling of the Committee that while we hoped for some improvement in the financial situation during the coming year, we could not reasonably expect such improvement and that it would be folly to proceed on the assumption that things were going to get better. In fact the receipts for the three months that have just passed seemed to indicate that the depression is still on the downward trend and that there is every prospect for an even further decline in receipts during the year we now enter. Men of long experience and of sound judgment are telling us that this year gives every evidence of being the most difficult year we have yet faced.

In the light of the foregoing considerations the Committee did not feel that it could justify a budget for this year that would be as large as the receipts of the year that has just closed, which were $839,807.14 as stated above. After much thought and prayer and hours of serious consideration, it was finally voted to make an appropriation of $784,000 for the year 1932-33. This sum is approximately 10% less than the total amount that would be required if we continued to operate on the basis of the past six months October 1, 1931—March 31, 1932. The adjustment of this budget on the various departments and classes of work has not yet been worked out by the Sub-Committee on Business and Finance but Mr. Willis will communicate with your Treasurer in detail as soon as the figures are ready."

April 8th, 1932. "With reference to replacements and requests for new missionaries your Committee on Fields recommends the following policy: In view of the necessity for rigid economy and the drastic cut in our appropriations, the Executive Committee is unable to send out any new missionaries or replacements that can be avoided during this year, April 1932 to March 1933. (This is being sent to all Missions.)

Register of Missionaries

REPORT OF THE HISTORICAL COMMITTEE, 1933.

Your Committee has made a collection of historical data for 1931-1932 as directed by the Mission in 1931. Two copies have been made and the same filed in loose-leaf binders. One copy is herewith presented to the Mission. It is proposed that it be deposited with the Secretary for ready reference. One copy is in the hands of the Chairman of the Committee.

The Committee has failed to make a register of the addresses of the children of the Mission that are over sixteen years of age. Any such a list would be obsolete before the end of the year.

We wish to thank the correspondents from each station for furnishing the data recorded. Each station has responded except Chinkiang in 1933. So Chinkiang which we think is the parent of this Committee will have to be content with the partial report that we could find out indirectly, and make atonement next year.

The members of the Committee, Mrs. Woods, Mrs. Bradley, and Mrs. Lancaster, have written portions of the report. Mrs. Patterson has done all the copying.

It is recommended that at the first meeting of the Mission the members of the Committee present at Mission Meeting appoint a member to write the Annual Report. If there is none of the Committee present we suggest that the Chairman appoint some one to take notes and perform this duty.

Your Committee requests the Mission to note what has been done and make suggestions for its improvement, or even for its discontinuation.

Respectfully submitted,

B. C. PATTERSON,

In behalf of the Committee.

REPORT OF COMMITTEE ON PROGRAM OF INTERCESSION, 1933

Your Committee has suggested the order of the day re devotionals and so forth for this meeting. We also want to submit for your consideration some changes in the Prayer Book.

On Kuling last summer our Chairman called a meeting with one or more representatives from each North Kiangsu station, and also one or more each from Hangchow, Kiangyin, and Kashing, to consider with us the compiling of a Prayer Book.

After prayer we elected Mr. Allison and Mr. Womeldorf a Committee to have charge of the printing of the book. After earnest prayer for guidance and much discussion we agreed on the form which in due time you received.

After having used this book this winter we feel several changes would make it more helpful:

1. That instead of special requests for prayer being sent to the Prayer Committee three times each year, we suggest that these be sent only once (by October 1). If during the year any station feels they want the Mission to unite with them in prayer for some special thing they may request the station member who has charge of this work to send a copy of such request immediately to each station.

2. We suggest that blank pages be left in the books for local items and special requests.

3. We suggest that information re each station (see sample) be included in the book.

4. We suggest that if any one has any suggestions of any kind that will add to the usefulness of the book, he be requested to send same to your Committee., sometime before August 1.

Respectfully submitted,

K. B. TALBOT,

For the Committee.

REPORT OF REPARATIONS COMMITTEE

1. Voted to approve the Sutsien station's request to appropriate $5,000.00 Mex. for the complete rehabilitation of the Sutsien Boys' School. The Committee recommends that only $1,000.00 Mex. of this amount be granted for the present, keeping the remainder of this fund until needed.

2. The Sutsien station asks for Hospital Reparations to the amount of $540.00 Mex. to cover the purchase of a new water pump and engine. The Committee recommends that only $300.00 Mex. be granted, as this completes the original Hospital Reparations as requested by the Sutsien station in 1930.

Respectfully submitted,

R. P. RICHARDSON, *Chairman,*
For the Committee.

Respectfully submitted,

M. A. HOPKINS, *Chairman,*

For the Committee.

REPORT OF THE EDUCATIONAL COMMITTEE

We feel that this is not the time for the Mission to declare itself definitely regarding a permanent school policy, but due to the encouraging reports from our whole field, and the increasing demand on the part of Christians for schools for their children, we suggest as a temporary school policy that we open primary schools where there are good reasons for doing so, provided we have the money to operate them; that we support the schools now in operation, and strengthen them as far as we are able to do so.

On the basis of the above we make the following recommendations:

1. (a) That the Hwaianfu Girls' School add the first year of Junior Middle School, and the matter of appropriations be referred to the Estimates Committee.

(b) That if funds are available the second and third years be added in 1934 and 1935.

2. That Taichow begin a primary school under the Mission rules, and the matter of appropriations be referred to the Estimates Committee.

3. That no plans be made for opening a Senior Middle School in the Mission in the fall of 1933 or spring of 1934; but that the matter be taken up on its merits at the next annual meeting of the Mission.

4. (a) That Miss Young be allowed to conduct for one year a hostel in the buildings of the Girls' Primary School for the benefit of girls not attending the Mission School.

(b) That the station through its missionary representatives be solely responsible for the conduct and teaching of the girls in the hostel.

(c) That in case girls from the Presbyterial School are received into the hostel, it be understood in advance by all parties that this arrangement is to terminate automatically should freedom of worship and Bible study as now enjoyed on the premises of the Presbyterial School be restricted by governmental agencies.

(d) That this plan shall not be put into operation by the Suchowfu station until the Presbyterial representatives on the School Board give a written statement that the Mission property shall not be included in any representations or applications for registration of their school.

Respectfully submitted,

M. A. HOPKINS,

For the Committee

REPORT OF THE PERSONNEL COMMITTEE

We recommend:

1. (a) That the Mission extend to Dr. A. C. Hutcheson a hearty invitation to become a member of this Mission, and that he be located at Chinkiang in association with Dr. Jas. B. Woods, Jr. From a letter from Dr. Hutcheson, it is understood that this will entail no financial responsibility on the part of the Executive Committee.

(b) That this invitation be cabled to Dr. Hutcheson through the Executive Committee.

2. That the Mission advise Miss Helen Bailey to transfer to Chinkiang.

3. That in case the Executive Committee appoints Miss Lucy Fletcher as a regular missionary, she be advised to locate at Yencheng.

4. That at the request of their respective stations, the following be invited to return after furlough:

Mr. and Mrs. S. C. Farrior to Chingkiang
Miss Elinor Myers to Tsingkiangpu
Rev. and Mrs. O. F. Yates to Hwaian.

5. We would report that Dr. L. S. Morgan has resigned from the Haichow station and the station has accepted his resignation.

After many days, during which much time and prayer has been given to the consideration, of all the elements involved, and with the desire to know and do God's Will, and not do injustice to any concerned, we recommend that this action of the station be approved, and request that we be given Ad Interim authority to complete investigations necessary and reach a decision in the case, said decision to be transmitted to the Mission through the A. I. C.

6. The Personnel Committee has received the resignation of Miss Ruth Bracken.

In view of the fact that this resignation has been accepted by the Haichow station, we request that we be given Ad Interim authority to consult the other stations of the Mission regarding a call for Miss Bracken's services if advisable. Should no call be received, we recommend that we be authorized to report directly to Miss Bracken and the Executive Committee.

7. In the event that Dr. Reed feels the desire for help or advice, we recommend that Dr. Bell be advised to go to Haichow for some days at a time and render all assistance possible

Respectfully submitted,

W. F. JUNKIN,
L. N. BELL,
L. H. LANCASTER.

For the Committee

REPORT OF THE EVANGELISTIC COMMITTEE

We recommend that the following requests be granted:

1. From Suchowfu Station: that information be given in regard to the advance the Grier Memorial Church had made in giving, in spite of their loss of valuable members this year; and that we request the Mission, that in view of this fact, and in view of the fact that the South Gate Church has come up to its quota, we be allowed to pay $15.00 per month on Pastor An's salary, while the Church pays $18.00.

2. From Chinkiang: (a) That the superintendence of the work of Rev. J. R. Graham, Jr., be placed under the Chinkiang Station, it being definitely understood that he will be allowed the full four months for general evangelistic work, as stipulated by the Mission (1931 Minutes, page 47). (b) That Mr. Graham be permitted to accept invitations to hold meetings outside the bounds of the Mission, provided such calls do not conflict with calls for his services within the Mission, and provided his acceptance of such calls is approved by the station.

3. From Suchowfu Station: That we be permitted to continue to use Pastor Hu as an evangelist, if after Mr. Brown's return it is thought necessary to the best interests of the work.

4. From Hwaian Station: That we be allowed to add to the property in the city of Paoyin, and purchase a place in Ts'a Ho for a chapel from the Hwaian Equipment Funds already designated for this purpose, the extra amount to be submitted to the A. I. C. for approval.

With reference to Tenghsien's request for the transfer of Miss Sophie Graham for school work there, we recommend a reply that we do not see our way clear to grant this request. We would suggest that efforts be made to secure a suitable Chinese woman for this work.

We recommend that the question of women speaking before mixed audiences be referred to the new Evangelistic Committee, with a view to bringing in recommendations at the meeting of the Mission next year. During the year we call on the entire Mission to study this question prayerfully, and to render every assistance possible looking toward a solution.

For the current year, we propose the following recommendations:

1. That the North Kiangsu Mission go on record as disapproving of placing women in positions of authority in the Church, such as acting as Pastor or Stated Supply; and that our missionaries and Chinese co-workers heartily discourage anything and everything that tends in this direction.

2. To this end that we discourage women from leading the regular stated Sunday preaching services for men and women.

3. And that we discourage women from leading evangelistic services to which men have been invited.

REPORT OF ESTIMATES COMMITTEE

We recommend:

1. Any adjustment between classes be permitted within the stations.

2. That the report of the Finance Committee to the effect that the audit of the Associated Mission Treasurers' books by the paid accountant be accepted.

3. That in view of the fact that the Haichow station has the Luckett Memorial Fund, which can be used to help out in the women's evangelistic work, of the station, the evangelistic appropriation be reduced by 18% which is the

average spent by the stations out of their evangelistic appropriations for women's work. The Gold $175.00 thus deducted is to be divided as follows: Tenghsien, $75.00; Tsingkiangpu Woman's Bible School, $50.00; Chinkiang Woman's Work, $50.00.

4. That inasmuch as the "China Fundamentalist" is not a Mission enterprise the Mission do not accede to the request of Dr. H. W. White to appropriate funds for that paper.

5. In reply to the request of Dr. H. M. Smith, representing the Associated Mission Treasurers, in regard to payments made to children attending school in Korea, the Associated Mission Treasurers is authorized to pay for each child the sum of Mex. $450.00. This is our interpretation of Executive Committee action quoted on page 57 of the 1931 minutes of Mission Meeting.

6. We request the Executive Committee to approve the Chinkiang station's paying out of rent received from the Boys' School buildings a sum of $8.00 per month for caretaker at the home of Mr. Farrior during his absence on furlough.

7. We call attention to rubric II (Select Committees) of the Mission Manual, which states that in all cases of repairs and reparations in excess of $500.00 a Building Committee shall be required. This provision has in several instances been ignored.

8. That permission be given for the use of a maximum of Mex. $360.00 for repairs and alterations on the Montgomery residence, this sum to be taken from funds now in the hands of Mr. Willis and designated for this residence.

9. We express our appreciation to the Associated Mission Treasurers, and especially to Mr. C. M. Myers, for taking care of our work during the absence of Mr. H. Maxcy Smith.

10. Permission be given for the use of the following special funds:

Dr. L. N. Bell	Gold	$2,575.00

For the Committee.

ACTIONS AND CORRESPONDENCE OF THE EXECUTIVE COMMITTEE OF FOREIGN MISSIONS

"Replies have come from both of our China Missions to the suggestion of the Executive Committee which was transmitted to our China Missions in September, 1931, touching the relationship of the Treasurer in Shanghai to the two Missions respectively.

"In view of the fact that these answers differ and that the Mid-China Mission has requested that no action be taken until the matter could first be submitted to the conference committee of the two Missions, we recommend that final action be deferred until we have had some further word from China."

"The North Kiangsu Mission writes to the Executive Committee requesting the return to China of all North Kiangsu missionaries when their furloughs expire. The Mission expresses the judgment that the present conditions in China warrant their return.

"We recommend that the Executive Committee assure the North Kiangsu Mission that it is the present policy of the Committee to return to China upon the expiration of their furloughs all North Kiangsu missionaries who have been regularly invited by their Mission to return. In this connection we refer the Mission to the action taken at the June meeting.

"We report for information that the North Kiangsu Mission has invited the following missionaries to return to their Stations after furlough: Suchowfu: Dr. Grier, Rev. and Mrs. F. A. Brown. Sutsien: Mrs. Bradley. Haichow: Rev. and Mrs. W. C. McLauchlin. Tsingkiangpu: Rev. and Mrs. A. R. Craig. Chinkiang: Mr. and Mrs. S. C. Farrior, Dr. J. B. Woods, Jr. Hwaianfu: Miss L. C. Wells, Rev. and Mrs. O. F. Yates. Taichow: Rev. H. Kerr Taylor."

"The registration of our schools in China has for some time been a matter of concern to this Committee. The same subject is coming to the front in Mexico and even in Africa, and the time is fast approaching, if it is not now here, when

this subject is likely to require definite action of a drastic character. We therefore recommend that the Fields Committee be appointed to secure information from our various Missions relative to registration and maintenance of our schools in all our Mission fields and to report its findings to this Committee for future guidance."

"At the December, 1932, meeting of the Executive Committee it was voted that a letter from Rev. Robert M. Hopkins. D.D., Secretary of the World's Sunday School Association, in reply to an inquiry regarding the securing of aid from the Association for the China Sunday School Union, be sent to our two China Missions with the request that they study it and report back to the Executive Committee their feeling in the matter and any recommendations that they might want to offer regarding further procedure.

"Under date of February 27 the Conference Committee of our two China Missions through a special committee composed of Rev. James N. Montgomery and Rev. H. Maxcy Smith, D.D., sends its official reply to Dr. Hopkins' letter. It is evident from this letter that our missionaries in China feel:

"1. That contrary to the view expressed by Dr. Hopkins, the real issue between the China Sunday School Union and the National Committee for Christian Religious Education is on the matter of theological policy, and that the decision of the World's Sunday School Association to support the National Committee for Christian Religious Education instead of the China Sunday School Union was because the latter organization was looked upon as being too conservative in its theological outlook and the introduction of more liberal elements was desired.

"2. That contrary, again, to Dr. Hopkins' statement that the National Committee for Christian Religious Education was more representative of the churches and missions in China than the China Sunday School Union, the latter organization is in reality more inclusive and represents a larger element among the Christian churches and missions than does the former.

"3. That our Missions are practically unanimous in their support of the China Sunday School Union, all the actions touching this matter transmitted to the Executive Committee having been taken with but one dissenting vote in one of the Missions.

"4. That it would be entirely futile to appeal for support to the National Committee for Christian Religious Education, as suggested by Dr. Hopkins, as this organization is itself appealing for funds in addition to those supplied by the World's Sunday School Association.

"We are constrained to concur in the views expressed by our China Missions that the China Sunday School Union can best serve the needs of our Mission Sunday School work in China and to express the earnest hope that the World's Sunday School Association, which receives support from our Church, can and will resume the financial support of the China Sunday School Union.

"It has been brought to the attention of the Committee that the support and maintenance of Hangchow Christian College requires an unduly large proportion of our appropriations to the Mid-China Mission. It is pointed out that this sum might be more profitably spent in other forms of work. Moreover, it is maintained that the restrictions as to religious teaching under which the College is forced to operate greatly handicap the Institution in the accomplishment of its definite Christian aim.

"We therefore recommend that our Mid-China Mission be asked to give careful consideration to the question of whether or not it would be wise under present conditions and in the face of our financial need to withdraw from our share in the maintenance and control of Hangchow Christian College."

"On March 9, in order to meet the emergency created by the bank holiday and by the fact that the Treasurers of our various Missions were beginning to draw funds for furloughs falling due this summer, it became necessary to send a cablegram to all our Missions delaying furloughs until further notice.

"While the financial situation is still very forbidding, nevertheless in view of the fact that most of our banks are open again for normal business and the situation has greatly cleared as compared with the conditions existing at the time the cable was sent, we recommend that this restriction on furloughs now be removed and that the furlough needs of our missionaries be met in accordance with the practice in force before the emergency measure of March 9 was applied. This does not revoke the action taken at the September, 1931 meeting extending by one year the term of service of all missionaries on the field at that time.

"In this connection the Executive Committee would call the attention of all our Missions again during these days of financial uncertainty to paragraph 71 and 72 of the Executive Committee's Manual as follows:

"'71. The frequency of furloughs depends largely on the climate and other special field conditions. Wide differences in these respects make any uniform term of service for all fields impracticable.

"'The limited supply of missionaries in almost every field, the serious interference with the work which furloughs involve, and the additional burdens which they lay upon already over-worked colleagues, as well as the heavy expense which they entail, render it desirable that furloughs should be limited to the reasonable necessities of each case. When a missionary has completed the term of service for his Mission, he is not to assume that he is necessarily to take a furlough regardless of his physical condition and the judgment of the Mission as to the needs of the work. Exigencies of the work and of health may require a lengthening of some terms of service, and a shortening of others, the general rule being that missionaries taking their regular furloughs should do so at stated times. If exigencies of the work require a change in the date of furlough the change should preferably be a lengthening of the term of service. The needs of the work should be considered well in advance and furlough so arranged as to avoid the shortening of terms of service on account of other furloughs becoming due at the same time.

"'72. Ten years of continuous service on the field should be the maximum term."

"In the light of the continued decline in our Foreign Mission receipts and the necessity of using every available

resource for the maintenance of the work and the force already on the field, the Committee is constrained reluctantly to reaffirm for another six months the action of April, 1932, declaring its inability to send out any replacements or reinforcements that can possibly be avoided.

"In accordance with this action the following requests which were docketed for consideration at this meeting are hereby placed on the docket again to be taken up at the fall meeting of the Committee:

"From Africa: For the Eddingtons and three other Educational workers.

"From West Brazil: For an evangelist and his wife replacing Dr. and Mrs. J. P. Smith.

"From Mid-China: For male evangelist for Kiangyin Hospital.

"From Korea: For a doctor and nurse for Mokpo.

"The following new or reiterated requests are also docketed for consideration at the fall meeting in accordance with the preceding action:

"From Conference Committee of China Missions: For a doctor for Mid-China; a nurse for Sutsien; a male evangelist; a nurse for Yencheng; and a lady evangelist.

"From Japan: For evangelistic couples as replacement for recent losses.

"The Conference Committee of our China Missions requests that Miss Lucy Grier, be sent out to our hospital at Soochow her travel and salary to be provided out of the Elizabeth Blake Endowment Fund.

"We recommend that in reply that the funds suggested for use in sending Miss Grier to China are needed to carry the cost of supporting our present staff at our hospital in Soochow and that the Committee therefore deeply regrets that we cannot see our way clear to send Miss Grier out at this time.

"We recommend that missionaries on furlough shall not be carried on our lists for more than two years, after which time they shall be automatically dropped, and any renewal of connection with the Executive Committee shall require formal Committee approval."

MINUTES OF AD-INTERIM COMMITTEE

Present: Armstrong, Chairman, Junkin, Woods Sr., Currie, Yates, Stevens, Harnsberger, Farrior, Secretary.

The meeting was opened with Scripture read by the Chairman and prayer by Dr. Junkin.

699. Voted to instruct the Secretary to ascertain from the Treasurer in Shanghai whether or not he has authority to pay passport expenses. In case he has no such authority, that this committee hereby request the Executive Committee to pay these expenses for members of the Mission.

700. Voted to ask Messrs. Bridgman, Stevens, and Harnsberger to act as a committee to investigate the extent of repairs needed on the Bridgman residence and take up with the Reparations Committee the question of payment for repairs.

Voted to approve of remodelling the Boys' School Building at Suchowfu for the use of the two hospitals at a maximum cost of $10,000.00 from funds available in the station, subject to the approval of the Executive Committee. In reply the following action was voted: (1) that we hereby waive any claim whatsoever to this property; (2) that we approve of accepting the sum of $700.00 Mex. for the buildings erected thereon by the Mission.

The deed to the Mary Stevens Girls' School Athletic Ground at Suchowfu, as a supposed piece of Mission property, is irregular according to Mission Rules for the purchase of land (See 1911 Minutes, page 14).

The Mission holds to the principle that contributions to an institution or cause do not carry with them any claim to ownership or proprietorship.

710. Voted to reiterate the action of the Mission regarding conserving the work of the Suchowfu Girls' School by

conducting a Bible School, it being understood that students from other schools in the city may enroll for such classes as they are able.

711. Voted; that, unless there is some reason to the contrary, this be considered as the annual meeting of the Ad-Interim Committee and no further meeting be held before the annual Mission meeting.

It is sincerely hoped that the financial situation will soon permit the Executive Committee to send out some of the new workers so often called for and so urgently needed. THE PERSONNEL COMMITTEE'S REPORT.

Your Committee Recommends:

1. That at the request of their respective stations the following members of the Mission be invited to return after furlough:

Miss Gussie L. Fraser,
Miss Marguerite Mizell
Miss Mary Lee Sloan
Rev. and Mrs. M. A. Hopkins
Dr. and Mrs. Norman G. Patterson.

2. That in response to the request of their station, Rev. and Mrs. James R. Graham, Sr., now retired, be invited to remain on the field in active service for another year. (See Manual of the Executive Committee of Foreign Missions, 1930, Art. 100).

Note: The vote taken by the mission at this meeting was unanimous in inviting Dr. and Mrs. Graham to labor another year in the Mission.

3. That in response to the request from Tenghsien that we appoint someone to fill the vacancy left by the removal of Rev. Geo. P. Stevens we reply that we, at present, have no one whom we could send to supply this vacancy. We advise that the Tenghsien School Boards press the call to the Christian Reformed Mission for a man.

4. Your committee has canvassed the Stations of this Mission and we find that there is no call for the services of Miss Ruth Bracken. We have to-day visited her in Hwaianfu, where she is quite ill, and she has handed us her resignation in the following words:

"Admitting in no way a justification for the situation which now exists in the N. K. Mission, where there is now no call for my services, but recognizing the impossibility of

this situation and because I have no desire to force myself on any Station, I hereby ask the North Kiangsu Mission to accept my resignation from the Mission.

I wish it clearly understood that in resigning from the Mission I do not accept in the least any of the implications which might possibly be deduced in the case, my sole reason for resigning being that there is no Station calling for me."

"RUTH BRACKEN."

We recommend that the Mission accept this resignation.

We also recommend the following financial arrangement, subject to the approval of the Executive Committee:

a. That her salary be continued until December 31, 1934. On recommendation of the Medical Committee, her salary may be continued beyond December 31st, for a maximum of six months.

b. That, subject to the endorsement of the Medical Committee she be granted medical examination and treatment expenses for her present illness.

c. That she be granted tourist travel expenses to her home in America in case she sails before December 31, 1934. On recommendation of the Medical Committee, her sailing may be deferred a maximum of six months and travel expenses still be paid.

Respectfully submitted,

WM. F. JUNKIN,

L. H. LANCASTER,

L. NELSON BELL.

2. We approve of schools continuing under present policies for another year.

3. We approve of Hsuchowfu conducting a Training School for Country Workers with two departments, one for graduates of junior high schools, and one for graduates of primary Bible schools.

Respectfully submitted,

MARY W. McCOWN,

Temporary Chairman.

RESOLUTION PRESENTED BY REV. H. T. BRIDGMAN.

Resolved that this North Kiangsu Mission

in true faith in our living God, and trust in our loving Heavenly Father,

in loving obedience to the last command of our Lord and Saviour Jesus Christ to preach the Gospel to every creature, and

in humble reliance upon the power, authority, and strength of our Paraclete, the Holy Spirit,

do now, in this year of our Lord 1934, PLAN as our policy for the future, to be executed as rapidly as circumstances permit,

A FORWARD MOVEMENT.

FIRST and foremost

1. To open at least one new station in as near virgin territory as it is possible to find contiguous to our present field (e.g. Kao-Yu) and then (secondarily).

2. To expand the work in our present field into the unoccupied sections:

(1) by turning over to the Chinese Church, as far and as rapidly as possible the existing outstations, and

(2) with the end specially in view of opening new outstations, by opening several evangelistic sub-stations:

e.g. Fowning in the Yencheng field,
Tungtai in the Taichow field,
Paoying in the Hwaian field,
Shuyang in the Tsingkiangpu field,
Kintan in the Chinkiang field,

with the policy (in general) of having no more than two male and one single lady, evangelistic missionaries in any one station or sub-station.

3. To ask the Executive Committee to cooperate with us in this forward movement by allocating at least half of the increase in appropriations to be apportioned to this Mission,

to the salaries (and stipends) of the additional missionaries necessary to the fulfilment of this plan.

4. To entrust this plan to the Ad Interim Committee (in accordance with the manual of the Mission) with instructions to bring in recommendations thereon to the 1935 Meeting of the Mission.

REPORT OF THE MEDICAL COMMITTEE.

The Medical Committee reports as follows:

1. That Medical expense accounts have been approved for

Dr. Welton's child
Mrs. Welton
Miss Matthes
Graham McFadyen
William Talbot

and Dental expense account for Dr. Gladys Smithwick.

2. That Dr. McFadyen's request, on account of family health reasons, that he be permitted, if necessary, to take his furlough within the next year, be granted.

3. That the idea of repairing an old school building for a woman nurses' home, at Hsuchowfu, be approved, though no plans were submitted.

4. That, reviewing the papers giving the results of special examinations, Dr. Morgan be permitted to go home for a surgical operation.

Respectfully submitted,

JAS. B. WOODS, SR.,

Chairman.

REPORT OF THE EVANGELISTIC COMMITTEE.

Your Committee reports as follows:

I. In regard to the request of Yencheng Station that provision be made for Mr. Bridgman's work during his furlough 1935-36, we recommend that the matter be deferred till next Mission Meeting.

II. (1) That the North Kiangsu Mission, in accordance with the historic position of our Southern Presbyterian Church and the deliverances of our General Assembly, go on record as disapproving of placing women in positions of authority in the church, such as Pastors and Elders; and that we urge our missionaries and Chinese co-workers to discourage anything that tends in this direction.

(2) To this end that we discourage women from leading the regular stated Sunday preaching services for men and women.

Respectfully submitted,

R. P. RICHARDSON,

for the Committee.

CHINKIANG AGENCY REPORT.

The Committee reports that the contract with Foo Chang and Co. has been continued at $280.00 per year.

The account of $280.00 was paid this past year, and the accounts audited by Chinkiang Station.

The Committee recommends that the contract with Foo Chang & Co. be continued for another year.

Respectfully submitted,

C. H. SMITH,

for the Committee.

REPORT OF THE REPRESENTATIVE OF THE ASSOCIATED MISSION TREASURERS ADVISORY COMMITTEE.

Your representative attended the annual meeting of the Associated Mission Treasurers on April 12, 1934.

An annual report including a statement of receipts and expenditures of the past year, together with the balance sheet at the end of the fiscal year, was presented.

The balance sheet showed a deficit of $3,111.12, which was divided among the Signatory Boards as per terms of By-laws.

An amendment to the By-laws relating to the distribution of income and expenses was offered and is now in the process of adoption.

Respectfully submitted,

C. H. SMITH,

Representative.

REPORT OF THE LANGUAGE STUDY COMMITTEE.

Mrs. Womeldorf has completed four credits on her third year's work.

Miss Lucy Fletcher has completed the first year's work.

Rev. E. A. Woods has completed the third year's work.

Mrs. E. A. Woods has completed three credits on second year's work.

Rev. A. R. Craig has completed the third year's work. In addition five credits of second year's work were reviewed and passed.

Miss McCown has completed third year's work.

Miss Myers has completed one credit on second year's work.

Rev. J. R. Woods completed two and one half credits on second year. He also has passed five credits on the third year.

Miss Elizabeth Grier has completed the third year's course.

While Dr. Smithwick has not entirely finished the first year's course, she has taken groups 6 and 7, and part of group 2, in the second year's course. We advise her station to arrange her work so that she can finish the first year's course.

We recommend that the Mission retain the present language requirement for voting privileges; any exception to this rule to be referred to the Language Study Committee to be considered on its merits.

During the year 1934-35 this restriction shall not apply, but all members of the Mission shall be allowed voting privileges within the stations on all matters during the year, irrespective of language requirements.

We suggest that the incoming Language Study Committee consider the advisability of revising the course of study, with a view to giving credit for special study done under the direction of the examiner.

Respectfully submitted,

Rev. H. W. McCutchan,

For the Committee.

REPORT OF EXTENSION COMMITTEE.

The following report of the Property Committee is incorporated as part of the Extension Committee's report:

The Property Committee has approved the following items, Repairs and alterations to Rev. Hugh White's house to the amount of $2,000.00.

Repairs to the McLauchlin house, Mex. $2,667.00.

Approval of plan to repair the roof to the Goldsby King Hospital to the amount of $2,000.00, the funds to be approved by the proper authorities before doing the work.

The Property Committee would like to say that in case other buildings have been altered or repaired this committee has had nothing to do with the matter.

Approved of the building at Tenghsien of a new teacher's residence not to exceed $1,500.00.

The Extension Committee calls to the attention of the Mission that unless the following requirements have been met, the Property Committee cannot take action:

1. Approval of the Station must be stated.

2. Must give reference to page in the Minutes of the Mission or of the A.I.C. where permission to use the funds has been given.

3. When required, the approval of the Building Committee must be stated.

In reply to Mr. Hopkins' requests, the following actions were taken:

1. Voted: To reaffirm the Mission's action No. 43 of last year, and request the M.M.I. Board to continue negotiations with the Christian Reformed Mission, with a view to securing from them a member of their Mission for the faculty of M.M.I., as well as an annual appropriation.

Since the Executive Committee has already approved of the plan of cooperation, the Mission's representatives on the M.M.I. Board are instructed to see that the negotiations are carried to some conclusion as soon as possible.

2. Voted: To request the Executive Committee to authorize Mr. Hopkins, while on furlough, to raise a maximum of $4,500.00 Mex. for building the residence and wall which he needs in Tenghsien.

The following reports were made by building committees:

1. The Haichow McLauchlin Residence Committee reports that the residence has been repaired and the accounts audited. The Committee asks to be discharged.

2. Building Committee of the Goldsby King Memorial Hospital reports that the repairs on the hospital roof have been completed, and asks to be continued.

3. Suchowfu Men's Hospital Chinese Residence Committee reports progress and asks to be continued. Signed A. A. McFadyen, Chairman.

The following actions were taken by the Extension Committee:

1. Voted that Messrs. McLauchlin and McFadyen be appointed a committee to investigate the balances in the hands of the A.M.T. and the Treasurer in Nashville, and report to the December meeting of the A.I.C.

2. Noted to ask the Reparations Committee to make as complete a report as possible to the December meeting of the A.I.C., this report to be sent to each Station for information.

3. Voted that the Mission approve of the use of $850 from funds in hand for building a contagious ward at Tsingkiangpu.

Signed: W. C. McLauchlin,

Chairman.

REPORT OF REPARATIONS COMMITTEE.

The following actions have been taken by this Committee during the year since the last meeting of the Mission:

1. Rev. H. W. White—a grant of $2,000.00 Mex. for repairs to school residence at Yencheng. See North Kiangsu Mission Minutes of 1931, page 13, paragraph 70.

2. Rev. F. A. Brown—a small balance due on replacing of automobile, amounting to the difference between $200.00 Gold and $600.00 Mex. at the current rate of exchange in the fall of 1933.

3. Rev. W. C. McLauchlin—a reduction from $4,000.00 Mex. to $3,500.00 Mex. for repairs to McLauchlin residence at Haichow.

4. Rev. L. H. Lancaster—a grant of $499 Mex. for repairs to roof of Lancaster residence at Taichow, subject to approval of Executive Committee at Nashville since this item is not a reparation item, strictly speaking.

5. Rev. H. T. Bridgman—a grant of $1,700 Mex. for repairs to Bridgman residence at Yencheng, subject to the approval of Executive Committee at Nashville, since this item is not a reparation item strictly speaking.

6. Taichow Station—a grant of $200 Mex. for repairs to Girls' School Building and Boys' School Building ($700 each), due to damages sustained in 1927. (See Reparation Claims of 1927) Reparation Committee File.

7. On request of the Sutsien Station, voted to grant an additional $600 for the repairs of the former Hopkins residence, subject to the approval of Reparations Committee on review of the full statement of repairs.

8. To Miss Sophie Graham a grant of $150 Mex. for personal losses sustained in 1927.

Respectfully submitted,

R. P. RICHARDSON,

For the Committee.

REPORT OF THE COMMITTEE ON INTERCESSION.

It is with the deepest humility and feeling of having so feebly done only a small part of what might have been done

that this report is made. The prayer booklet finally came from the press last December. In addition to sending copies to the Mission, 55 copies were sent home to be distributed to each member of the Executive Committee, as well as the Executive Secretaries, and the remainder to be sent to missionaries at home, whether on furlough, sick leave, or retired. Most of them got a copy. Copies were also sent to each of our other Mission fields. Our Mexican Mission has joined in heartily. The Korean Mission was to seriously consider it at their Mission Meeting in April. The other fields have not been heard from yet.

It has been very difficult, with the Committee so scattered, to get united action. It was not practicable to get together. There is one recommendation which we hope the Nominating Committee will keep in mind, and that is that the Chairman and one member be from the same station, so that it will be possible to meet and talk over and pray over many things that come up and especially in making plans and programs.

This year the day preceding the regular meeting of the mission was devoted to prayer.

We recommend that next year the Mission, after organizing, and having placed before it the important matters that are to be discussed, as a body spend a day in prayer before proceeding with the business of the Mission.

Respectfully submitted,

G. R. WOMELDORF.

REPORT OF THE ESTIMATES COMMITTEE.

Recommended:

1. That the Birthday Gift of the Women's Auxiliary in the amount of U.S. $812.98 be for the year 1934-35 divided among the stations as follows:

Sutsien and Suchowfu, U.S. $150.00 each
Taichow, Yencheng, Hwaian, Tsingkiangpu, and Chinkiang, U.S. $90 each, and Haichow U.S. $62.98

2. The Committee would enjoin on all stations the importance of carrying out the spirit of the terms of this gift in the use of these funds. And in this connection we would specially call attention to the terms of the gift in the following sentence: "Such Institutes and Conferences would serve as Training Centres for women and girls who would, after their training, go out as voluntary workers in their Churches and among the women as personal witnesses for Christ."

3. The above appropriations are not to be considered as a precedent determining next year's allocation of these funds.

4. That the Executive Committee be requested to pay the item of Insurance direct through the Mission's Treasurer, and in case they accede to the request, the sum of $315.00 which we now have allocated in our appropriations for that purpose will be automatically credited to them.

5. Voted: To request the Executive Committee to permit the Mission to use during the coming year any funds that may accrue from rent on buildings.

6. Voted: To approve the request of the Suchowfu Station to use the balance on hand from a well fund of Mex. $103.43 to make roads between their compounds passable.

7. Voted: That we again express our appreciation to the Associated Missions Treasurers and especially to Mr. C. M. Myers, for taking care of our work during the absence of Dr. H. Maxcy Smith; and that we request the Secretary to write a letter to them, expressing that appreciation.

8. Voted: That we empower our representative on the Advisory Committee of the Associated Missions Treasurers to approve the proposed change in their by-laws relating to distribution of expenses and income.

9. Voted: That the Report of the Finance Committee to the effect that the audit of the Associated Missions Treasurers' books by the paid accountant be accepted.

10. Voted: That the Finance Committee send only two of its members to Shanghai to audit the Treasurer's accounts.

11. We request that the Executive Committee authorize the Mission Treasurer on the basis of Mex. $450.00 per year to pay Rev. M. A. Hopkins the balance due for the four years his daughter Bettie, was attending the Korea School.

12. In view of Mr. White's explanation of why he used some unused balances of special gifts, amounting to Mex. $413.16, and in view of the absence of Mr. Farrior, then Secretary of the A.I.C. (See action 702, Minutes for 1933, page 35), we recommend that Dr. White's use of those funds for the China Fundamentalist be permitted.

13. Voted: That any adjustment between classes be permitted within the stations.

14. That permission be given for use of the following special gifts:

ACTIONS OF THE EXECUTIVE COMMITTEE OF FOREIGN MISSIONS OF A GENERAL NATURE AFFECTING THE N. K. MISSION TAKEN BETWEEN MAY 1933 AND MAY 1934.

Regarding Dr. and Mrs. Mosley, April 10th, 1934.

The following recommendation of the Sub-committee on Candidates and Recruits was approved:

"Dr. and Mrs. Kirk T. Mosley, now in China as short term workers, are applying for regular appointment. Their paper are satisfactory, and we recommend their appoinment effective April 1, 1934."

Regarding Rev. and Mrs. James E. Bear, February 14th, 1934.

"Rev. and Mrs. James E. Bear of our North Kiangsu Mission have been detained in the United States for several years because of Mrs. Bear's condition of health which has not permitted their return to the field. For the past two years Mr. Bear has been teaching at Union Theological Seminary. He expresses his feeling that Mrs. Bear is still hardly well enough to warrent their return to China and requests that the Executive Committee approve of his acceptance for another year of Union Seminary's request for his services as a member of the faculty.

"In view of the unavoidable delay in the return of Mr. and Mrs. Bear to their field in China and in view further of the uncertainty that still exists on account of Mrs. Bear's health as to the time when they may be able to return in the future, we recommend that we believe it advisable to allow the rule adopted in April, 1933, governing such situations to take effect. The rule is as follows:

"'We recommend that missionaries on furlough shall not be carried on our lists for more than two years, after which time they shall be automatically dropped, and any

renewal of connection with the Executive Committee shall require formal Committee approval.'

"The Committee desires to express to Mr. and Mrs. Bear sincere appreciation of the faithful service rendered by these missionaries during their years of service in China. It is the Committee's earnest hope that Mrs. Bear's health may show rapid and steady improvement until she has come to complete recovery. The Committee desires, further, to assure Mr. and Mrs. Bear of our readiness to have them take up with us again the matter of their return to China if in the future Mrs. Bear's condition of health should seem to render this advisable."

Regarding replacements and reinforcements, September 27th, 1933.

"It is with great regret that the Executive Committee finds it necessary to re-affirm for another six months the action of April, 1932, (re-affirmed in April, 1933) declaring its inability to send out any replacements or reenforcements that can possibly be avoided. It has been the hope of the Executive Committee that some relaxation in this policy might be possible by this time, but the continued decline in our Foreign Mission receipts, confronting us with a supremely critical situation precludes any such possibility and renders the above action necessary. It is understood that all requestions for replacements and reenforcements, docketed for consideration at this meeting of the Committee are hereby re-docketed for consideration at the meeting in April, 1934."

Regarding appointment of missionary's children, June 15th, 1933.

"In view of the fact that the children of our missionaries are in many cases exceptionally well qualified for missionary service by virtue of their antecedents, their knowledge of the

language, their love for and sense of kinship with the people, their knowledge and appreciation of the vast needs; and in view of the fact that the present policy of the Committee that no replacements or reenforcements can be sent to our foreign fields is forcing some of our most promising candidates who are children of missionaries to seek appointment under other Boards, or to be permanently disappointed in their purpose to enter missionary service; and in view, further, of the fact that we are in this way losing the very choiest persons who are by birth and nature and training best fitted to render service, we recommend that while adhering to the general policy as referred to above with regard to replacements and reenforcements the Committee allow the following exception: That the sons and daughters of our own missionaries be considered a special class and that during the present emergency they be sent out to work in our fields on the following conditions:

"1. They must be fully qualified according to the standard set forth in the Manual.

"2. They shall be sent out only where they are needed as replacements to fill actual vacancies.

"3. They must be called for by name by the Missions in the countries where they expect to serve.

"4. Their support must be raised in full in over and above pledges."

Regarding Auxiliary Birthday Gift, March 16th, 1934.

The Birthday gift of the Woman's Auxiliary received by us this year was received upon the following condition:

"That the Committee on Woman's Work deposit the proceeds of the gift with the Foreign Mission Committee, it to allow interest not to exceed 5% per annum on the average balance the same to be credited at the close of each year, the payment to be made through the Mission Treasurer but not to exceed in amount the income so credited, any surplus on

the income either to be held or credited at the close of each year to the corpus account."

Under the above agreement action was taken by the Committee and the Woman's Work Committee deciding that the income on this fund was to be divided 2/3 for North Kiangsu Mission and 1/3 Mid-China Mission, only the income to be used in the Bible Institutes Work, the following action was taken:

"That the Birthday Offering for 1933 be a trust fund, interest from which is to be used yearly for the conducting of Bible Institutes or Conferences for women in the North Kiangsu and Mid-China Missions of China. Such institutes or Conferences would serve as training centers for women and girls who would, after their training, go out as voluntary workers in their churches and among the women as personal witnesses for Christ. To the Missions would be given the responsibility of making their own allotment of funds to the Stations within their bounds. However, in view of the fact that the North Kiangsu Mission is responsible for a larger area and a larger population than that assigned to the Mid-China Mission, we recommend that the division of the proceeds of the trust fund be in the proportion of two-thirds for the North Kiangsu Mission and one-third for the Mid-China Mission."

We began receiving this money in July so that up to the 31st of March, 1934 the amount that will be credited as income will be approximately $1,219.47 and this is the amount that will be used until further credit of interest is made.

Regarding Winling Road Property, Shanghai,

February 14th, 1934.

For your information I am giving you below an item that appeared in our Executive Committee minutes under China, regarding the Shanghai Property:

"The following cable has been received (decode) "Shanghai, Kiangsu land excludes residence amount offered is $25,000.00 Mexican dollars. Sale is approved by Mid-China North Kiangsu Please telegraph definite answer immediately (signed) Treasurers."

We provide a Treasurer's residence in Shanghai at a cost of $14,500.00.

We recommend that if the land proposed to be sold is not needed in connection with the Treasurer's residence that sale be approved and the proceeds credited to account of the Committee as the original cost was paid from its funds."

We have just cabled the Mission as follows: (decode) "Shanghai land Board consents to sale at price not less than $25,000.00 Mexican dollars to be placed to the credit of the Executive Committee. We understand Treasurers residence retained."

Regarding Christian Reformed Mission and Tenghsien,

February 14th, 1934.

I submitted the following items from the North Kiangsu Mission to the Committee at its meeting yesterday and I give you below the actions taken thereon:

"(1) This Mission at its Annual Meeting, May 24-30, 1933 took the following action:

"Voted: That we request the Northern Presbyterian Mission to join with this Mission in inviting the Christian Reformed Mission of Jukao to have a share in the work of the Mateer Memorial Institute, by making an annual appropriation to the work, and appointing a member of their Mission on the faculty. This action shall be affective only after it is approved by the Executive Committee and the Board of Directors of the Masteer Memorial Institute."

Rev. M. A. Hopkins asks that this action be considered.

We recommend that the action be approved provided the Northern Mission has approved it.

Regarding code word for U.S. Dollars, February 23rd, 1934.

In the money table of the Mission Code book, in the second column there appears "American gold dollar." Since the U.S. has gone off the gold standard these code words will be used with the distinct understanding that the word "gold" is to be omitted. The term American Dollar, U.S. Currency and gold have been used interchangeably for many years although the one word gold has been most frequently used.

Regarding Passport fees, August 4th, 1933.

Your letter of June 19th relating to the expense of Miss Cassie Lee Oliver for passport fee to hand and under the present conditions it seems to me that our people must be protected. In view of the fact that Miss Oliver had no appropriations for itineration your authorizing this payment is approved and you are authorized to approve any others for which there is no appropriation made.

Following my letter of October 25, 1932 any expense necessary for missionaries leaving on furlough is to be charged to furlough account and for those on the field the amount would be reported to me where additional appropriations are made.

CIRCULAR LETTERS PASSED BETWEEN 1933 AND 1934 MEETINGS.

The following circular letters have been passed since the last meeting of the Mission.

1. Regarding payment of $315.00 for transfer of Rev. and Mrs. L. H. Lancaster from Suchowfu to Taichow, to be paid from contingent fund.

2. Gotten out by Sutsien station regarding the distribution of the Painter fund—one half for Dr. Junkin and one-half for Mr. Montgomery.

3. Gotten out by Haichow station calling for meeting of the A. I. C. in Chinkiang on December 6th at 7.30 p.m. (This was regular meeting of A. I. C., the circular simply to designate time and place).

4. Gotten out by Suchowfu asking for Mex. $175.00 from unused residence appropriation fund in hand for installation of 'phones between outside compound and city.

5. Gotten out by Tsingkiangpu approving of sale of Winling Road property, Shanghai, and appointing Mr. Womeldorf as N. K. representative on the sale committee.

6. Gotten out by Chinkiang asking for approval of use of Mex. $2,000.00 from funds in hand for repair of roof of hospital.

7. Gotten out by Tsingkiangpu asking for a meeting of the Mission at Tsingkiangpu on May 23rd, it being understood that all adults who could come without bringing children were invited, lack of facilities for caring for children making this stipulation necessary.

8. Gotten out by Hwaian asking for permission to use Mex. $320.00 from available equipment fund for purchase of land back of the Womeldorf residence.

9. Gotten out by Sutsien asking the Tsingkiangpu station to make provision to entertain all the members of the Haichow station at the Mission meeting, beginning May 23rd.

L. N. Bell, *Secretary.*

EQUITY CONNECTED WITH THE PROPERTY OF THE MATEER MEMORIAL INSTITUTE.

In accord with the actions of the Shantung Mission No. 32154 and China Council No. 32347 (Northern Presbyterian Church) and the actions of the North Kiangsu Mission (Southern Presbyterian) 1932 Minutes, Page 25, paragraph 4 and 1933 Minutes page 25, action No. 701, the main building of the Mateer Memorial Institute has been rebuilt and the small Chinese building to the East of this building has been changed into a small two story residence. In addition another small two story residence has been erected for the use of the Chinese teachers to the West of the Main Building and to the South of the Deal Memorial Building.

The Committee in figuring the values and equities of these buildings and the property of the Mateer Memorial Institute report as follows:

The Property	*Value*	*Southern Presbyterian Equity*	*Northern Presbyterian Equity*

It is thought that there may be a balance of Mex. $200 available.

731. Voted to approve of the following amounts to cover the expenses of missionaries transferred from one station to another during the present year, said funds to

be provided from the Contingent Fund when available—Miss Fletcher, $20.00—Mrs. Rice, $83.00—Mr. McCutchan, $24.67.

Supplement

Minutes of the Joint Conference Committee of the Mid-China and North Kiangsu Missions.

December 8, 1933

Report of Bible Encyclopedia Committee of the Two Missions.

Before leaving, Rev. H. M. Smith, D.D. gave a contract for 1,000 copies of a Revised Index to the Four Volume Bible Encyclopedia published in 1925, to be edited by Rev. Liu Teh-sen of Hangchow. This was completed by the Mei Hua Press in September 1933 and placed on sale at the Christian Book Room No. 3 Quinsan Gardens, Shanghai. Prices Fifty Cents in paper covers and One Dollar in Cloth Binding, plus postage if sent by mail. Deducting the cost of publication of this new index and adding the proceeds from sales to the balance left on hand from the first edition, it is estimated that there will be about $3,000.00 in the Reserve Fund in the Hands of the Associated Mission Treasurers for a Second or Revised Edition of the Bible

Encyclopedia. Meantime the Presbyterian Council of the Northern Presbyterian Missions, have voted under certain conditions to furnish $5,000.00 for the new revised edition.

The Publishing Committee viz.:—Messrs. B. C. Patterson and W. F. Junkin of the North Kiangsu Mission and Messrs. H. M. Smith and W. H. Hudson of Mid-China Mission are making preliminary estimates. (Rev. H. L. Reaves is acting for Dr. Smith in his absence on furlough). As Rev. H. M. Woods has retired, living in the U. S. A., as is the Rev. L. L. Little, D.D., a new Editorial Committee has been selected, viz., Rev. R. C. Patterson, Rev. M. A. Hopkins, and Mr. H. W. McCutchan. A similar committee is pending appointment by the Northern Presbyterian Council. When the way is clear, the plans of publication, with cost estimates will be submitted to the Co-operating Missions.

December 8, 1933.

W. H. HUDSON,

For the Committee.

REPORT OF REPRESENTATIVE ON M. M. I. BOARD.

The M. M. I. has had a year of successful operation with no changes in policy. The plan to add two years to the course, above the Senior Middle School, is held in abeyance, for the time being. The plan to request other Missions to coooperate in the control of the M. M. I. was also set aside for the time being.

The Board requests the Northern Presbyterian Mission to increase its annual appropriation to the M. M. I. by $700.00, and the Southern Presbyterian Mission (N. K. Mission) by $300.00.

Respectfully submitted,

W. F. JUNKIN,

W. C. MCLAUCHLIN.

M. M. I. Committee

CHINKIANG AGENCY REPORT.

The Committee reports that the contract with Foo Chang & Co., has been continued at $280.00 per year.

The account of $280.00 was paid this past year, and the accounts audited by Chinkiang Station.

Respectfully submitted,

C. H. SMITH,

For the Committee.

REPORT OF THE REPRESENTATIVE OF THE ASSOCIATED MISSION TREASURERS' ADVISORY COMMITTEE.

Your representative on January 29th of this year attended a joint meeting of the Associated Mission Treasurers and

Advisory Committee to consider how the Associated Mission Treasurers might enlarge their service, and especially to consider some suggestions looking toward that end as offered by Mr. Kenneth MacLennan, Secretary of the Conference of Missionary Societies in Great Britain and Ireland.

On April 12th your Representative attended the annual meeting of the Associated Mission Treasurers.

An annual report including a statement of receipts and expenditures of the past year, together with the balance sheet at the end of the fiscal year, was presented.

The balance sheet showed a deficit of $2,509.12 Mex. and a surplus of $260.18 gold, which was divided among the Signatory Boards as per terms of By-laws.

The Mission Boards and Societies, that have reported, approve the amendment to Articles VI and VII of the By-laws relating to the methed of calculating and apportioning income and expense.

Two other amendments have been referred to the constituent Mission Board and Societies for their approval. One as affecting By-law Article IV (2) which deals with the auditing of the Association's accounts, and the other Article VIII of the Agreement and X of the By-laws which, if approved will permit the Association (i.e. the representatives and Advisors) to amend the By-laws without reference, as is now the case, to the Signatory Boards and Societies.

The annual report of the Associated Mission Treasurers is now in printed form, and may be had on request from them.

Respectfully submitted,

C. H. SMITH,

Representative.

REPORT OF REPRESENTATIVE ON THE CHINA SUNDAY SCHOOL UNION COMMITTEE.

The China Sunday School Union is now in the 25th year of its existence. It has been a quarter of a century of noteworthy service to the Christian cause. Today it is issuing Sunday School Literature which in its content, in its use of sound pedagogical method and in its fidelity to the inspired Word of God is unsurpassed, we believe, anywhere in the world.

The demand for its publications constantly grows and the Union is in need of more capital to provide stock required to meet the demand. Since the World's Sunday School Association withdrew its subsidy we have been dependent on the sales of literature and the contributions of missions and individual friends. Falling exchange has greatly reduced the amount realized from the gifts of friends in the United States. The largest Mission appropriation is that of the Northern Presbyterian Board, the amount being $1,500.00. It is greatly hoped that our Mission will soon be able to considerably increase its appropriations to this cause. If the Union is to continue to sell its literature at a price much below the real cost it is imperative that receipts from gifts and appropriations be materially increased. The contributions of some 75 Chinese Sunday Schools on the newly announced Sunday School Sunday observed for the first time last fall, amounting to $250.00, were very gratifying.

Members of the Mission are urged to acquaint themselves with the literature obtainable, the simplest and cheapest lesson sheets being as low as two cents a year for a complete set of 52 lessons.

Respectfully submitted,

H. Maxcy Smith.

REPORT OF MISSION HISTORY COMMITTEE.

This year little has been accomplished. Letters to the various stations have elicited response from only part of the members. The Committee asks to be continued.

Respectfully submitted,

B. C. PATTERSON.

REPORT OF REPRESENTATIVE ON BOARD OF THE CHINESE CHRISTIAN INTELLIGENCER.

Your representative attended the meeting of the Board of the C. C. I., March 21st, 1935, and from time to time has conferred with the editor. Considerable criticism of some of the material appearing in the paper, in the way of attacks on various individuals and church groups, was made at the meeting and in the presence of the editor. It was urged that greater care should be used in the publication of correspondence, and that it should be brought to the attention of subscribers in various quarters that news would be received and published only from those named and accredited as correspondents.

The paper is in a critical condition at the present time as regards its future control of policy. In view of the repeated warning on the part of the Northern Presbyterian Council of the possible withdrawal of their subsidy, and the divergence in viewpoint of the members of the Board with the ecclesiastical and theological differences invoked, it is impossible for the paper to pursue a settled policy. Since Dr. Woodbridge's death there has been no foreigner in an accredited advisory capacity.

In view of Mr. Chen's advancing age and uncertain health, three names were nominated as assistant-editor, from whom one is to be selected by a committee of the board.

From the standpoint of circulation and finance the paper is in a strong condition.

Respectfully submitted,

JAS. R. GRAHAM, Jr.
Representative.

REPORT OF COMMITTEE ON SCHOOL FOR FOREIGN CHILDREN.

In view of the evident apathy to and disinterest in the question of a school for missionaries' children within the bounds of the Mission, your Committee recommends that the matter be dropped and the Committee discharged.

JAS. R. GRAHAM, Jr.
For the Committee.

Mr. Talbot for William's operation and expenses in Korea .. Y115.00

Your Committee recommends the following—

A. That permission be given Dr. Mosley and the Yencheng Station to seek to raise up to US$15,000.00 for a new hospital building, subject to the approval of the Executive Committee.

B. That approval be given for calls for additional doctors at Chinkiang, Taichow and Haichow when suitable men and sufficient funds are available.

C. That replying to a letter from Miss Rosa Gibbins concerning White Cross supplies and import duty on same, we recommend that this matter be settled between the individual hospitals and Synodicals concerned, in the way found most economical and satisfactory to them.

D. In regard to the Registration of the Nurses' Training Schools, we recommend that until a clear statement is received setting forth the requirements for registration that none of our Mission hospitals take any steps to register.

F. In response to a letter from the Missionary Division of the Chinese Medical Association, we recommend that the Mission elect one of its physicians as its official representative to the meeting to be held in Canton the 9th of November. 18. Voted to approve the request of the Suchowfu Station that the Woman's Hospital there be allowed to employ for one year, Miss Ruth Lee, a trained nurse, it being clearly understood that she is an employee of this hospital and that the Mission can assume no financial responsibility in the matter.

REPORT OF THE EVANGELISTIC COMMITTEE.

1. Hwaian Station requests:

a. That from an approximate balance of $1,000.00 of chapel funds they be permitted to use up to $600.00 to erect a chapel at Ts'a Ho provided the Chinese give an equal or greater amount, this property being held in the name of the Mission.

b. That authorization be given to use from its country chapel funds in important centers a maximum of $150.00, at any one point where the Chinese give an equal amount, each proposition to be approved by the station.

We recommend that these requests be granted on condition that the Chinese Christians maintain the upkeep of the buildings.

2. In regard to the A. I. C. Action No. 770, referred to the Evangelistic Committee by the Mission:

a. That in the spirit of Mr. Bridgman's resolution we endorse the principle of using any increase in evangelistic work appropriations in the future, as far as possible in the opening up of new work rather than in increasing present subsidies for old work.

b. In starting any new work the Chinese be instructed and expected to contribute from the beginning.

c. In opening new work any buildings erected for missionary occupation shall be of such a type that they may be suitable for Chinese use and upkeep.

3. Yencheng Station requests authorization to pay $20.00 out of a $26.00 salary to Mr. Liu Kwei Reng to do the work of an evangelist in Mr. Bridgman's field during his absence. It is understood that this arrangement is dependent upon Presbytery's grant of evangelistic powers and of a missionary's supervision of his work.

The Evangelistic Committee recommends that the above matter be referred to the conference of Tsingkiangpu, Hwaian and Yencheng evangelists with power to decide.

AD INTERIM COMMITTEE REPORT.

May 23—29th, 1935.

798. Moved that Mr. Bridgman be requested to see the members of the Mission present and secure necessary authorization to deduct one dollar from their salary to cover cost of the News Letter for the coming year.

799. Moved That Mr. Hamilton be requested to make a report of this Mission meeting for the News Letter.

800. Moved that in connection with unpaid expenses incurred by dental treatments by Dr. Levie:

(1) That the sum of M$27.40 X-Ray films be charged to the members of the Mission concerned in proportion to the number of pictures taken.

(2) That the $19.50 (the amount by which Dr. Levie's expenses were in excess of the sum of $250.00 appropriated by the Executive Committee) be equally charged against the salary accounts of the 44 members who had dental work done.

801. Moved, that the Secretary of the Mission write Dr. Levie thanking him for his services to the members of this Mission and expressing to him our appreciation of the evident sacrifice entailed.

802. Moved, that Messrs. Richardson and Patterson in connection with Dr. Bell write a letter to the Executive Committee, thanking them for the increase in salary received, but re-iterating the need and the serious salary situation caused by the drop in the U. S. dollar exchange in China, and again urging the equalization of salary basis as requested in December in A. I. C. Action No. 782.

803. Moved that the letter from Dr. Fulton to Dr. McMullen of March 14, 1935, regarding the status of retired missionaries, be received as information and filed with the Secretary.

804. Moved that the Mission extend a hearty welcome to Miss Margaret Woods, R. N., and approve of her location in Sutsien. The Mid-China Mission is asked to concur in this. Voted to recommend that she attend the Peiping Language School.

805. In view of Dr. B. C. Patterson's letter informing the Mission that he hopes to be relieved of full time teaching responsibility after next year, owing to his having reached the age of retirement and the precarious condition of his health:

Moved that the needs and opportunities of the work in the Mateer Memorial Institute, and Theological Seminary at

Tenghsien be laid before Dr. Junkin, since it is our judgment that he is eminently qualified to fill the need there. In case Dr. and Mrs. Junkin feel this to be the call of the Lord for them this matter will be taken up for final discussion at the next Mission meeting.

806. Voted: That the location of Miss Julia J. Bradley be deferred until the next meeting of the Mission, and that in the interim Miss Bradley attend the Peiping School.

807. Moved that the Secretary write a letter to Dr. Grant expressing our appreciation for his many years of efficient and faithful service to the Foreign Mission Cause.

808. In view of the fact that Dr. and Mrs. Mosley came to China in 1931, and Dr. Mosley served his interneship at our Tsingkiangpu Hospital, where he stayed for two years and a half, at no expense to the Executive Committee of Foreign Missions:—

Moved that, subject to the approval of the Executive Committee, we grant Dr. Mosley's request that he and Mrs. Mosley take a one year furlough, beginning in 1936, during which time he shall continue his studies and complete his State Board examinations.

   (a) That the Personnel Committee recommend it.

H. W. WHITE,
Chairman.

REPORT OF EDUCATIONAL COMMITTEE.

This Committee would report on the condition in the educational work as follows:

I. While there are still obstacles to educational work in some parts of China, yet the obstacles are lessened, and good work is being done in our own and some other Missions.

II. In the N. K. Mission the educational work we once had was broken down by revolutionary influences in 1927, and by the terrible cut on our finances. Yet some work has carried on through it all, and efforts are now being made to resuscitate our educational system.

(1) In the Chinkiang field, the Mission has not yet reopened our Middle School, but certain Christians are conducting a small school.

(2) In Taichow a good primary school is being conducted, at a cost to the Mission of US$125.00 per year.

(3) In Yencheng, for lack of finances and owing to removal of our educational missionary, neither the middle school nor the country schools have been reopened. However, thanks to the Birthday Gift, a Bible School has been established in the Middle School property. It was conducted for three months, and cost M$253.52 plus minor contribution for a boys' department.

(4) Hwaian has a good Girls' School of Junior High Grade. It costs the Mission U.S.$308.00. This station also has some country schools conducted by Chinese Christians.

(5) In the Tsingkiangpu field, eight or ten country schools have been assisted at a rate of from two up to five dollars per month (Mexican.) Now the Christians of this field have asked the Mission to estabiish a Lower and Higher Primary, grades 1 to 6. As this would cost perhaps Mex. $500.00, equal to about US$225.00 the Mission has not yet seen any way to provide the funds.

(6) Sutsien has a Junior High for girls and one for boys, both doing good work, and neither of them registered. They cost the Mission US$450.00 and US$375.00 respectively. Also there are several day schools in the Sutsien field.

(7) Haichow has in the city a boys' school and a girls' school. In the Haichow field also the missionaries have been assisting to the extent of five dollars per month a school which is run at a cost to $35.00 per month. Other schools are being carried on, with or without Mission help.

(8) Suchowfu has a Primary School for boys and girls, also a Training School for girls, preparing them for voluntary work. In addition the Presbytery is conducting a High School for boys and one for girls, expecting to register same with the government.

(9) At Tenghsien we cooperate in the North China Theological Seminary and the Mateer Memorial Institute, two high grade evangelical institutions. The latter institution received US$385.00 from the Mission.

III. It is the policy of the Mission to conduct no schools which canno t be kept on the Bible basis, and all these schools are thoroughly Christian.

IV. We again approve of opening a Higher Primary Boarding School for Boys at Tsingkiangpu, fifth and sixth grades, if funds can be secured.

H. W. McCUTCHAN,
Chairman

REPORT OF REPRESENTATIVE ON M. M. I. BOARD.

The M. M. I. has passed another most satisfactory year of work. Because of having no increase of appropriations from the co-operating missions and a falling off in number of students as compared with 1934-35, there was a deficit of $326.00 shown in the Treasurer's report.

The plan presented by the Principal, for developing a Department of Religious Education, was adopted by the Board, and the Executive Committee of the Faculty and the Executive Committee of the Board were asked to take steps to carry out this plan.

The Board requests the N. K. Mission to permit Dr. Patterson to continue as a regular teacher in the M. M. I. for another year. They also request the Mission to allocate Miss Julia Bradley to the M. M. I. as a teacher in the Department of Religious Education, to begin her work after two years of practical work in China.

The cooperating Missions were requested to increase their appropriations. Two other financial requests were made of our N. K. Mission: first, that Rev. C. H. Patterson be commissioned, with the permission of the Executive Committee of Foreign Missions, to raise $300.00 U. S. currency, to pay off the debt on the new piece of land to the west; and secondly, that the Mission grant them a repair fund of $250.00.

Respectfully submitted,

E. H. Hamilton,
W. C. McLauchlin.

REPORT OF REPRESENTATIVE ON BOARD OF THE CHINESE CHRISTIAN INTELLIGENCER.

The Board met at Shanghai in the C. L. S. Conference Room on March 14. There were present, Dr. Wang,

Chairman, Messrs. S. K. Zia, Shen Ya-lwen, Allison, Terry, Lancaster, and the Editor, Mr. Ch'en.

Though there has been an increase in the number of new subscriptions, there is a net loss of $250.00 due to ban on sending the paper into Manchuria. In 1934 the subscription list was 5,525; 1935, 5,275. Of this number 4,250 are actually paid up to date.

The receipts from advertising have fallen from $820.00 in 1934 to $460.00 in 1935. The bank balance dropped from $675.00 in 1934 to $221.50 in 1935.

Ways and means of increasing circulation and advertising were discussed, and will be pushed by Mr. Terry, Business Manager of C. L. S.

It was voted to make an effort to reach Manchurian subscribers by mailing to them an edition from which news items have been eliminated.

Also five copies to one address will be offered for $1.20 per copy, and ten for $1.00 each.

The Northern Presbyterian Council is giving a grant of $1,000.00 this year, and is expected to continue this amount as the former plans for organizing a union paper have fallen through.

In spite of defects which we hope can be removed the Intelligencer is doing a useful work and should have our interest and support.

Respectfully submitted,

L. H. LANCASTER,

REPORT OF ANNUAL REPORT COMMITTEE.

This committee begs to report that wonderful reports were received from six stations, and an unsatisfactory report from one, and no report from one. These reports together with much other information were finally worked into a lengthy Mission report and sent to Nashville. The original was lost

in the mail; a second copy was sent and a letter from Dr. Smith was received saying it had arrived just in the nick of time.

Respectfully submitted,

A. R. CRAIG

REPORT OF REPRESENTATIVE ON THE CHINA SUNDAY SCHOOL UNION COMMITTEE.

The meeting of this committee took place on December 12, 1935 and was attended by your representative.

Dr. H. M. Smith was elected Chairman of the meeting.

It was brought out that this was the twenty-fifth year of the work of the China Sunday School Union. It was voted that a letter be sent to the Churches and Missions calling attention to this fact, and making this the occasion of thanksgiving, and further advance in the work of the Sunday School. It will be a good opportunity to remind the Churches of the service which the Union has rendered and ask for the support of the Chinese, our Mission, and individuals in this work.

A report was made on the continued success of carrying out the policy of the Union in furnishing literature for the Sunday Schools, the emphasis being on giving good helps through quarterlies, booklets and pictures on a better understanding of the Bible.

We are called upon to give more prominence to "Sunday School Sunday" or as we call it "Pally Day". As in our Church in America, it is felt that this should be used more widely to strengthen the work in the local churches.

A committee was appointed to write a letter to leaders of Churches and Missions asking that whole or part-time workers be set aside to promote Sunday School work. It was felt that much is needed to be done by various groups

in organizing more effectively the Sunday School, and in Bible Conferences for the training of Sunday School workers and teachers. The Union at this time, is unable on account of finances, to put men in the field but think that where possible the Churches and Missions should have such workers. Your representative would suggest that each one of our Missions try to secure a qualified Chinese worker to go about doing this work, working in cooperation with the China Sunday School Union.

Over twenty different kinds of helps are published by the Union. Every one who has anything to do with the Sunday School should make a study of this valuable material. Special attention is called to the Adult Quarterly which was introduced into the Union (and now used all over China), by one of our own associated Chinese Presbyteries.

We all know of the financial difficulties of the Union. The budget for next year of $41,000.00 was passed, but it will be carried through with too much hardship on those who are doing the work of the Union. Far too little of the burden is carried by the many Missions and Church groups who benefit by the work of the Union. For instance, our two Missions with associated Chinese Churches used about $800.00 worth of the literature. This barely takes care of the printing. Our Missions at present give the pitifully small sum of $50.00 U.S. to this work. Only thirteen, at the time of the meeting, have made personal contributions. It is well for us to remind ourselves of the fact that if the Sunday School Union was not doing this work, we would have to set aside a staff of workers, as do the Baptists, to do the work for ourselves. Think of the tremendous cost it would be to our Church. As a matter of fairness we should increase our Missions' contribution to this work. In spite of the appeals sent out, very few have felt called upon to contribute individually. This in face of the fact that the literature and work of the Union seems to commend itself

to our two Missions, as thirty-six missionaries and sixty-six Chinese associated with us now order literature through the Union. Shall we not as a matter of justice as well as loyalty, both as Missions as well as individuals largely increase our help to the China Sunday School Union. I am sure that many do not know the real facts and I am thus bringing this to your mind, knowing that many when they know that we are receiving all the benefits without adequate support, will see that more is done for the Union.

It is recommended that our appropriation for the work of the China Sunday School Union be $200.00 U.S. for the year 1936-37.

Respectfully submitted,

JAMES N. MONTGOMERY,

Representative for Mid-China and N. Kiangsu Missions.

817. *Voted:* In view of the great financial need of the China S. S. Union, we urge each member of the Mission to contribute at least $5.00 to help meet that need.

818. In view of the fact that Robert Hopkins, son of Rev. and Mrs. M. A. Hopkins, was sent to the Westervelt School, Columbia, S. 822. *Voted:* In view of the fact that the Medical Committee has approved of Mr. Stevens' return to U.S.A. for medical treatment, we advise him to take his regular furlough this spring.

823. In view of the unquestioned need for an additional residence in Yencheng, *Moved* that the Yencheng Station be given permission to take up this need directly with the Executive Committee.

824. In view of the fact that new missionaries will be located at the meeting of the Mission in Taichow (see 1935 Minutes, page 39), we ask each station to fill in on a map

825. *Moved:* To ask the Executive Committee to grant M$50.00 for the extermination of white ants in the residence of Mr. Richardson.

826. In view of the fact that the painting of the Richardson residence in Taichow, and the repairs on the residence used by Mr. Hopkins in Tenghsien were omitted from the list as presented in the Extension Committee Report (see N. K. Minutes 1935, p. 23, No 6)

827. *Voted:* To approve the building committee on primary school building, Hsuchowfu, consisting of Miss Young, Hamilton and Hopkins.

828. *Voted:* That inasmuch as the $8,000.00 asked for restoring the buildings for Haichow Boys' School and Institute is directly for reparation for loss incurred in 1927, the buildings not having been restored earlier, because the question of their location has been awaiting certain developments in the Haichow field, we urge the Executive Committee to set aside the $8,000.00, to be used whenever the Mission calls for it, and that $2,000.00 of this sum be made available now, and the Haichow Station be authorized to use this $2,000.00 for procuring the center at Lien You, as the first step in the use of this fund.

829. Lest the funds listed under Item 24, p. 35 of the N. K. Minutes 1935, be lost to the Mission, we urge that the Executive Committee make no disposition of them until after the 1936 Mission Meeting has a chance to make specific recommendations.

830. Realizing the need for Mr. McCutchan's services in revising Orr's Bible Encyclopedia and making it ready for publication, *Moved:* That we ask Mr. McCutchan to go to Tenghsien for this work, provided suitable arrangements can be made by the station for the Boys' School.

831. Flood Relief Committee for the Christian Constituency:

Voted: 1. That Miss Lois Young, Mr. J. R. Woods, W. C. McLauchlin and C. H. Patterson be the representatives from the four affected stations, Miss Young, Chairman.

2. All gifts received from China or U.S.A. for flood relief should be pooled among the four stations unless the gifts are of a personal nature, in which case they should be reported to the Committee. If in the minds of the Committee, these personal gifts upset the general equality of the division of funds, quota readjustments shall be made.

3. Miss Lois Young shall be general treasurer of this committee, receive funds for general division and keep the necessary accounts to avoid confusion.

4. That, for the present, the available funds be divided equally among the four stations. If in the future readjustments should be necessary, this committee is empowered to act.

832. In reply to the Executive Committee's request for material in their letter of Oct. 5, 1935, relative to the Diamond Jubilee Celebration, we appoint the following:

1. *Mr. F. A. Brown:* Subject—Outstanding Developments in our field during our History as a Church.
2. *Mr. Wm. F. Junkin:* Subject—Lessons Learned During this Period.
3. *Mr. S. C. Farrier:* Subject—Changing Tenencies and Persisting Problems.
4. *Mr. L. H. Lancaster:* Subject—Plans and Hopes for the Future.

Each paper to be not more than 600 words—to be sent to the Secretary of the Mission not later than January 10, 1936.

Objectives: 1936—North Kiangsu Mission

1. Every Christian a Bible reader
2. Every Christian a tither.
3. Every Christian a soul winner.
4. Every family a Christian family.
5. Every church a self-supporting church.

833. *Moved:* In case the contingent fund is not sufficient to cover travel expenses of the A. I. C. members, that the Executive Committee allow the remainder to be paid from income derived from rents on the Chinkiang High School.

834. *Moved:* That Mission Meeting be convened at Taichow, Thursday morning, May 22, 1936, at 9 a.m.

835. *Moved:* That Miss Lina Bradley be invited to attend Mission meeting, and assist as clerk.

After approval of Minutes, meeting adjourned with prayer.

AD-INTERIM COMMITTEE REPORT.
May 21-27, 1936.

836. Moved that we urge each evangelist to send to other station evangelists samples of all forms and literature which they have printed from time to time. Also that in case any specially good Bible study books are bought, that information regarding such shall be made available to all.

837. We understand and sympathize with the financial difficulties faced by the Executive Committee which prevents their sending new evangelistic reinforcements now, but we would call the attention of the Executive Committee again to our desperate need for male evangelists, and trust that at least three will be sent to the field as soon as is financially possible.

838. Moved that we call the attention of the Executive Committee to the graduation in 1937 of a daughter of the Mission, Miss Sara White, from the University of Pennsylvania Nursing School, and that we extend a call for her services when the financial condition of the Executive Committee makes this possible.

839. In view of (1) the flood danger outside the city where the present hospital plant is located, and (2) the weakened condition of the present walls, Moved that we recommend that the Yencheng Station be allowed to build the new hospital plant inside the city on the former Boys' School property. It is understood that adjoining property may be purchased in the city when building funds become available and if government regulations permit.

840. In view of the fact that a daughter of the Southern Presbyterian Church, Miss Cosa Reynolds, is now in China, as an independent missionary.

Moved, that we ask the Secretary to express to her our friendly interest and assure her that if at any time she comes through the borders of our Mission, that she feel free to visit any of the stations she may desire, and assure her a cordial welcome and any assistance in our power to render. That he also send a copy of this letter to her father and the Executive Committee.

841. When an opportunity comes to an individual or to a Mission Station to invite a missionary, not associated with our Executive Committee, to work or live within the bounds of the station, Voted to instruct the Mission Station, or the individual, first to bring the invitation to the attention of the Mission, or its A. I. C., for approval, before the invitation is extended.

842. In response to the information received that certain members of the Independent Board have asked to live in Haichow while investigating a new field of labor in

Eastern Shantung, just north of our Haichow Station territory, Voted that our missionaries in Haichow be authorized to extend every courtesy in helping these fellow missionaries find suitable living quarters while making the investigation.

Chairman.

REPORT OF ESTIMATES COMMITTEE.

1. Attention is called to action of Mission as recorded at top of page 50, 1935 Minutes, that only such funds as pass through the hands of the missionary be put on balance sheet.

2. Recommended that the Finance Committee be authorized to scale appropriations on pro rata basis if necessary, after hearing from the General Assembly.

3. Voted: To approve of the use for one year, for upkeep of buildings in the school compound at Taichow, of the rent from the residence in that compound.

4. In reply to the request of our representatives at Tenghsien in regard to a house for Dr. B. C. Patterson; in view of the fact that Rev. J. R. Woods will not go to Tenghsien for several years, we recommend that the question be considered when Mr. Woods goes on furlough. In the event, however, that the Tenghsien brethren consider that this house is needed immediately, we recommend that they refer the question to the A. I. C.

5. That Rev. C. H. Patterson be authorized, upon the approval of the Executive Committee, to raise US$300.00, used for land purchased at Tenghsien.

6. Action No. 826 of the A. I. C., requesting the Executive Committee to grant $150.00 for Mr. Richardson's residence, and $250.00 for Mr. Hopkins' residence is re-iterated.

7. In order to redeem the lease of Lungshu Chapel, Haichow Station has used $69.90 of the $150.00 granted from Reparations Funds by the Executive Committee (See 1935 Minutes, p. 34, Item 12). We recommend that the Executive Committee be requested to approve the use of the balance, ($80.10) to cover cost of necessary reparation work.

8. In reponse to the letter of Mr. Willis in regard to the use of Reparation Funds, we recommend that each station make a list of funds drawn, amounts used, and balances in hand. These funds are listed in 1935 Minutes, pages 22, 23, 24, 25, 34, 35, 36, and send these lists promptly to the Treasurer. The member of the Estimates Committee from each station shall prepare these lists.

9. Voted: To approve of the use by Mr. Farrior of an original gift from Chinese sources of $100.00, with accumulated interest for aiding in building of chapels.

10. Voted: That we request the Executive Comittee to pay to Shanghai American School Mex. $393.00, the proportion desired of the N. K. Mission by the Shanghai American School to cover the deficit incurred through a reduction of fees. Our representative on the Board is requested to write a letter to Dr. Carlton Lacy, through whom this request was made, informing that we have asked this of the Executive Committee. It is also voted that our representative on the S. A. S. Board make clear to the administration our dissatisfaction with the spiritual conditions now prevailing in the school.

11. Voted: That we request the Executive Committee to grant Mex. $300.00 in addition to the $1,000.00 already given (See 1935 Minutes, p. 23 (d) because that amount was insufficient to complete the work on the house of Mr. Craig.

12. Voted: To request the Executive Committee to grant Mex. $100.00 from Reparation Funds for re-flooring the kitchen and minor repairs on the residence of Mr. Womeldorf.

13. Voted: That Chinkiang Station be authorized to pay from rents $8.00 per month for a care-taker of the Graham residence, during his absence on furlough.

14. Voted: That with the approval of the Executive Committee, the Suchowfu Station be authorized to use a maximum of $400.00 from Chinkiang rent money to make urgent repairs to the roof of the large dormitory of the Girls' School.

15. The attention of the Executive Committee is called to a request of the Yencheng Station for US$140.00, for a cistern (A. I. C. action 815, item No. 2). This is needed because of the poor water supply at Yencheng.

16. Voted: That the incoming Estimates Committee consider the possibility of discontinuing the US$90.00 appropriation to Cheeloo Medical School.

17. Voted: That Yencheng Medical appropriation of US$500.00 remain, but that it be not subject to transfer within the station this year.

18. Provided the Chinkiang rent funds are sufficient, Voted: That $100.00 be used, with the approval of the Executive Committee, for repairs on the West Gate Church in Chinkiang.

19. Voted: That the Treasurer's statement of receipts and expenditures for the Mission be published in the Minutes.

REPORT OF REPRESENTATIVE ON THE BOARD OF THE SHANGHAI AMERICAN SCHOOL.

The loss through the closing of the American Oriental Bank crippled the finances of the school very seriously. It was possible to make arrangements with another bank so as to carry on, however. Just how much of the above loss may ultimately be recovered is not now known. A general audit of the accounts of the school was made during the autumn by a reliable firm of accountants and the whole system of accounts put upon a much more satisfactory basis.

Through the work of the new Business Manager, Mr. Hayes, a considerable saving has been effected in the running expenses of the institution.

Due to the decline in business a number of American families left Shanghai and returned to the homeland. This has naturally affected the enrollment to some extent during the last two years.

Your representative feels that there has been a very great improvement during the last few years, not only in the personnel and efficiency of the teaching staff, but in the whole tone and spirit of the school. It is a matter of gratification that under the present administration the deportment of the students as a whole has shown a marked improvement.

Certain decided improvements have been made in the landscaping of the grounds. Due to loss of funds in the bank failure it has been necessary to postpone indefinitely the building of a new residence for the principal.

Your representative attended two meetings of the Board during the autumn 1935, and one meeting during the spring.

It is a matter of regret that the Board has decided to introduce dancing on the campus. This was done because a census of the parents of boarder pupils showed that only a small minority objected to their children dancing.

Respectfully submitted,

S. C. FARRIOR,

Representative.

Attention is called to steady increase in the number of women workers and the apparently corresponding increase in the number of women church members while the slight decrease in the number of men workers is accompanied by a smaller increase in men church members. When the number employed by the church is subtracted from the total number of workers the effect of the numerous cuts on the employment of native workers is manifest. The increase in women workers has been made possible by the Auxiliary Birth-Day Fund, at least to a very large extent.

Average preachers' salaries are as follows:

Pastors of fully self-supporting churches	$22.62 per month
Preachers in churches paying 50% or more of sal.	21.08 per month
Preachers in churches paying less than 50%	15.82 per month

As returns on the questionnaire were not complete these salary averages cannot be entirely accurate for the whole field. However, they are doubtless fairly representative and seem to disprove the old idea that preachers' salaries must be kept very low in order for the churches to attain self-support.

The work at the two Home Mission points in the Sutsien Field is supported, not by the local Christians, but as home mission work by the Kiang Pei Presbytery and by certain Christian groups, all however, by Chinese. It is, therefore, true self-support on the part of the Chinese Church.

Also in the Sutsien Field an evangelist with a tent is supported entirely by an elder in the Sutsien City Church at a total cost of $22.00 per month.

As will be apparent from the above the returns on the questionnaire regarding Self-Support were not complete. The effort has been made to give as full information as possible from the statistics sent in.

If this report is compared with the report of the Evaluation Committee on this feature of the work in 1930 it will be obvious that considerable progress has been made. One thing which stands out very clearly is the fact that progress in Self-Support has not been uniform over the whole field. It is not the purpose of this report to go into the reasons for the lack of uniformity. It is hoped that these statistics will claim the careful attention of the members of the Mission and that we all may derive from them inspiration to greater effort toward a truly self-supporting and self-governing church.

Respectfully submitted,

S. C. FARRIOR.
